TRUST BILL INTRODUCED

Senator Hoar Advocates Measures That Will Bring Large Corporations to Time.

PENALTIES FOR VIOLATORS

Officers of Concerns to File Regular Sworn Statement and Otherwise Keep Government Posted.

WASHINGTON, Jan. 1.—Senator Hoar has completed and today made public the anti-trust bill which he asked leave, before the senate adjourned for the holidays, to introduce. The first section of the measure declares that the act shall not repeal or limit anti-trust laws now on the statute books.

The attorney-general is authorized to employ any assistance which may be deemed necessary to prosecute offenses under the act, or to make investigation, into the same, and for that purpose \$500,000 is appropriated.

Section three provides that from and after June 30, 1904, no corporation shall engage in commerce with foreign nations or among several states unless it shall comply with certain conditions. These conditions provide among other things that corporations shall file sworn statements in the office of the interstate commerce commission each year showing the amount of its capital stock and market value of the same; how much of the same has been paid in full in cash; names of officers and directors and all agents entrusted with the management of its affairs; amount it has paid in dividends during said periods; statement of all stock owned by it of any other corporation undertaking signed by its officers, general manager and directors, and that they will comply with provisions of this and all other laws of the United States in the management of the affairs of said corporations.

The attorney-general of the United States may at any time require of any corporation any statement he may think fit in regard to the conduct of its business, and he may especially require corporations to give the list of all contracts or transactions entered into during the 12 months preceding such requisition in which it has sold any article or product or carried any article or product at a rate less than the ordinary market price. Penalties are provided for a violation of the law.

LEMON JUICE NOT EFFECTIVE
Tests Prove the Acid Will Not Destroy Typhoid Germs.

NEW YORK, Jan. 2.—Dr. W. H. Park, bacteriologist of the department of health, has made several experiments to determine the value of lemon juice in destroying typhoid bacilli, regarding which much has been published recently. Several microscopical examinations of cultures of typhoid bacilli which had been subjected to the action of the lemon juice showed that, although the acid killed the microorganisms, it required too much acid and too much time for the chemical action to take place to render lemon juice as an agent practicable. Dr. Park's negative opinion in regard to the efficacy of the acid as a typhoid prophylactic was corroborated, for after the bacilli had been acted upon by a five percent solution of the acid for 30 minutes, it was found that all of them had not been destroyed.

Dr. Park when questioned regarding the experiments said: "My suspicions were confirmed by the tests. It is far safer to boil the water or filter it properly than to trust to lemon juice to destroy any typhoid bacilli that may be in it. Of course, the statement that the acid would destroy any typhoid germs that might be contained in oysters by sprinkling it on the outside is ridiculous."

HARPER ON SEGREGATION.
System Lately Introduced Will Be Continued.

CHICAGO, Jan. 2.—In the current issue of the University Record, President Harper of the University of Chicago, defines his ideas of segregation. He says in part:

"The policy proposes the continuation of the separation which has already taken place in chapel assembly, with possibly an extension in the matter of division lectures. It permits co-instruction in those courses offered to junior college students for which the registration is not sufficiently large to warrant division on an economical basis. For example, at the present time

one-third of all the courses offered to junior college students, roughly speaking, will be offered to men; one-third to women and one-third open to both men and women.

"It would mean that, as the members increase, the number of courses retained as co-instructional on grounds of economy, would be diminished. The plan makes necessary the provision of separate classrooms and laboratories."

DAILY TRANS-ATLANTIC SERVICE

Morgan's Marine Company Has Assumed Control of Lines.

NEW YORK, Jan. 2.—The International Mercantile Marine company, organized by J. P. Morgan and with Clement A. Griscom as its president and directing chief, took actual control January 1 of the management of the various lines combined, says a Press dispatch from Philadelphia.

One of the first moves of public importance, Mr. Griscom says, will be a rearrangement of sailings to give a fast passenger and mail steamship from both sides of the Atlantic each day except Sunday. It may take a little time before this daily service can be inaugurated. When it is, it will be important to travelers and business men, as it will mean a regular foreign mail delivery with no break.

SITUATION IN THE OIL FIELDS

Grave Fears Are Felt for Safety of Locators—Blizzard Looked For.

SALT LAKE, Jan. 2.—A special to the Tribune from Evanston, Wyo., says:

The situation in the Wyoming oil fields remains practically unchanged. Of the hundreds of locating parties leaving here December 30 and 31, but a small percentage have returned and in some instances grave fears are entertained as to their safety.

