

THE OLD RELIABLE

THERE IS NO SUBSTITUTE

A LITTLE ABOUT EVERYTHING.

It's all off. Lipton has a rabbit's foot this time. As candy eaters and water drinkers Americans rank first. Never hurry. A leisurely gait gives an air of prosperity. The are 270 different religions in the United Kingdom. Do unto others as you would have your mother-in-law do unto you.

way and say: "I will succeed in what ever I undertake. There are plenty of people of few words—but they make those few words work a whole lot. Those people who borrow their neighbor's paper certainly glory in the freedom of the press. Why are young men like y'negar? Because the more mother there is in them the better they are. Beware of sitting in a draft when your clothes are damp. Keep moving about and they will soon dry. There are apparently about 1,000,000 pensioners on the pay roll nearly forty years after the civil war. Some people are not content to tell the story of their life. They want to make an illustrated serial of it. Candy and confectionery to the amount of \$100,000,000 are sold in the American home market every year. Some very good men are so thoughtless about their wives, while they take the best of care of the farm team. Americans drink more water, eat more candy and consume more peas than any other country in the world. Recollect, you have no more disagreeable things to put up with than have other folks—so don't worry aloud. One hundred trillion flies can be produced in three months from a single pair of flies. People in the east do not doubt this statement. The fear of failure hampers the energies of many a young man and woman in the early days of their battle with the world. Seventy-nine percent of the population of the United States were born within the state or territory of their present residence. It will cost St. Louis more to celebrate the Louisiana purchase than was paid for the entire original territory it embraces. The midway at the St. Louis exposition will be called "The Pike." The things that come down it will be a caution to snakes. One who lives too much in the past in reminiscence, has begun to fossilize; he will soon be on the shelf unless he can break the spell of his nightmare and get awake to the stirring present, with his eyes open to the promising future.

There's a nothing gained by fretting. Gather your strength anew. And step by step go onward. Let the skies be gray or blue. Not only is the Siberian railway practically completed, but more than 600,000 immigrants have already had grants allowed to them. If you should die tonight how much would your wife and family have to live on? Some men think life insurance is money thrown away. Put a few wire nails in your ink well. The ink's corrosive acid will play itself out on the nails, and in consequence your pen will escape. Openings for women in South Africa appear to be many and varied. A woman writing on this subject says the peculiarity of this country is its unfamiliar condition of life. Luxuries are more in demand than necessities. A good deal of modern charity is giving money that you grudge, to people in whom you have little faith, for purposes of which you do not at all approve. Don't allow a child to grow up with squinting eyes or crooked teeth. The scientific treatment of physical defects has reached a high point of skill, and many of nature's unkindnesses may be overcome.

One Hundred Strong We Must Swell this to Thirty more in Thirty Days.

In the Regatta Courier distributed in every family in your city you will find a list of pianos, pianolas and organs sold in Astoria by the Eiler's Piano House to the number of one hundred. Count 'em." We want to swell this list 30 more in 30 days from our opening sale. Ten days have elapsed and we have added 8 to the list, this leaves 22 to be sold within the next 20 days. We can do it easy. This is the way we expect to do it: Out of fifty prospective customers, the names of which we have on our desk, we are sure 20 of these will take advantage of our special offer on as many different makes of pianos. Note the list of some of the familiar names, such as Weber, Chickering, Kimball, Vose, Hadziorff, Hobart, M. Cable, Victor, Whitney and many others. Crowding in six months business done in the ordinary way in thirty days actual time is explained as follows: We save 5-6 of the expense in marketing these 30 pianos this goes into your pockets. You can actually buy a \$650 piano for \$465; \$550 piano for \$418; \$450 piano for \$357; \$425 piano for \$318; \$325 piano for \$235; \$250 piano for \$145. What you ought to do is not only to come along yourself but see that your friends join in the movement. The terms of payments are so reasonable and the prices so low you cannot afford to ignore this opportunity nor delay action. Twenty days will go by quickly. The blame, as well as the loss, will be yours, if you let this chance slip by. Do not procrastinate. Come today. Tomorrow the very piano you might want may be gone. Jealous Man Shoots Wife and Daughter-in-Law—Police Save Him From Mob

