**Good News For Those In "Pen"**

**Shad May Be Used As Part Of Dietary In Various State Institutions.**

That the state institutions should use more shad in their dietary was the resolution suggested by Fish Warden Van Dusen in Portland, and the plan seemed to meet with approval.

"Shad," said Mr. Van Dusen yesterday, "are cheap and excellent eating, and there is every reason in the world why they should be used to a far greater extent in the state institutions. They are wholesome and palatable, and it would be better for the inmates to have them instead of the single meat diet that they now get."

Should the idea be adopted, as it undoubtedly should be, it will benefit Astoria indirectly to that extent, and also in the direction of calling the attention of the general public to the cheapness and excellence of the fish that the waters of the state produce.

**COMPETITION TO THE DALLES**

The Dalles-Astoria service this summer will be characterized by lively competition, as Captain E. W. Spencer has decided to put his fast and commodious steamer Charles R. Spencer on the run within a couple of weeks. The Spencer is intended, will make the round trip every day of the week, and she will make things lively for the opposition. There is strong rumor that the Arrow, which was taken to the sound recently to compete with the Flyer between Tacoma and Seattle, will be brought back here as she has not proved fast enough to meet the Flyer successfully. It is said that she also will be placed on the run to The Dalles, but this is denied by Captain Spencer, who says that the Arrow will not be brought from the sound.

**MARINE ITEMS.**

The steamer Columbia arrived from San Francisco yesterday.

The schooner Cooper, Vancouver for Redondo with lumber, was towed down the river yesterday by the Lizzie.

The steam schooner Despatch arrived from San Francisco yesterday to load lumber.

The French bark General Faldherbe arrived down last night with wheat for South Africa.

**TO SEE SKELETONS.**

Professor A. L. Clark announces that the physics class of the high school will meet at the office of Dr. Fulton this afternoon for an object lesson in the use of the X-rays. Dr. Fulton has kindly placed his electrical apparatus at the use of the class for the afternoon.

**PALMBERG GETS CONTRACT.**

The contract for the improvement of Eleventh street from Bond to Exchange was let yesterday to C. G. Palmberg. There were three bids submitted: Andrew Birch, \$2181.50; W. A. Goodin, \$2182; C. G. Palmberg, \$2171.

**ALTERING AUDITOR'S OFFICE.**

Extensive alterations and improvements are being made in the office of the city auditor. The partition is being torn down, the safe changed so as to open into the main office, and the whole will be kalsomined and papered. A wire screen will be placed between the waiting room and the office proper, with a high desk for the convenience of those desiring to write.

**BRINGS OAKLAND CEMENT**

The schooner Ethel, which entered at the Astoria customs house yesterday, had on board a unique cargo for Portland. She carried 2000 barrels of Oakland cement, a new material, said to be superior to the best Portland cement. This is the first time that it has been brought into Oregon, and the trial of its qualities will be awaited with interest.

The civil suit brought by Brownie Mayhue against Frank Cicco was yesterday settled out of court, the costs being paid by the defendant.

**MATINEE EVERY DAY AT 2:30.**

The Unique theater, located next to Peterson & Brown's has made a great impression on the public, judging from the crowds which visit the place nightly. The show is without doubt the best ever seen in Astoria. The management has done away with all the delays between acts. Something is on the stage from the time the curtain raises until the show is over. A matinee is given every afternoon commencing at 2:30. A special matinee will be given for the children next Saturday afternoon. Admission 10 cents.

**COUNTY COURT BUSINESS.**

The County Yesterday Transacted the Following Business.

The Seaside-Elk creek road was declared a county road and ordered opened.

The road master was ordered to begin the construction of road 77 upon E. P. Parker and Mrs. Grant signed an agreement as to the timber to be used in its construction.

John Frye, S. J. Hubbard, and Geo. Noland were appointed to examine and accept the Grimes bridge at Seaside, built by J. Lebeck.

The road master was directed to place the pipe line road between the rock crusher and the power house in good repair.

