The Morning Astorian.

1903

VOLUME LVI.

ASTORIA, OREGON, TUESDAY, APRIL 14, 1903.

NUMBER 89.

The Young Man's Fancy

is supposed to turn to love in the spring, and we might add—to thoughts of clothes of brighter hue and more stylish cut than in the fall.

Smart-Sac Three Button Sack

exemplifies what the swell C. & B. tailoring does for the nobby young man of to-day who has a cultivated taste for dressing well. The fine tailored appearance at purchase is continued after wearing it. Made of well-shrunk selected fabrics, cut short-waisted and slightly full over the hips. The tailored touch in the design of the front and cut of the lapels makes it the select young man's expression of

Custom Tailor Style

as seen in the metropolitan cities. What does it cost to dress so well? CROUSE &

BRANDBER, Manufacturing Tailors, Utica, N. Y., answer that question with garments that make possible the wearing of clothes of individual effect at fair prices.

THE BEE HIVE

DIDN'T WANT 'EM AROUND

Attempt to Introduce "Scab" Workmen on Portland Building Caused Trouble.

RIOT IS NARROWLY AVERTED

Chief of Police Called Out 50 Men—Contractor Obstinate but Was Ordered to Desist.

Portland, April 13.—An attempt by E. H. Moorehouse to set two nonunion painters at work on the Weinhard building this afternoon at 1:30 o'clock ended almost as soon as it began, owing to the orders of Architect Lewis. Mr. Lewis informed Mr. Moorehouse that things were not ready, and that as soon as it was time for the painters to go to work he would be notified officially. This closed the incident and Mr. Moorehouse retired with his two men.

When Chief Hunt was told this morning that an attempt would be made to break the strike on the Weinhard building he prepared for all emergencies by ordering out two reliefs of 25 men in each. The first relief was marshaled at 1:15 p. m. and marched to the corner of Fifth and Oak under Captain Moore. Here the officers were stationed so as to command all approaches to the building. Within a squad was placed to clear the interior and keep it clear.

Sharply at 1:30 Mr. Moorehouse, accompanied by Nelson Walling and an unknown painter, came into the building to start to work. Instantly the strikers who had stayed inside surrounded the men with cries of "Quit!" Later money was offered them to leave their job. At last the amount was raised to over \$10 a man if they would put down their buckets and refuse to work.

Both men stood pat and angry words ensued. Chief Hunt appeared in company with Architect Lewis, and Mr. Moorehouse called his two men and told them to start to work at painting the frames of the windows. The crowd outside shouted, and trouble seemed imminent, when Mr. Lewis notified Mr. Moorehouse to quit work. "The frames are not ready. They have not been fitted as yet. When we are ready to have the work done you will be notified."

"I'm not afraid of those men outside," said Mr. Moorehouse. "That's not the question," said Chief Hunt. "I'm here to keep order. Mr. Lewis is in authority, and I can't allow you to act against his orders. That would be a breach of the peace, and precipitate trouble."

"All right," answered the contractor, and his men put down their buckets and brushes in perceptible relief. Almost by magic the street outside cleared, and a minute afterward there was peace about the Weinhard building.

Most Ancient Civilization

San Francisco, April 13.—The earliest American civilization, far antedating the generally accepted limits of pre-Columbian culture, has been traced in Peru by Dr. Max Uhle, director of the anthropological excavations and explorations of the University of California in that country. Where, heretofore, Inca tradition had led scientists to believe that Peruvian civilization extended back only a few centuries before the coming of the Spaniards, the archaeological work of Dr. Uhle has established the fact that a great civilization flourished 2000 years earlier, at the least estimate, and that a cultured race, of higher development than the Incas, was in existence before the Trojan war.

This remarkable discovery follows as a result of the studies made in the two expeditions which Dr. Uhle led in recent years at the expense of Mrs. Phoebe Hearst and under the auspices of the University of California.

Too Handy With Revolver

Hartford, Conn., April 12.—Dominick Pacifico, an Italian, 18 years old, shot three men in this city last night. Andrew Hallisey was shot in the abdomen and will probably die. Jeremiah Condrn was shot in the top of the head. The bullet was extracted. Thomas Fitzgerald, who recently returned from

the Philippines, grabbed the Italian and was shot in the shoulder.

