**Chronic Sores** Eating Ulcers, A Constant Drain Upon the System

And a source of worry, anxiety and endless trouble to those who are afflicted with them, particularly so when located upon the lower extremities where the circulation is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful sight, and as the poison burrows deeper and deeper into the tissue beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sickening discharges. Great running sores and deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple and are a threatening danger always, because while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and cause the greatest annoyance because they are

o persistent and unsightly and detract from one's appearance.

Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, or excessive use of mercury, are the chief sufferers from chronic sores and ulcers. While the blood remains in this unhealthy, polluted condition healing is simply impossible and the sore will continue to grow and spread in spite of washes and salves or any superficial or surface treatment, for the sore is but the outward sign of some constitutional disorder, a bad ndition of the blood and system,

came on my instep, very small at first, not at all painful, but as it grew larger and began to pain me I consulted a doctor, but in spite of all he could do the sore got worse and began to discharge; then other sores came until the whole top of my foot was one large mass of sores and I could not walk. Then my hus-band, who had been cured of Scrofula by the use of S. S., said he believed it would cure me. I began taking it and eight bottles cured me; my foot healed up nicely. I be-lieve I would have been a cripple

for life but for S. S. S. MRS. C. H. KING. which local remdies cannot cure. 8. S. S. reaches these old chronic sores through the blood. It goes to the very root of the trouble and counteracts and removes from the blood all the

impurities and poisons, and gradually builds up the entire system and strengthens the sluggish circulation, and when the blood has been purified and the system purged of all morbid, unhealthy matter the healing process begins, and the eating ulcer or chronic sore is soon entirely gone.

S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed a purely vegetable remedy, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, large of small, write us about it, and our physicians will advise you without charge.