**INDRAVELLI TAKES WHEAT.**

The Portland and Asiatic company steamship Indravelli left Astoria last night for the Orient, taking 21 Chinese from this port and eight from Portland. The Indravelli had a full cargo of miscellaneous articles, and left a considerable amount of freight on the dock at Portland for lack of room. Over 5,000 bushels of wheat was taken for millers at Kobe in Japan, which shows the Oriental is awakening to the fact that he can make his own flour instead of buying it from American millers. Notwithstanding this 48,000 barrels of flour was taken, the total value of the cargo being \$172,296.

Captain Porter, who has served five years in the Indravelli, will take command of the Indravadi on arrival at the Orient. His new ship belongs to the same company, but is on the run between New York and China, so that the officer will not be seen on the Columbia again. He will be succeeded in his present command by Capt. R. P. Craven.

**FIELD DAY AT FORT CANBY.**

Yesterday was field day at Fort Canby and the surrounding country was drained of its population, the people turning out en masse to take in the sports. There were some good records made in high jumping and hurdle racing was made a feature. The soldiers proved themselves good entertainers to the large crowd of spectators, and field day promises to become recognized as a carnival of stunts to be looked forward to.

**BEAUTIFY YOUR ROOMS.**

As a large number of the beautiful pictures displayed by the ladies of the Library association in the Masonic building, corner Ninth and Climmarck streets, remain unsold they will now be offered for sale at terms to suit purchasers. This is a grand opportunity to secure choice works of art suitable for framing and worthy to adorn any room, at whatever you can afford to pay. The ladies desire to close them out this week. All the proceeds go to the library. Do not miss this genuine closing out sale.

**F. M. WARREN IN CITY.**

F. M. Warren, the wellknown Portland business man and capitalist, was in the city yesterday looking after his interests here. Mr. Warren declared himself to be more than satisfied with the way things were going in Astoria. "In Portland," he said, "business has improved considerably since the labor troubles are being settled. I have just come down on a brief business visit, and will return tonight."

**A SUBSTITUTE FOR RUBBER.**

After experimenting for several years a substitute for rubber has been perfected. It is produced, principally, from asphalt, and can be used in the manufacture of rubber goods, linoleum, etc. A substitute of this kind will probably answer as well as the genuine article, but in medicine it has been proven, time and again, that all substitutes are dangerous. Therefore beware of them when purchasing Hostetter's Stomach Bitters, the celebrated family medicine for stomach, liver and kidney ills, by noticing that our private stamp over the neck of the bottle is unbroken. The Bitters positively cures nausea, headache, dizziness, dyspepsia, indigestion, constipation, nervousness and general weakness. Be sure to give it a trial. For sale by all druggists and general dealers.

**THE FLAVEL RECEPTION.**

A reception that proved to be the most perfectly conducted function of the kind given in Astoria for years, was tendered at the home of Mrs. Geo. C. Flavel yesterday afternoon between the hours of 3 and 5 o'clock. The magnificent residence was elaborately and harmoniously decorated, imported white roses being the prevailing flower. The reception room and hall were garbed in white, while pink was featured in the dining and drawing rooms. During the time of entertaining the blinds were kept drawn and the artificial lights, softened by pink shades, produced a scene of striking loveliness, long to be remembered. The entire scheme of coloring could not have been improved upon. It seemed that each room and nook vied with the others in beauty, with the result that the charm was general. There were between 80 and 100 guests, the ladies being the fashionable set of the city. The Columbia orchestra added much to the pleasure of the afternoon by masterly execution of both the classics and selections in a lighter vein. The ladies who assisted the hostess in receiving and entertaining were Mesdames Callender, Dyer, C. W. Fulton, J. G. Megler, P. A. Stokes, George A. J. Taylor, Wilkenson, Cherry, Misses Katie Flavel, Tallant, Lionberger, Bowley, Margaret Higgins, Pearl Cole, Lila Sutherland and Eliza Boelling.

**SOCIAL TONIGHT.**