This evening weather conditions indicate a heavy storm and if a blizzard, so common in this section, should set in, many locating parties may be lost.

SHIP DRIFTING AIMLESSLY.

Disasted and Short of Provisions In North Pacific.

SAN FRANCISCO, Jan. 2.—The American ship St. David is drifting about on the North Pacific disasted and short of provisions.

The Japanese liner American Maru, which has reached port from the Orient, spoke the ship off the Japanese coast December 17. The St. David is bound from Manila for Tacoma. Captain Going sent a boatload of provisions to the St. David.

PRINCESS MAY LOSE CHILD.

Saxon Court Will Make Effort to Regain Royal Infant.

BERLIN, Jan. 2.—The Saxon court is determined to make an attempt to gain possession of the child of the crown princess according to a courier and has instructed its chief of police at Geneva to keep a sharp lookout and avoid deception by the substitution of another child. The intention of the crown prince is to claim fatherhood of the child and educate it at the Saxon court.

SHARE AND SHARE ALIKE.

Employees of Car Company Will Have More Than Wages.

NEW YORK, Jan. 2.—Announcement was made today that another industrial corporation has inaugurated a plan to share its profits with the employees.

The Pressed Steel Car company proposes to carry for each of its employees, who has been six months or more in its employ, from 1 to 25 shares of preferred stock, now paying 7 percent dividends.

HONOR FOR ROOSEVELT.

NEW YORK, Jan. 2.—President Roosevelt is accorded the honor of a portrait in the Almanach de Gotha, for 1903, which has just made its appearance. This edition is the 104th in the history of this compilation. Along with the president's appear the portraits of King Edward and Queen Alexandra and one of Prince von Stollberg-Wernigerode, vice-president of the Union of Mediatized seigneurs of Germany.

ALL A PIPE DREAM.

Reported Outrages Committed by Alaska Indians Not True.

VANCOUVER, B. C., Jan. 1.—A special from Ottawa says: A short time ago a rumor was circulated by a Salmon River Indian that 200 Indians on the Upper Pelly river had raided trades stores and killed two white men. Assistant Commissioner Wood, after an investigation, reports to the mounted police that there is no truth in the rumor.

DIRECT FROM YOUNG HAWAII

Isolated Community Has Direct Communication With the Outer World.

ENTIRE ISLAND IS REJOICING

Continued Rough Weather Taxed Every Effort of Steamer's Staff, but Patience Was Rewarded.

HONOLULU, Jan. 2.—By courtesy of the Commercial Pacific Cable company, the Associated Press is permitted to tender congratulations on the completion of the first section of the submarine cable that is to connect the United States with its insular possession in the Pacific and eventually with the continent of Asia. The cable was completed at 8:40 last night, when the two ends were brought together in Molokai channel, 35 miles from Honolulu, where the San Francisco end had been buoyed since December 26. Shortly after communication was established, the fact was announced to the crowd in waiting and was greeted with cheers. Judge Cooper, representing Governor Dole, who was absent from the island, filed a message to President Roosevelt announcing the opening and extending of the greeting from the citizens of Hawaii.

The public celebration which has been held in abeyance until the completion of the cable, will be held in the capitol grounds tomorrow. Thus has been finished, after a memorable struggle against wind and wave, an enterprise which brings the Hawaiian Islands 2000 miles nearer the parent continent, puts an important but hitherto isolated community in communication with the entire world and susceptible to all the industrial impetus which follows ready accessibility. The final splicing of the ends in the waters which for days had rendered cable work impossible marked the first stage of the undertaking to span the largest ocean with a line of electric communication, the need of which has long been acknowledged by the entire world and the advocacy of which has often claimed the attention of the highest councils, financial and political, of America. The point of landing was at the beautiful private park of Sans Souci beach, five miles east of the city of Honolulu. With the shore end landed there still remained a span of almost two miles to be closed between the buoyed deep sea end in Molokai channel and the heavy beach line laid a half mile out from shore. The closing of this gap proved a task that taxed the patience as well as the ingenuity of the Silvertown staff. Five days elapsed, the most of which was spent in awaiting the favor of the wind and sea, before their labors were completed and the first message flashed along the 2000 and more miles.

