would have driven her up the coast at a lively rate. The stranded vessel arrived off the Heads last night and no pilot is aboard. Presumably the master lost his bearings, and, getting in too close, was unable to wear off on account of the gale. Captain Richardson stated that the weather at the Heads was very severe, but he entertains little fear for the safety of the crew. First reports of the wreck received last night were to the effect that the vessel was the Crown of India, also from San Francisco, for Astoria, but the Crown of India is a three masted ship, while the stranded vessel is a four masted bark. The bark lies about a mile and a quarter south-southwest of the cape.

Captain Richardson added to the press representatives last night that he thought the life crew would be able to take off the men at low water this morning, provided, of course, the weather moderated.

LATER—A telephone message from Pt. Adams at 2:30 this morning conveyed the positive information that the vessel is the Alsenixie and that she went ashore at 5:15 yesterday evening. The Point Adams life saving crew, Captain Wicklund, and the Fort Canby life saving crew, Captain Stuart, at once put out to the scene and later the life savers of Ilwaco beach, Captain Conick, arrived to assist. When the boats had arrived nearly alongside of the stranded vessel Captain Stuart was swept overboard, but managed to cling to the steering oar until he was pulled in by his comrades. He was badly bruised but did not suffer serious injury.

By the united efforts of the life savers, a line was gotten aboard and 10 men were taken off. The men were put on board the tug Tatoosh. Owing to the very severe weather further effort to save the remainder of the crew had to be abandoned, but this morning at 4:20 it was expected that the sea would be sufficiently calm to rescue every man. So far there have been no casualties.

The bark is lying about 500 yards south of the scene of the Great Republic wreck. It is believed that she will be safely floated today.

**CATARRH**

Often begins with a cold in the head, but it never stops there. The tendency is always from bad to worse. The simple cold becomes a protracted, stubborn one, while the discharge from the nose grows more profuse and offensive. The inflammation extends to the throat and bronchial tubes, causing hoarseness, a tickling sensation and an aggravating cough. The foul matter, from the continually dropping back into the throat finds its way into the stomach, resulting in a distressing form of dyspepsia, nausea, and loss of appetite and strength. The catarrhal poisons are absorbed into the blood, and all the membranes of the body become infected, and what was supposed to be purely a local disease has become constitutional, deep seated and chronic.

Sprays, washes, powders, and other external remedies give only temporary relief, and the disappointed and disgusted patient finally gives up in despair and declares catarrh incurable.

The only way to get rid of catarrh permanently is to treat it through the blood. The system must be toned up and all impurities removed from the blood, and this S. S. S. does promptly and thoroughly. It expels from the circulation everything of an irritating, poisonous character, allowing the inflamed membranes to heal when the mucous discharges cease, and the damage done to the health is soon repaired. S. S. S. keeps the blood in such a healthy, vigorous condition that cold, damp weather or sudden changes in the temperature are not so apt to bring on catarrhal troubles. S. S. S. is a vegetable medicine unequalled as a blood purifier, and the best of all tonics—just the remedy needed to thoroughly and effectually cure catarrh.

be examined as to their fitness to become commissioned officers in the regular establishment.

Despite the great number of applicants, it is said that there will be very few vacancies to fill after the present class at West Point graduates. For this reason it appears that many of the men, should they be successful, will have to wait considerable lengths of time before receiving the appointments that they have studied so hard and long to obtain.

**J. J. HILL SAYS THAT HARD TIMES ARE COMING.**

Believes That Labor Unions are the Bane to the Industrial Interests of This Country.

New York, Feb. 9.—After briefly discussing the anti-trust law and the proposed department of commerce, James J. Hill, president of the Northern Securities company, said:

"As labor unions killed industrial England, so are they destined to bring about a grave financial reverse in the United States, and the country is swiftly approaching that crisis. It may come in a year; it may be deferred until the presidential year, but it is bound to come."