According to witnesses, Hallisey had an argument with an Italian, when Pacifico came along on a bicycle, jumped off and began shooting. He was found half an hour later hiding in a closet in a house near the scene of the shooting. He claims that four men attacked him.

Richard Powers was arrested for knocking down a man who said he could identify the prisoner. Over 2000 people followed the prisoners to police headquarters, and there was some talk of lynching the Italian.

COLUMBIA UNIVERSITY CREW.

New York, April 13.—Coach Hanlan of Columbia university's crew, has issued two sweeping challenges to Harlem river oarsmen. In behalf of his varsity eight he offers to row any picked crew on the Harlem river a mile and a half and give them a start of 19 seconds. In behalf of his freshman eight, Mr. Hanlan makes the same offer to any picked eight of junior oarsmen. Mr. Hanlan wants both races to be rowed for challenge cups.

Wife Slayer Cuts His Own Throat

Salem, April 12.—John DeFalco, the Italian convict who was serving a life sentence at the penitentiary for the killing of his wife in Portland on February 24, through jealousy, ended his existence at the prison today by cutting his throat and severing his windpipe with an instrument known as the cell knife. He had been in prison only two weeks.

A Mathematical Freak Dead

Trenton, N. J., April 13.—William Vallance, the famous lightning calculator, who could do any sum in mathematical calculation mentally and with but an instant's hesitation, is dead, aged 39 years. About a week ago he was taken to the State hospital suffering from a severe mental strain, believed to be the result of his work with figures.

Vallance could duplicate the feats of any of the lightning calculators and then beat them all by stating instantly any desired date in history. He could not tell how he knew history, but would recall off fact after fact without ever making a mistake.

He could give instant answers to such arithmetical questions as multiply 389,407 by 4641. Feats in algebra were his delight.

THREE WOMEN INJURED.

San Pablo, Cal., April 13.—The Southern Pacific's Oregon train No. 11 struck a horse and buggy near Stege, 14 miles from San Francisco, injuring three ladies—Miss Mary Fay of Alameda and the Misses Wilson of Oakland. Miss Fay's hip was injured, the elder Miss Wilson's head and eyes were hurt and the younger Miss Wilson had an arm and her jaw injured and some teeth knocked out.

ALASKA PACKERS VESSELS SAIL.

San Francisco, April 13.—Three of the Alaska packers fleet sailed on Easter Sunday for the north with nearly 600 cannery hands and fishermen. The vessels were the bark W. W. Case, the bark Nicholas Thayer and the ship Tacoma, and all were bound for the canneries on Bristol bay. They will be followed today by the ship Euterche.

Are You Satisfied with your present income?

Do you feel that you could earn more if given the opportunity?

I desire to secure the services of a few good men who can give all or a part of their time to selling a security, that is attractive to conservative investors.

Bank references required.

Letters treated as strictly confidential.

PAYNE WILL INVESTIGATE

Information Has Reached Postmaster-General That Will Cause Inquiry.

STATEMENT IS MADE PUBLIC

Head of Department Will Follow Up Clues and Will Make It Hard for Wrongdoers.

Washington, April 13.—Postmaster-General Payne tonight gave out a statement in which he announced that the investigation of the affairs of the postoffice department will be continued and that any person found guilty of wrong doing will be dealt with summarily. The statement follows: "During the months of January and February, information reached me, which I deemed it for the public interest to investigate, and I personally gathered such information and facts as would enable the officers of the department to undertake proper investigation into the truth or falsity of these reports. I directed Fourth Assistant Postmaster-General Bristol to take proper steps to institute the necessary inquiry. The investigation will be continued, and if any wrong doing is discovered the parties guilty will be summarily dealt with. If the system or method of doing business in the department is faulty, proper remedies will be applied without fear or favor. I inaugurated the investigation with the determination that it should be exhaustive. It is proper for me to add that I laid before the president information which I had in my possession, and that he fully approved of the action proposed by me."

