GOOD CLOTHES

Are always worth what they cost; but paying the price doesn't always get them. The reasons for buying Hart Schaffner & Marx clothes are: First, they're good clothes; second, they cost enough to be good, and no more; third, if you don't think they're as good as they cost, you can have your money back. Buy 'em of a good clothier 'most anywhere. Look for the label H S & M, in order to be sure; a big thing to find.

THE BEE HIVE

Haunts Revisited

Most Pleasant Day So Far of the
Tour Was Spent Yesterday by
President Roosevelt.

OLD FRIENDS WERE THERE

Ranchmen and Indian Chiefs Make
Interesting Scene on President's
Old Stamp-
ing Grounds.

Manzan, N. D., April 7.—President Roosevelt has been traveling through familiar country today, and has received hearty greetings wherever his train stopped. At many places he recognized old friends, and upon his conversation it is evident that this has been one of the most enjoyable days of his trip. At Fargo, Jamestown and Bismarck, he made a stop of from half an hour to an hour and discussed conditions in the Philippines, tariff and general prosperity which the country is enjoying. Stops were also made at Castleton, Tower, Valley City, the home of Governor White; Dawson, Dickinson and Medora.

At Bismarck the president was introduced to a number of Indian chiefs, some of whom had fought against Custer. The chiefs presented an address and a pipe of peace to the president, who had a few words of greeting and thanks for each man. The most interesting ceremony of the day occurred at Medora, where the president at one time owned a ranch and which was his postoffice address 16 years ago, when he was sheriff of Billings county. Medora is a small place but ranchmen from the surrounding country had come into town and they gave him a truly western reception.

Joe Ferris who was the president's old foreman and his brother, S. M. Ferris met the president at Bismarck and rode with him to Medora.

Deadly Results of Stockmen's Feud

Akron, Colo., April 7.—The bullet-riddled body of Joseph I. Meenan, a wealthy stockman, who lived alone on his ranch northeast of this place, has been found lying on the prairie within a short distance of his house. It is believed that he was shot from ambush Friday night as he was returning home from visiting his brother, another cattleman, and that the killing was the result of a feud. For sometime trouble has broken out at intervals among the range men over the question of the right to use the range and in December last Meenan and a rancher named John Irwin engaged in a pistol duel, Irwin being fatally shot. Meenan was so badly wounded that he was in the hospital several months. It is said that following this encounter threats were made against Meenan's life. Meenan was very popular in the neighborhood in which he lived and feeling is strong against the shooting.

Herr Most Is Again Free

New York, April 7.—After serving a year's imprisonment, less about two months, commutation of sentence for good behavior on Blackwell's island, John Most, the anarchist, has been released.

Most was convicted for the publication in his paper, Freiheit, on the day McKinley was shot an article with the caption: "Murder and Murder," which was held by the courts to endanger the public peace in that it was an incitement to the murder of rulers. This was the decision of the court of special sessions before which Most was arraigned and was affirmed by the higher courts.

Upon his release Most went at once to Union Hill, N. J.

Cubans in a Scrimmage

New York, April 7.—While the house of representatives was awaiting President Palma's message, Congressmen Villuendas and Gormendia exchanged angry words about a question of order, says the Havana correspondent to the Tribune. Villuendas called Gormendia a "little, rude, ugly person and a clown." Gormendia challenged Villuendas to go into the street and fight. Villuendas sprang up and ran toward Gormendia, but congressmen seized both men before they got together. It is believed a duel will be fought.

Want Thirty Cents an Hour

Chicago April 7.—A thousand furniture packers in downtown wholesale and retail establishments went on strike today for a nine hour day and \$2.75 as a minimum scale. The packers submitted demands several weeks ago and were offered the nine-hour day with a minimum scale of \$2.

He Took to a Scow

A bunch of fish was taken by Water Baliff Marshall on the 2nd of the month up the river a few miles and was sold to the Lindenbergers cold storage of this city. That much was recorded at the time but the novel method adopted by the patrolman to effect his purpose has just come to light. The water baliff had formerly been tender for the hunting grounds near Quinn and being familiar with the territory there he had been requested to float the scow used by the hunters out of the slough where it was anchored. It being the intention of towing it to some other point with a launch. Accordingly on the evening of the 1st Marshall rowed to the scow and, boarding it, hitched on his boat, unmoored the fastenings and was soon on the Columbia. After drifting a short distance down the river the baliff noticed two men with a net out and when he had neared them dropped his anchor. The men, all unsuspecting, took in their net well filled with good salmon and went over to Marshall. They asked him where he was from and the baliff explained that he had come from Portland and was three days on the way. He said he was out of provisions and asked the men if they could help him out. The kind-hearted fishermen immediately offered their salmon; the baliff did not care for salmon, he said, but being unable to find out what the men intended doing with them wound up by introducing himself and confiscating all the fish. The fishermen were much surprised and told the officer that they had been on the lookout for launches and skiffs but hereafter would confine their attention exclusively to scows as that means of transit had now apparently been adopted by the patrolmen.

Claims He Was Testing Net

H. Hanson was arrested by Deputy Warden Webster Monday afternoon for fishing out of season. Hanson is a resident of Westport and it was near there where he was apprehended. He had a few fish in his possession at the time and these were seized by Deputy Webster and disposed of. Hanson was brought here for trial and yesterday in the court of the justice of the peace was fined in the sum of \$50 which he paid. The net used by Hanson was a diver and he claimed he was simply testing it and that it was necessary to do so in the day time and that was the reason he was caught at that particular time and place accidentally catching salmon. The testing is done to see if the net is properly leaded. This is a very necessary process and the defendant's story did not sound unlikely.

