

**WHISTLER IS NOT WELL.**

Not Probable That He is Doing Work as Stated.

New York, Jan. 17.—Much astonishment has been caused among Mr. Whistler's intimate friends by his statements in the New York courts that Richard Canfield has come to London to sit for his portrait in the Chelsea studio, says the Tribune's correspondent in London.

Canfield is in London at Claridges, where Burke Cockran and other Americans are staying, but Mr. Whistler is not in good health and it is doubtful if work can be going on in the Chelsea studio on this portrait. Those who know Mr. Whistler well and have seen him constantly have heard nothing about this portrait. Mr. Whistler ordinarily allows admiring friends to know what he is doing, but he has been strangely silent about this unique subject for portraiture.

**THOSE SCHOLARSHIPS.**

Provision of Rhodes Should Not Apply to High School Graduates.

Providence, R. I., Jan. 17.—President Faunce of the Brown university, who will attend the conference to be held in Cambridge, Mass., next week, concerning the Cecil Rhodes scholarships, says that he doubts very seriously the desirability of sending high school graduates to a foreign country to be educated. He gives it as his belief that the conference will show a sentiment that only graduates of higher institutions of recognized standing should be made eligible for these scholarships.

**CRUSHED BY ELEVATOR.**

Young Society Woman Probably Fatally Injured by Accident.

Santa Barbara, Cal., Jan. 17.—Miss Caroline Kelly, a young society woman of New York, has suffered shocking injuries in an elevator at the Potter

hotel. As Miss Kelly entered the car she tripped and fell. The elevator for some unexplained reason shot upwards, crushing Miss Kelly against the floor above. Amputation of one of her legs may be necessary and the shock may prove fatal.

She is a sister-in-law of Louis Givernaud, a wealthy silk manufacturer of New York and New Jersey, who is staying in Santa Barbara to the winter.

**BANK MUST PAY DAMAGES.**

Dishonored a Depositor's Checks When Funds Were on Hand.

Philadelphia, Jan. 17.—Judge Barrett, in charging a jury yesterday, said that a depositor whose checks were dishonored, although he had funds in the bank to meet them, suffered an injury which entitled him to damages.

The case on trial was that of Samuel Kurlak, a depositor in the Southwestern National bank. It was testified that while he had little more than \$300 in the bank, he drew four checks against it aggregating \$100. The checks were returned "no funds." It was subsequently discovered that a bookkeeper in the bank had mixed Kurlak's account. The bank admitted its mistake. The jury gave Kurlak a verdict for \$1000.

**CONDITION OF MARKET.**

New York, Jan. 17.—The market has been reactionary during the week owing to the evidence of pool liquidation which aroused some suspicion of the apparent strength of last week's market. Minority holders of Reading have liquidated on a large scale in view of the judgment of control with the Baltimore & Ohio and Lake Shore, without any offer to minority holders. Arising sterling market and higher money rates abroad have pointed to a coming gold export movement. Money rates here have continued easy, owing to the return flow from the interior and large payments at New York.

**USE WIRELESS MESSAGES.**

New York, Jan. 17.—Cuthbert Hall states, according to the London correspondent of the Tribune, that wireless telegraphy messages of a private character are now passing between England and Canada.

**CONGRESSMAN MAY DIE.**

Chicago, Jan. 17.—Congressman J. N. W. Rumpel of Marengo, Ia., is at St. Luke's hospital, suffering from a tumor in his neck. His malady is such that the surgeons say it is impossible to successfully perform an operation and it is feared that his death will result in a short time.

**IMPROVES ON THE HOLLAND.**

Young Inventor Turns Out New Submarine Boat.

Winted, Conn., Jan. 17.—Clarence B. Gillette, aged 22, who served in the Spanish-American war, has been granted a patent for improvements in submarine boats. He has been experimenting along the line of submarine navigation since he left school several years ago and claims that his torpedo boat is far superior to all others, being quicker, easier and safer.

The Gillette boat is designed to stay down for 15 hours and longer if desired. Its method of attack is different from that of the Holland. The Gillette will fire Whitehead torpedoes, and it is not necessary to come to the surface.

**YOUNG HEIRESS DIES.**

And as a Result Many Millions Pass Into Other Hands.

San Francisco, Jan. 17.—Considerable speculation has arisen as to the effect the death of little Alice Boalt Tevis will have on the disposition of property left by her father, Hugh Tevis. The call says that in accordance with the will made by Hugh Tevis shortly before his death almost his entire estate of \$4,000,000 will pass to his widow, Mrs. Cornelius Baxter Tevis.

When the late Susan B. Tevis died, she left a large portion of her estate, estimated at \$2,500,000, to her granddaughter, Alice Boalt Tevis. Under the laws of California, this sum will now pass to the little son of the late Hugh Tevis and Mrs. Cornelius Baxter Tevis.

**VALUABLE SHIPMENT.**

Ogdensburg, N. Y., Jan. 17.—A valuable importation of raw silk and silk goods from China has been entered at this port. It consists of nine cars of raw silk and five of silk goods, entered under consular seal for immediate shipment to distant cities. The whole consignment was valued at \$1,500,000. The raw silk goes direct to New York and the silk goods will be

distributed between New York, Philadelphia, Washington and other large cities.

**NOTED PHYSICIAN DEAD.**

Dr. Bancroft Had Gained National Reputation From Treatises.

Denver, Jan. 17.—Word has just been received here from San Diego, Calif., of the death from heart failure of Dr. Frederick J. Bancroft of Denver. Dr. Bancroft was one of the most prominent physicians in the state and has a national reputation for his writings upon the effects of climate upon certain diseases.

Dr. Bancroft served as a surgeon with the Union forces during the Civil war. He was born at Enfield, Conn., in 1831, and came to Colorado in 1866. Three children survive him. The remains will be brought to Denver for burial.

**DIED SUDDENLY.**

Troy, N. Y., Jan. 17.—Carl Alfred Christensen, master mechanic at the Watervliet arsenal, who had charge of the construction of the 16-inch gun which will be formally tested at Sandy Hook today, died last night of paralysis, after two days' illness. His death is directly traceable to the great strain put upon him during the last four years.

**VANDERBILT WALKS ABOUT.**

New York, Jan. 17.—Cornelius Vanderbilt has so far convalesced from his attack of typhoid fever that he was told that in all probability if the improvement continued he would be able to go driving in a week or 10 days. Mr. Vanderbilt has been up for several days and is now well enough to walk about the rooms of the house.