Mr. Hill flatly denied, but depreciatingly, as the average person believes, that the United States is the leading manufacturing nation and is rapidly gathering to its bosom the markets of the entire world. This misapprehension, he averred, is the result of the fact that over one industrial victory this country sets up a louder shout than England, Germany or France over a dozen.

"There seems to be too much confidence in the ability of the country to walk right ahead of all other countries in manufacturing," continued Mr. Hill. "The country can do it, but not without trouble and not without changing its present course. It is indeed a grave crisis we are approaching, though few seem to appreciate it. A few years may see the closing of many factories and the throwing out of work of hundreds of thousands of men. We have been reaping the harvest and the reverse is coming. How quickly we recover from it will depend on who is at the head of the country when the break comes."

**WILL NOT TOLERATE DISMISSAL.**

Company Discharged Prominent Union Man and Strike Is Threatened.

Toronto, Ont., Feb. 9.—A meeting of motormen and conductors of the Toronto Street railway was held yesterday, which may be the forerunner of a strike. P. J. McCarroll, a member of the executive committee of the union, was recently discharged by the company. A mass meeting of the employees was held at which the dismissal of McCarroll was discussed. It was decided that he was discharged solely because he was an officer of the union. It was resolved, however, to communicate with the international union before taking further action.

"I would dislike to see a strike," said Organizer McDonald, "but I am powerless to prevent the men striking if they think they have a just cause to do so."

**WRECK INSPIRES NEW RULES.**

Passenger and Freight Trains Will Hereafter Be Operated Differently.

Philadelphia, Feb. 9.—In consequence of the wreck at Graceland, N. J., on the New Jersey Central railroad recently, in which more than a score of persons were killed, the adoption of an entire set of new and revised rules to govern the dispatching and operating of passenger and freight trains on the joint Reading and Jersey Central system, has been decided at a meeting at the operating offices of both roads.

**ENGLISH COAL IN DEMAND.**

Ten Steamers Chartered for Handling the European Product.

New York, Feb. 9.—After a lull in buying which was never very marked during January, America is again coming into the English market for supplies of coal and iron, according to a London dispatch to the Tribune. One firm of London agents is said to have received inquiry for 100,000 to 500,000 tons of coal and shippers on this side are now talking of sending coal to the United States for the remainder of the year.

Ten steamers have been chartered within the last few days to convey Cleveland iron across the Atlantic, and in consequence, the iron market is holding its own with considerable firmness.

**HOW TO SOLVE RACE HATRED.**

New York, Feb. 9.—Dr. Newell Dwight Hillis, referring in his sermon yesterday to race hatred in America, said:

"If twice a year we could bring the southerners up to New York for two weeks, we would soon solve the negro problem, and if we could take the northerners three times a year for two weeks in the south, they would soon cease trying to manage the southerners' affairs for them."

taken. Two of the bills were to amend the code, and the third, by Davey, is to place the superintendent of public instruction on a flat salary of \$3000.

Haylen's bill to amend a section of the code so that the county court of any county may at its option appoint a county roadmaster, was the first bill up during the brief forenoon session of the house, and it passed unanimously. The present law makes it mandatory on the county court to make such an appointment on the first of January of each year. It is desired to amend the law so that where a roadmaster is not believed necessary this expense can be done away with.

By a vote of 13 to 27 Gault's bill relating to the payment of fees to the clerks of circuit and county courts passed the house. This bill relates only to counties other than Multnomah, and is solely for the purpose of explaining an ambiguous clause, not changing the fees, the Davey bill for an increase of salary for the superintendent of public instruction having already been discussed by the house.

The senate this afternoon reconsidered the vote by which the Croisan direct nomination bill was defeated last Saturday. The bill was referred to the judiciary committee with leave to report any time. The senate passed the Cobb's house bill requiring fenders on all street cars.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. F. J. Cheney & Co., Toledo, Ohio. Sold by druggists. See Hall's Family Pills are the best.