THEY HAVE FOUND OUT

Contractors Wanted to Know What
They Should Do in Order
to Avoid Strikes.

MEN MAY RETURN TO WORK

Contractors Wished to See if the
Union Really Meant Business
and They're Convinced.

Portland, April 7.—The signing of the falling building contract, together with the manner in which other contractors are communicating with the building trades council in order not to be declared unfair, make things look from a union point of view as though the backbone of the strike is broken. A number of contractors called at the headquarters of the council today to learn what was necessary for them to do in order to avoid strikes. They were told that all they need do was to agree not to employ any nonunion men upon any of their contracts.

It is believed the nonunion man was put to work on the falling building yesterday as a test to draw the fire of the union. And the prompt manner in which the building was completely tied up—every man on the job belonging to the various building trades quitting—seems to have convinced the contractors that the union means business and will not hesitate to tie up the entire town with a strike in case its demands are not granted. The master painters are still a unit in their stand to resist the demands of the painters' union, but they cap do nothing, as the union claims, without the aid of the building contractors. The members of the association, of course, are given their contracts for work by the building contractors, and if the latter refuse to employ nonunion men the painter contractors will be bound hand and foot as they cannot put any men to work even if they secured carloads of them from other points.

Arrested on Suspicion

Two suspicious characters were taken into custody by Sheriff Linville and are now in the county jail. They arrived in the city yesterday on the steamer Lurline and purport to have come from Kalama. They had in their possession at least a ton of valuable trawling wire and this unusual circumstance together with the disappointed yarn they tell in connection with their obtaining it, led to their arrest and subsequent detention. The story of the men is that they purchased the wire from a party near Kalama, who was passing there in an open boat, that they loaded it into a skiff and rowed down the river to a point known as Barbary Coast and there they removed the wire and themselves to the home of a resident known as Russian Pete. Yesterday they were in readiness when the Lurline passed and came down on her to here for the purpose, evidently, of disposing of the goods, for soon after their arrival they began to open negotiations with M. Sussman for the purchase of the same. Sheriff Linville had been watching their movements closely and in the evening took them into custody. The men give the names of J. W. Smith and Charles Lyman and say that they left Seattle seven weeks ago, but their subsequent experiences as related by them, are very confusing and no reliance is placed in what they say. From papers found upon their persons it appears conclusive that they are but recently from Portland. For some time past thieves have been at work in the suburbs of Portland surreptitiously removing copper wire, but thus far the miscreants have not been apprehended. It looks very much like the right parties are now in the local county jail and effort will be made at once to get information regarding them. The wire they had in their possession is in loose bunches and is in first class condition.

Bowlers Are Active

Beginning with last night a tryout will be played on the Commercial club alleys, the object being to select a team to engage in the coming contest with the Irving club. A return game, the second of the series, will be played at the Commercial club next Friday evening. The tryout will continue for three evenings, the six highest being selected for the team and the three next to act as substitutes. Both clubs are manifesting keen interest in the contest to be waged between them and when the series are concluded it is expected many good scores will have been made.

ELECTED FOR FOURTH TERM

Carter H. Harrison Will Continue
to Be Mayor of the City
of Chicago.

MAJORITY HAS BEEN CUT DOWN

Liquor Question at Issue in Kansas
and the Ladies of Topeka
Elect "Dry" Man.

Chicago, April 7.—Carter Harrison was elected mayor of Chicago today for the fourth time, his majority by unofficial count being 5949. The republicans elected John S. Smolski for city attorney by 5700 plurality and F. C. Bender for city clerk by 5790 and the democrats elected Ernest Hummel for city treasurer by 21,000.

The new city council will consist of 35 republicans, 22 democrats and independent democrats.

Kansas City, April 7.—Elections were held in all the large cities of Kansas today. The liquor question was the issue in a number of the cities, notably Topeka. The result as a whole shows large republican gains.

Kansas City, the largest city in the state, turned the democratic plurality of 2000 of two years ago into a republican plurality of more than 2500 today. Thomas B. Gilbert was elected mayor. In Topeka, W. S. Berger, republican, was elected mayor by more than 500 plurality. He was a "dry" candidate and received a large majority of the women vote. One year ago a democrat was elected mayor.

The announcement by the ladies of the library association of the presentation of the comedy-drama Diamonds and Hearts on April 17, has been withdrawn. The play will, however, be given under the direction of Mr. Percival and the auspices of the Commercial club as a benefit for the gymnasium fund of the club. The date is set for April 20 at Fishers' opera house.

PROGRAM FOR PARK VISIT

Troop of Cavalry Will Meet the
President and Escort Him
to the Entrance.

NEWSPAPERMEN ARE NOT IN IT

Will Be Accorded Consideration,
but if They Break the Rules
They Will Be Arrested.

Butte, Mont., April 7.—A Fort Yellowstone special says that plans for the reception and entertainment of President Roosevelt in the National Park are complete. Major Pitcher will meet the special train at Gardiner with troop C, Captain F. O. Johnson commanding, and will escort the president into the park. Troop C is the famous Bay Troop of the Third United States cavalry and has a world wide reputation.

Newspaper correspondents will be accorded every consideration, says Major Pitcher, as long as they obey the regulations that have been imposed. In case any of them attempt to enter the park and follow the president they will be arrested and placed in the guard house, there to remain until after the president shall have finished his visit and departed.

President Charles Mellen of the Northern Pacific railroad has taken personal charge of the presidential trip in Montana. His car, acting as a pilot, is to be run 15 minutes ahead of the train carrying the president and his party, and this plan will be followed as long as the president travels over the lines of the Northern Pacific.
