## More Than Price

In selecting clothing the style, quality, design and tailoring are of more importance than the price, for if they are not correct you don't want the garment at any price.

We make it our business to attend to these features for you. You get correct clothes and pay only an honest price

P. A. STOKES

### WHIPS AT FISHER BROTHERS

### NEW HAMMOCKS

Large assortment of unusually handsome goods just received.

75 cents to \$5.00.

J. N. GRIFFIN.

### Plumbing Troubles

Imperfect plumbing makes real trouble. If you have an imperfect job, better fix it. We'll make it right for you. Whether it's repair or new work we respond promptly, do it well and get your approval with our pay.

**W. J. SCULLEY**  
470-472 Commercial. Phone Black 2242

### DRY GOODS, BOOTS AND SHOES

Best lines in the city for the money

#### GROCERIES

Prompt delivery of Fresh Fruits, Vegetables, Prepared Foods Cured Meats, Flour, Feed, etc.

Cor. Eleventh and Bond **V. H. COFFEY**

Men's Sweaters, plain and fancy 95c to \$3.00

Fall lines of Ladies' and Children's Shoes now coming in. Have you seen our Fancy Hosiery Window?

### THE BEE HIVE

## FOLSOM CONVICTS ARE LOCATED BY POSSE

### Officers Now In Pursuit of Desperadoes With Force of Men With Indications of an Early Capture

#### Sheriff Telephones to Sacramento That Quarry Is Spotted--People in District Alarmed in Spite of Presence of Peace Officers--Headed for Mountains

Sacramento, July 30.—Sheriff Reese tonight telephoned from Loftus to his son here the following message: "We have located the convicts south of this place, between here and the railroad. Will start in a few moments with 20 men. Hope to catch up with them."

Placerville, July 30.—Although hundreds of men are engaged in the search for twelve prisoners who escaped from Folsom Monday the outlaws have succeeded in eluding their pursuers and the ultimate escape of a portion of the gang

seems highly probable. Since the flight at Pilot Hill Monday night others have not been seen, unless the story of a cowboy who says he met two armed men in Placer county today and afterwards identified them as convicts by photographs, proves to be true. The conviction is growing that the fleeing men are headed for the Sierra Nevada mountains being aided by ex-convicts who reside along the route. People throughout this section of the state are greatly alarmed, notwithstanding the presence of peace officers.

### CONDITION OF IRON TRADE

#### WALL STREET CRASH FAILS TO INFLUENCE MARKET—PRICES REMAIN FIRM AND DEMAND FIRM.

Cleveland, July 30.—The Iron Trade Review in its issue this week says: The sensational fall in securities this week and the acute feeling of pessimism attending it have begotten no corresponding sentiment in the iron trade, but naturally they have not helped to break the lull in the market. No noteworthy business has resulted from the revival of the billet agreement, with a price basis somewhat below that recently prevalent but there is sufficient to encourage buying by rod mills. That steel mills which have had no steel to sell for months are now able to offer a certain small fraction of their output on the market indicates that furnishing capacity is not as fully occupied as it might be, even after the shut downs of the first half of July.

While there are no indications thus far that consumption is to be materially reduced in the near future yet the effect of the Wall Street crash, or rather of the causes that led to it, upon the business interests of the country is being seriously discussed. Over extension of credit on industrial operations is likely to be followed by the same scared scrutiny and shifting as have come to the stocks of over capitalized consolidations.

The railroads, while not scrambling for early places on order books of the fall mills keep on contracting for next year and it is estimated that close to 1,000,000 tons for 1904 delivery is now booked, including what was originally placed for 1903 that must go over. The investigations by the granger roads into the probable yield in the wheat and corn states have brought them to the conclusion that every car will be needed to meet the demands of the fall and winter. Pig iron is weaker. Stocks have been increasing while foundrymen have waited and the large buyers of foundry iron assert that \$12 Southern iron is within sight, though reports of a large block being taken at that figure are again denied. Contracts for castings are being taken with every week, for which the pig iron is yet to be bought. Importations, presumably under old contracts, have been more of a factor than has been generally supposed, being 7,000 tons for June and 82,000 tons for the year ending June 30, or equal to the output of 12 foundry iron furnaces each producing 200 tons a day.