New York, July 20.—Only by drawing their revolvers and threatening to shoot to kill did several Brooklyn police men prevent a mob from wreaking vengeance on Frederick Kriese Meyer after he had shot his wife and his step-daughter. Up to the doors of the Hamburg avenue police station the clamorous mob went crying "lynch him," and it was necessary to call out the reserves. Kriese Meyer was so badly beaten before the policemen rescued him that it was necessary to quilt an ambulance. Although he is 40 years old, Kriese Meyer was driven to the shooting by jealousy of his wife, whom he married three years old and who is 54 years old. She owns the house in which they lived and in the station house he asserted that she had been receiving the attentions of a wealthy butcher for some months and that he saw her and her daughter with him just before the shooting. In the hospital suffering from three bullet wounds his wife said, in reply to his assertions, that he was crazy. The shooting followed a quarrel during which Kriese Meyer was reminded that he did not own the house. The wife probably will recover, but it is thought the daughter is fatally wounded. Returning from the house after the shooting Kriese Meyer was surrounded by neighbors who beat him down. He escaped but was again surrounded, a policeman finally reached his side and revolver in hand, kept the mob back until aid was secured. The crowd followed, however, until the prisoner had been safely locked up.

WOMAN'S COLUMN. Silence is golden. There are a few women in the Klondike. An attractive woman can outdistance a brainy one at every move. It should be the ambition of every woman to live up to her best photograph. The ladies now wear men's fancy hosiery and regular man's garters. What next? Some men are like sky rockets—they attract the most attention just before they fizzle out. In Boston elevator girls are giving satisfaction in several buildings where they have been installed. She who marries for wealth sells her liberty and she who marries for love gives away her liberty. A New York woman says society demands \$6,000 to \$7,000 to furnish dresses for one lady. You must beware of the first signs of laziness. The artist who says "it will do" is on the downward path. Whenever a woman makes an unhappy marriage she says it was because her parents opposed the match. Money is not the root of all evil. If you'll hold your ear close to the paper now we'll tell you what it is. It is laziness. The new king of Serbia is a widower, he is likely to have more or less trouble in finding a woman who is willing to share his glory—and risks. No unfoolish woman will declare that she is a man hater. Everybody will know then that she has met no man at all or not of the right kind. The girl who reads the Declaration of Independence at the Fourth of July celebration gets good training for making the same declaration to her husband later on in life. Never set yourself up for a musician just because you have a drum in your ear; nor believe you are cut out for a school teacher merely because you have a pupil in your eye. A lover who had been discarded by his lady for another sued the faithless fair one for the money expended on her during the courtship, whereupon she turned and married him. It all depends on circumstances. One girl can do things that are considered chic and cunning and characteristic, and if another girl does them she is called crazy. In Denmark there are companies that insure women who have a fear of becoming old maids. They pay stated sums every year, and should they marry before they are 40 what they have paid goes to the less fortunate. After they are 40 they receive pensions for life. Australia wants 200,000 British wives, Canada wants 90,000 and the Cape would like 20,000. It is said that there are nearly 1,000,000 more women than men in the British Isles. The shah of Persia, who recently dismissed 1,640 of the 1,700 wives he had in his harem, has commanded state ministers to marry fifty of them. The rest have found husbands without his majesty's aid.

and excepted to by the defendant at the time. 3. The court erred in denying the defendant's motion for change of venue upon the showing made there. 4. Insufficiency of evidence to justify the verdict in this; That it does not appear from the evidence or the instructions of the court that the city of Astoria is or was a municipal corporation. The motion for the arrest of judgment was made on the ground that the facts in the information do not constitute a crime. A Russian woman engineer, Mrs. Konovey, has just been commissioned to help construct a railway from Valt-Bukhtichsarria Sympherop. She is the first woman to receive such a commission. She studied engineering in Paris. The queen of England, with a bonnet on her head, looked over the garden wall the other day, and it is now reported that bonnets are coming into fashion again. The king may make as wear white vest slips, but only a queen could turn the women back to bonnets. The crown Princess of Denmark, who is now in Paris with her husband, is not celebrated for her good looks, but she has the more permanent distinction of being the richest royal princess in Europe. Her royal highness was left by her mother, the late queen of Sweden, a fortune of 60,000,000 marks—about 15,000,000 American dollars—and this legacy, through being wisely invested, is said to have increased to an even more impressive sum.

CUBA TO COPY FROM AMERICA.

The Cuban government has decided to adopt our system of government in its foreign department, and to that end are obtaining all the available data possible. Imitation is the best evidence of the value of our system of government, and in medicine the same is also true. Consider Hostetter's Bitters for a moment. During the past 50 years it has established an unequalled record of cures of stomach ills, and because of its wonderful success it is being widely imitated. In some cases the bogus article is being used to refill the genuine Hostetter bottles. Beware of all such imitations. The genuine is sold only in bottles securely sealed with a private stamp over the neck. It positively cures dizziness, headache, nausea, indigestion, dyspepsia, and malaria. Don't fail to try it.
