THUNDER BOLT OUT OF UNCLOUDED SKY

Sudden Relapse Of Pope Kills All Bright Hopes Entertained For His Re- covery—Another Operation.

Doctors Are Very Grave As To Outcome, But Idea Prevails That End Cannot Be Far Off—Death Approaches By Gradual Sinking Of Eminent Patient.

Rome, July 9.—News of the sudden re-
lapse of the pope and a consultation of
physicians, followed by an alarming
bulletin, was the unexpected thunder
bolt in what had already become, in
public feeling, an unclouded sky. The
idea now prevails that this brings to a
definite end all of the bright hopes
which were cherished this morning.
Prof. Rosconi made a most careful ex-
amination of the illustrious patient,
and his tests proved not only the pres-
ence of fluid in the pleura, but its rapid
augmentation, affecting the patient
with the same disturbance observed
on Tuesday. The necessity for an-
other operation is indicated. A state
of great prostration has ensued, ren-
dering worse the affection of the kid-
neys. It is likely an injection of salt
water to the veins will be resorted to.

Rome, July 10.—(2 a. m.)—Another
day of alternate hopes and fears has
passed and Pope Leo's life still hangs in
the balance.

Beginning with renewed hopes, the
day closed with the scales tending
slowly but surely downward. How
long this agonizing period of suspense
will last not even the attending doctors
dare to say. No night bulletin was
issued, but at 1:25 this morning it was
learned from Dr. Mazzoni that the con-
dition of the pontiff had not changed
since the issue of the evening bulletin
at 7:30 o'clock, which announced that
the patient's state was grave, and at
which hour Dr. Laponi had declared
his fear that there was no hope, but
that the end might not come during
the night.

At midnight a report coming from
the Vatican gained currency that Dr.
Laponi had again operated on the
pope and extracted the serum which
had again gathered in the pleural cav-
ity. A representative of the Asso-
ciated Press immediately went to the

illustrious surgeon and found him at his
home at 1:30 this morning. Although
extremely tired, Dr. Mazzoni allowed
himself to be interviewed, and said:

"It is untrue that a new operation has
been performed. I was with the pope
from 11 p. m. until after midnight and
found his general condition satisfac-
tory, no change having taken place
since the afternoon, when a consulta-
tion with Dr. Rossini was held. To
strengthen the patient's heart and help
the circulation of blood, I injected cam-
phor and caffeine, after which, the pope,
who seemed somewhat relieved, said
he remembered being treated with ras-
pied water on a camphor basis when he
was nuncio at Brussels 60 years ago. In
reply to a question, Dr. Mazzoni re-
plied:

"I really cannot say whether the se-
rum in the pleura cavity has increased
since the consultation this evening, as I
did not examine him for such purpose.
In tomorrow's visit attention will be
especially centered on the progress in
secretion of serum. Then decision will
be taken as to whether another opera-
tion is necessary."

Dr. Mazzoni ridiculed the accusation
that pleurisy was not discovered in
time.

"I visited the pope for the first time
on Sunday," said he. "On Monday eve-
ning I discovered the fluid and on Tues-
day removed it. Any student of medi-
cine knows that sometimes weeks pass
before the presence of serum is de-
tected."

Tonight the doctors freely expressed
their personal convictions regarding
the extreme gravity of the case. Dr.
Laponi said without qualification,
that the patient's condition was beyond
hope. He did not expect a final col-
lapse tonight, but rather a gradual
sinking until the end came. How long
the sufferer may last the doctors will
not venture to predict.

deaths from the heat today in New
York, six in Brooklyn and fully 40 pro-
strations.

tered 99 degrees. Today it ran to 94 de-
grees.

JEWISH PETITION IS NEARLY READY.

Simon Wolf of B'nai Brith Notices
Secretary Hay that President
Will Receive Document
Tuesday.

Washington, July 9.—Simon Wolf, of
the B'nai Brith society, called on Sec-
retary Hay this morning and said the
Jewish petition to the czar would be
ready Monday of next week and that
he will present the document to the
President Tuesday.

It is understood that the president will
transmit the petition to the czar with-
in a day after it is received by him.
It is also understood that there will be
no comment made by the president
which will accompany the document.
In what spirit the petition will be re-
ceived by the Russian government can
not be told. It is not believed, however,
that the czar will refuse to receive
them, thus giving a slap to the admin-
istration for sending them.
The text of the petition has not been
given out and will probably not be
made public until after the Russian
government has the document in its
hands.

PEACE IN EVANSVILLE.

Terrible Riots Quiet Down and Mil-
itia Removed.

with Governor Durbin over the tele-
phone this afternoon, General McKee
tonight ordered all troops removed
from Evansville. The city will be
left in charge of the police department,
which is armed with rifles. Several
prominent citizens were examined to-
day by the grand jury concerning Mon-
day night's riot.

DIED IN THE VATICAN.

Volponi, Secretary of the Congregation,
Suddenly Stricken.

Rome, July 9.—Although the condi-
tion of the pope is still the center of in-
terest, the case of Monsignor Volponi,
whose death occurred early this morn-
ing, has attracted much attention, not
only because of his office of secretary
of the consistorial congregation, to
which he had just been appointed by
Pope Leo, but also on account of the
manner in which he was seized with
illness; and it is hardly possible to de-
scribe the sensation and condition
which prevailed at the Vatican when
it was announced that he had died,
shortly after the doctors had stated
that all hope of saving his life was
gone.

From the moment he was stricken
and fell to the floor, Monsignor Volponi
lost entirely the power of speech and
the use of the entire right side of his
body and he was apparently unconsci-
ous when he died. It has been ascer-
tained that the cause of death was cer-
ebral congestion.

Great care has been taken to keep
the news of Monsignor Volponi's illness
and death from the pope.

It will be impossible to keep the news
of the death of Monsignor Volponi
from the pope, as the office of secre-
tary of the consistorial congregation, to
which Pope Leo appointed the deceased
prelate July 5—the last appointment
made by his holiness—must be filled
without delay in view of the possibility
of a papal interregnum, as it is known
that at the moment the pope dies the
secretary of the consistorial congrega-
tion whose career is from that time as-
sured, as, according to custom, he is to
be the first cardinal to be appointed by
the new pope. The sarcastic humor of
the Romans regales itself even at this
solemn and sad moment. The remark
has been heard that Pope Leo, not satis-
fied at having killed all the cardinals
created by his predecessor, except Car-
dinal Orgelini, and over 100 of those cre-
ated by himself, now begins to kill
those to be created by his successor.

MURDER WILL OUT.

Mystery Surrounding Death of Colonel
Best is Clearing Up.

San Rafael, Cal., July 9.—New facts
are developing all the time in the
Woods-Best case under the thorough
probing it is now receiving from the
authorities of Marin county. Minnie
Meghetti, who was a servant in the
Woods family for six months prior to
the demise of Colonel Best, stated that
she saw Dr. Woods give Best a hypo-
dermic injection of some drug. Short-
ly after he began groaning and soon he
came unconscious, never regaining his
senses. This Miss Meghetti says was
about April 2, 1903. Coroner Sawyer,
in whose establishment the body of
Best was embalmed, could not say if
any of the organs had been removed.
His deputy handled the case. He,
when questioned on the subject would
not commit himself on the subject, but
said that when the proper time arrived
he would tell all he knew about the em-
balming.
