NEW STEAMERS FOR THIS PORT

Harriman System Lets Contracts for Four Mammoth Trans-Pacific Vessels.

AFTER TRADE OF THE ORIENT

Liners Will Be as Large as Those of Hill Lines and Will Cost \$2,000,000 and \$3,000,000 Each.

CHICAGO, Oct. 28.—The Record-Herald tomorrow will say:

"The management of the Harriman lines is preparing a vigorous campaign for increased Oriental traffic through Portland. Orders will be given for the construction of four mammoth vessels to ply between Portland and Asiatic ports.

The cost of the steamers will be between \$2,000,000 and \$3,000,000 each, and their tonnage will probably be as large as those building for the Hill lines.

IMPORTANT VICTORY.

Only a Small Force of Revolutionists Are Now in the Field.

PANAMA, Oct. 28.—The revolutionary general, Uribe-Urbe, with 10 cannon, 2500 rifles and 20,000 rounds of ammunition, has surrendered to General Marjarras at Rio Frio, near Santa Marta.

General Marjarras, with 2,000 men, proceeded against the rebels and succeeded in forcing them to surrender. The news of this attack was received by General Perdomo and General Salazar this morning. The details of the engagements are lacking, but heavy casualties on both sides are reported. The surrender of Uribe-Urbe is said to be a complete pacification of the department of Magdalena and Bolivar. The revolutionists now occupy the isthmus only.

ARE RELIGIOUS FANATICS.

Daukohabors Release Their Animals and Drag Their Carts.

OTTAWA, Ont., Oct. 28.—The inquiry in regard to the Daukohabors elicits information that a number of them are affected with religious mania. The Daukohabors believe it is a sin to hold domestic animals in restraint and they have turned their cattle and horses loose. The men and women have been yoking themselves to the plow and wagon. A large number of horses and cattle have been seized by the government and sold. The amount realized, about \$20,000, will be used to take care of the families when the winter closes in.

EXCITEMENT SUBSIDING.

Country Shaken By Earthquakes—Force of Eruption Was Terrific.

MEXICO CITY, Oct. 28.—The latest news from the southern part of the republic is that the people are less alarmed. There were on Saturday 45 shocks of earthquakes at San Cristobal. Paleontologists advise that no change can be observed in the shape of the San Juan mountain, but loud prolonged explosions are frequent.

Scientific men in Tabasco say the forces required to precipitate such immense quantities of ashes over so extensive a territory must have been terrific.

SHOOTING GALLERY MAN USED AS TARGET

Escaped to the Street, With Mob at His Heels—Family Troubles the Cause.

NEW YORK, Oct. 28.—Two men, shot through the legs are in Bellevue hospital and one man is locked up as the result of a fusillade of bullets fired in a shooting gallery in a basement at Ninety-eighth street and Third avenue. The prisoner sought the protection of a policeman after he had been chased up Third avenue and through Fourteenth street by a crowd who were shouting: "Tracy, the outlaw! Kill him."

With a rifle over his shoulder, his face cut and bloody, his collar ripped off and his shirt torn, the man, when captured said he was David Wemmer, proprietor of the shooting gallery and declared he had shot no one.

SAUNDERS, WAS PASSING THE GALLERY

when bullets began to fly into the street. Louis Ressler, the second wounded man, Wemmer declared, was the cause of the trouble. The shooting gallery man explained to the police that he had quarreled with his wife recently and that she had left home. In his search for her, he inquired at the home of one of his acquaintances. The latter with several friends came to the gallery, he said, and started a fight. The rifles lying about were caught up and a fusillade followed. He fled into the street, rifle in hand but did not shoot. The crowd took up the chase and in a few moments 250 persons were howling at Wemmer's heels. The police had great difficulty in making the station with their prisoner.

ANTHRACITE MINERS WILL CELEBRATE MITCHELL DAY

Operators Will Try to Work the Mines. But the Men Will Observe the Anniversary.

SCRANTON, Oct. 28.—Official figures from the five big companies show that 9 per cent of the collieries are in operation and that the output is now more than three-quarters of what it is normally.