HONOLULU TO CELEBRATE

HONOLULU (via Pacific cable) Jan. 1.—A public celebration will be held here tomorrow in honor of the successful completion of the trans-Pacific cable. The day will be observed as a public holiday. A number of congratulatory addresses by public officials will be made during the afternoon, followed by a ball at night.

ENGINE CREWS KILLED.

Wild Engine Crashes Into Flyer With Fatal Results.

BURLINGTON, Vt., Jan. 1.—A wild engine, running from Burlington to Rutland, on the Rutland railroad, crashed into a northbound flyer from New York to Shelburne. The crews of both engines were killed and nearly everyone of the flyer's crew injured. No passengers were hurt.

THE DEAD:
DENNIS MAHONEY, engineer flyer.
R. COWLEY, engineer wild engine.
JAS. FITZPATRICK, fireman.
D. N. CHASE, fireman.

SUSPECTED DEAD ARCHDUKE ANNOUNCED TO BE ALIVE.

Eloped From Royal Court With an Actress and Was Supposed to Have Been Lost at Sea.

NEW YORK, Jan. 2.—Archduke Leopold, who assisted his sister, the crown princess of Saxony, in her elopement with her children's French tutor, has made the sensational statement to a report of Die Zeit, according to the American's Vienna correspondent, that Archduke Johann Nepomuk Salvator, who renounced his title and took the name of John Orth, and was supposed to have perished in a shipwreck off

the South American coast is really alive. John Orth was, or is, an uncle of Leopold and of the crown princess. Like his nephew, he left the court to go with an actress, Fraulein Mizzi Strubel, who was with John Orth when he disappeared.

Archduke Leopold says he believes his uncle is living with the Archduke Louis Salvator, brother to John Orth and also to the present grand duke of Tuscany. Archduke Louis is eccentric and spends 10 months of the year on a tiny Italian isle and the rest of his time on a yacht.

NEW TYPE OF KITE.

Announced by Inventor to Revolutionize Airships.

NEW YORK, Jan. 2.—William A. Eddy, who is well-known in connection with kite flying inventions, has successfully experimented, says a dispatch from Bayonne, N. J., to the World, with an aero plane similar to the one which Alexander Graham Bell recently made the discovery which led him to announce that the flying machine of the future would be of this type. Mr. Eddy's experiment was in corroboration of Professor Bell's statement that an aero plane kite could be made that would carry the weight of a motor and a man and thus solve the problem of aerial navigation.

As a result of his experiments Mr. Eddy asserts that Professor Bell's discovery will revolutionize flying machine invention.

WAGES RAISED TEN PERCENT.

Arbitration Board Settles Controversy Favorable to Employees.

CHICAGO, Jan. 2.—Three hundred barn, shop and general employees of the Union and Consolidated Traction companies have had their wages increased 10 percent by an arbitration board that has been settling their controversy with the roads. The increase is for the next year and a half and adds \$27,000 to the payroll of the companies.

SCARLET FEVER CLOSES SCHOOL.

Board of Directors of Pendleton Will Take no Chances.

PENDLETON, Ore., Jan. 1.—The public schools and all private schools were closed here today owing to the existence of scarlet fever. They will reopen in two weeks.

TAKE BACK THAT COON

Bunch of High-Strung Southerners Will Have to Endure Their Colored Postmistress.

WAS COMPELLED TO RESIGN

Incumbent Is Endorsed by Better Class of People, So Her Resignation Has Not Been Accepted.

WASHINGTON, Jan. 2.—A feature of the cabinet meeting today was a decision to close permanently the post-office at Indianola, Miss., from which the postmaster, Minnie M. Cox, colored, resigned under compulsion some days ago, since which time the office has been closed.

The postmaster general has made a thorough investigation and has become satisfied that the woman was obliged to resign under duress—in fact that her life was endangered.

The office will not be reopened until the people in the district are ready to accept this woman as their postmaster.

During the afternoon the president discussed with several members of the cabinet other features of the case. Secretary Cortelyou, for the president, made a public statement in part as follows:

"The postmaster at Indianola, Minnie W. Cox, a colored woman, was appointed in 1897 and has served ever since. She has character and standing in the community and is endorsed by the best people in the town. The reports of postoffice inspectors show that she has given the utmost satisfaction to all patrons of the office. The postmaster recently forwarded her resignation, to take effect January 1, but the report of inspectors show that the resignation was forced by a lawless element partly upon the ground of her color, and was obtained under terror of threats. The mayor of the town and the sheriff