Officials Violated the State Law

Denver, Col., April 13.—Governor Peabody has notified the members of the fire and police board of Denver to appear before him on Tuesday next to show cause why they should not be removed for alleged malfeasance and misfeasance in office. The particular charge for which they must stand trial is permitting gambling in the city in violation of the law.

Horrible Deed of Insane Man

Holyoke, Mass., April 13.—Narcisse Gague, aged 38, while insane, killed his wife at his home last night and cut his own throat. The man had been recently acting strangely. It is thought he became angry with his wife for some reason and struck her with a flat iron, breaking her skull, and then cut her throat with a bread knife.

The Alaska Fleet.

The bark Harry Morse with the Columbia River Packers' association's cannery outfit on board is due to sail for Nushagak, Bristol bay, tomorrow. She signed 52 men yesterday for the season. She will also carry 74 Chinese and 24 Japanese for the cannery crew. The Morse is in command of Captain Reynolds. The cannery will be in charge of Superintendent John Carlson. G. Payne goes as accountant, John McCann as machinist, Wm. Hubbard as assistant, Z. C. Davis as engineer of the steamer Alarm, Sterling Price as captain of the steamer Occident, Louis Jackson as beach boss, and Charles Laity as retort man. The expedition goes equipped to pack 55,000 cases of salmon.

The ship Berlin is to sail on Thursday for the Alaska Fishermen's Packing company, with 88 white men, 90 Chinese and 50 Japanese. They go prepared for a pack of 60,000 cases, and Superintendent P. A. Berglund says he expects to bring back that many. He takes as foreman, J. A. Carlson of Ilwaco, and as beach boss, Peter Selnes. The steamer North Star will also leave for Nushagak on April 21 with 14 more men.

The C. F. Sargent, loading for the Portland-Alaska Packing company, will probably also get away this week.

"Macbeth."

John Griffith, as Macbeth, made the hit of the season, "Better than anything in years," perfectly grand," etc., were the expressions used by those

who witnessed the play. That a performance of an unusually high order was on was evidence by the unrest and annoyance in the galleries. It was too deep for the boys and young men whose capacity is for minstrelsy and vaudeville. They were out of place and should have remained away. John Griffith was an entire satisfaction even if he does resemble Bryan and had been under the doctor's care all day yesterday. Warren Conlan as Macbeth and Miss Louise Ripley as Lady Macbeth made a house full of friends. The costumes and scenery were of the finest and were not abridged because the play was given in Astoria instead of Chicago. If all plays were of the order of Aiden Benedict's Macbeth not much would be said against the stage, but many people would have to remain away because it is too realistic for their nerves.

HAVING REAL GOOD TIME

President Roosevelt is Situated Where He Can Look At Buffalo and Things.

LOEB IS ACTING PRESIDENT

When He and His Assistant Are Not Doing Affairs of State They Do the Cleveland Act.

To Oust McGovern.

Although one of its principal promoters and the manager who in two years brought it to bankruptcy, Thos. B. McGowan, who was appointed receiver for the Pacific Packing & Navigation company, never owned more than four shares in that company. On account of this record John Cudahy, the Chicago packer, has filed a petition with the proper court asking that McGowan be immediately ousted from the receivership. Mr. Cudahy states that he was a shareholder in the Pacific American Fisheries company, which in two years cleared over \$300,000. This was one of the concerns absorbed by the P. P. & N. Co. He further says that while the P. P. & N. Co. was becoming insolvent, the Alaska Packers' association was paying nine percent dividends. He thinks that Mr. McGovern is an improper person to handle the affairs of the company, because he is a large shareholder in the Pacific Selling company, which has had the handling of the P. P. & N. output, intimating that the former company might have profited at the expense of the latter.

Charges Preferred.

Water Bailiff Marshall may become seriously involved for soliciting money from fishermen with the understanding that they could fish unmolested. The fishermen not only rejected the offer, but reported the matter to Sheriff Linville. Charges have been preferred and Master Fish Warden an Dusen will institute an investigation.

Regatta Committee is Doing Good

preliminary work for the coming event, and do not propose to fail. It is expected to secure a magnificent Chinese dragon with a hundred uniformed attendants for the parade. Ah Joe, of the Hoy Long company, who achieved conspicuous success as knight of the dragon some years ago, is leading his assistance to the project.