Much complaint is heard concerning the idleness that will ensue tomorrow by reason of the observation of Mitchell day.

Each company has instructed its superintendents to blow the whistles as usual and work the mines if possible. It is almost a certainty that the whistles will bring no response, as every mining center in the valley has arranged for the Mitchell day celebration.

MEN WILL NOT WORK.

WILKESBARRE, Oct. 28.—In order that Mitchell day may be properly observed tomorrow there will be a general suspension of mining. The operators would rather the men would work, but under the circumstances they are helpless in the matter. Mitchell day is the anniversary of the close of the last strike, October 29, 1900, when the miners returned to work after being out six weeks.

REBELLION ABOUT ENDED

Surrender of Uribe-Urbe Has Broken Backbone of War

WASHINGTON, Oct. 28.—The officials of the Colombian legation here declare that with the surrender of General Uribe-Urbe the life of the rebellion in the interior of Colombia has received a death blow. He was, they say, acknowledged the leader of the movement against the government and by his energy and presence in raising and equipping troops and securing assistance from the outside has kept the revolution going so many years. General Castillo, who surrendered with General Uribe-Urbe, was formerly a guerrilla who gave the government a great deal of trouble.

SAMOA CLAIMS DECISION.

Personal Ilfeeling Is Supposed to Have Influenced King Oscar.

WASHINGTON, Oct. 28.—The officials here find ample examination of the adverse decision of King Oscar in the matter of the Samoan claims in a statement from Stockholm that King Oscar's decision was influenced by three jurists, one of whom was M. Cederkrantz, at one time chief justice of Samoa. While filling that post Cederkrantz came into frequent collision with Judge Chambers, the American land commissioner, who afterwards succeeded Cederkrantz as chief justice, and it is believed the personal illfeeling that followed undoubtedly influenced the character of advice given to King Oscar.

NATURE OF NOTE NOT GIVEN OUT

Reply of Colombian Government to Our Communication Still Withheld From Public.

QUICK SETTLEMENT DESIRED

Colombians Feel Offended Because Our Officers Have Prevented Prompt Movement of Troops.

WASHINGTON, Oct. 28.—It was learned today that a prompt answer has been received by the state department to the latest Colombian note respecting the Panama canal treaty which was transmitted to the department Monday. Its nature was not divulged, but the presumption is that it deals almost entirely with Colombia's representations regarding the sovereignty of the isthmus, which the Colombians feel has been seriously invaded by the acts of Commander McLean and Admiral Casey in preventing the prompt movement of troops across the railroad.

The state department is anxious that a speedy settlement be reached in order to facilitate the completion of the Panama canal treaty. Mr. Concha, the Colombian minister received ample and specific instructions empowering him to proceed in the matter, which has been retarded only by the controversy which has arisen regarding the transit of the isthmus.

ACTIVITY IN WHEAT MARKET.

Better Prices Prevailing Has Made Matters Lively on Coast.

SAN FRANCISCO, Oct. 28.—The upward movement in the price of wheat is causing considerable excitement in local commercial circles and the market is showing more activity than for several months. The fact has developed that early estimates of the crop of this state were far from the actual facts. The reports at first indicated a yield of about 900,000 tons. Now that the harvest is over, the crop is believed to be only 600,000 tons, or a trifle over. The extent of the wheat shortage is shown by the statement that there will be between 25,000,000 and 30,000,000 grain bags carried over this year, against from 10,000,000 to 15,000,000 in ordinary seasons.

The great drought in Australia is turning a large quantity of wheat in that direction which would otherwise be shipped to Europe from this port, though the steamer Saloma has brought news that the drought was breaking and that better conditions prevailed in the south sea continent. The British ships Claverdon, Trafalgar, Glenolva, Blythwood and Vifera have all been chartered to load here for Australia and their cargoes may be engaged before the end of the week. Freights have gone down and ships are now easily secured at 17 shillings 6 pence per ton, with the disengaged tonnage in port on the increase.

RANCHER IS MURDERED.

Found Dead At His Home—His Mother Receives Fatal Injuries.

BUTTE, Mont., Oct. 28.—A Miner special from Bearmouth says James Conn, a wealthy ranchman on the Willow creek, was found shot to death in his home today. His mother lay upon the floor with her skull crushed and cannot live. The murderer is believed to be the lone bandit who held up the North Coast limited Friday morning. The discovery of the crime was made this afternoon and the officers are now at the scene. A demented woman, who had lived with the Conn family for some time and who killed her husband about 20 years ago, was on the premises and it is suggested that perhaps she committed the tragedy.

CHAMBERLAIN'S COMING VISIT.

Trip to Transvaal Sole Topic of Conversation in England.

NEW YORK, Oct. 28.—So unsuccessful have the liberals been in mustering their full strength against the educational bill that they reluctantly decided to reinforce the Irish members, cables the London correspondent of the Tribune.

The unionists are now forecasting a rigorous application of the closure and a shortening of the session. Commenting in the lobbies in Colonial Secretary Chamberlain's journey to South Africa is that it indicates Premier Balfour's confidence in the passage of the measure long before Christmas,

owing to the weakness of the opposition, otherwise he would not have spared his chief lieutenant.

Mrs. Chamberlain, being intensely interested in her husband's work, will accompany him. The announcement of the colonial secretary's proposed visit to South Africa has aroused extraordinary interest in Cape Town and in the sole topic of conversation. It is hailed with enthusiasm as marking an entirely new departure in the relations between Great Britain and her colonies.

COLLISION NEAR TACOMA.

Steamer With Twenty People On Board Is Sunk.

TACOMA, Oct. 28.—The stern wheel steamer Capital City and a small Canadian freighter and trader which was enroute to Tacoma collided this evening off Dash point, near Tacoma. The Capital City was sunk. The trader was not seriously injured.

No one was badly hurt, although the Capital City had about 20 passengers aboard.

SUSPECT IS RELEASED.

Unable to Identify Prisoner as the Train Robber.

BUTTE, Mont., Oct. 28.—A special to the Miner from Missoula, Montana, says that Van Hasendoet, who is held on suspicion of being the bandit who held up the North Coast limited at Bearmouth last Friday morning has been released. The trainmen who confronted the prisoner today were unable to identify him as the robber.

ARRIVE SINGING HYMNS.

CHANGE IN FORTIFICATIONS.

NEW YORK, Oct. 28.—A scheme for setting back the northern and eastern portions of the fortifications of Paris, at a cost of \$10,000,000, has been accepted by the parliamentary credits committee, says a Paris dispatch to the Times, by way of London. The sites of the present fortifications will, it is estimated, produce \$20,000,000.

CLOSER UNION ADVOCATED.

LONDON, Oct. 28.—In a speech at the West Bromwich, Staffordshire, Vice-Admiral Lord Charles Beresford advocated a closer union between Great Britain and the United States.

Physician of Institution Attempts to Recapture Former Inmate and Fails.

COUSIN OF SENATOR TELLER

The Young Lady Files Suit for \$50,000 Against Her Brother for Her Experience at Jacksonville, Ill.

INDIANAPOLIS, Ind., Oct. 28.—A special to the Sentinel from Valparaiso Indiana, says an exciting race, with the liberty of a young woman as the stake, set this city wild this afternoon. Miss Stella Josephine Teller, a cousin of United States Senator Teller of Colorado, was placed a half year ago in a private asylum at Jacksonville, Ill. She escaped and has since resided here. Recently she prepared to file suit for \$50,000 against one of her bro-step revealed her whereabouts and Dr. Thers for her asylum experience. This Sharpe, of the Jacksonville institution came here, placed her in a hack and started for the railroad station. Her attorneys hurried to the station with a blanket habes corpus writ. The writ was signed, Circuit Judge McMahon hastened to grant the necessary order and the Jacksonville physician was compelled to release his former patient.

Deul, superintendent of the Colorado division of the Union Pacific railway, with headquarters in Denver, is said to be slated for the position of general manager of the Union Pacific to succeed E. Dickinson, the present general manager, who, on November 1, will assume similar duties with the Stilwell road in Mexico.

Private advices received in Omaha from Denver state that Mr. Deul's appointment has been practically decided upon.