### WILL HAVE LARGE TIME

#### MINUTE HAND OF THIS CLOCK TO BE SIXTY FEET IN LENGTH—FOR WORLD'S FAIR

Chicago, July 30.—A dispatch to the Tribune from Milwaukee, says: The greatest clock in the world, the dial of which will be 120 feet in diameter, is being built here for use at the Louisiana Purchase exposition next year.

Only the hands and machinery are being made here, for the dial is to be a brilliant bed of flowers. The clock will be placed on the side of the hill north of the agricultural building. The minute hand will be 60 feet long, and the ring at the end, which will be fastened to the machinery, will be eight feet in diameter. The minute hand will move five feet every minute. The numerals marking the various hours will be 15 feet in length and made of bright colored enamel. In a broad circle surrounding the dial will be 12 flower beds, one opposite each hour and each two feet wide and 15 feet long. At night the time piece will be illuminated with 2000 incandescent lights.

### INTERESTED IN LINE

#### ROOSEVELT SENDS COMMISSIONER TO CHILE AND ACTION MEETS WITH APPROVAL

New York, July 30.—Interest is being shown throughout Chile, according to South American papers received here, in the Pan-American Railway project and in the mission of Charles M. Pepper, who has been sent as commissioner to South America by President Roosevelt to secure the cooperation of those governments for the completion of the line. Senor Augusto Matte, who was a colleague of Commissioner Pepper at the Pan-American Congress in Mexico is quoted in El Mercurio as follows: "The undertaking is a gigantic one but perfectly practical, and great benefits will be derived by Chile from the close touch which the interior of the country will have with the rich territory of the North. It will mean a boom to the development of our country and will benefit our political and industrial life in general."

### ESCAPE OF THE RULERS

#### TWEED RING USED SECRET PASSAGE THAT IS UNCOVERED BY WORKMEN

New York, July 30.—In removing the large oil painting of Andrew Jackson from its place in the old council chamber in the west wing of the city hall preparatory to renovating the room, an old secret stairway leading to the upper floor of the city hall to the basement has been uncovered. An old employe was able to explain the use of the unknown exit.

When the "Tweed Ring" was in control of the municipal government, the stairway, he said, was often used by aldermen as a means of escaping from the building when angry constituents were awaiting them outside and was used on other occasions to escape the service of legal papers in suits brought by taxpayers to prevent the grants of franchises.

### WHERE THE SHAMROCK GROWS.

Galway, Ireland, July 30.—King Edward and Queen Alexandra continued by motor their inspection today of some of the wildest and most picturesque regions of Ireland. The start was made this morning from Leenan on the shore of Killarney bay. The motor journey ended at Reccan, where the party had luncheon.

### B. P. O. E. TRUSTEES MEET.

New York, July 30.—At the annual meeting of the board of grand trustees of the Benevolent and Protective Order of Elks, which has just been held here, only routine business was transacted. The following members of the board attended: Henry W. Mears, of Baltimore; John D. O'Shea of Lynn, Mass.; Robert W. Browning of Louisville; Joseph T. Fanning, grand exalted ruler; George W. A. Reynolds, grand secretary. An other meeting will be held at the Elks' national home at Bedford, Va., late in August.

### PAYS TO BE SMALL

Chicago, July 30.—At the meeting of the Union Garment Workers Association, which ended last night, it was decided to adjust prices to accord with the size of the garment. Thus, a man weighing 130 pounds might be able to buy his suit for \$10, while the man whose physique would measure 250 pounds on the scales might be charged \$15.

## NEGROES TOO INQUISITIVE

### Police Called In to Quell Disturbance Resulting From Fire of Questions.

### OPPOSED TO Mr. WASHINGTON

#### Meeting Conducted By Great Colored Leader Nearly Upset By Riotous Scams.

Boston, July 30.—An attempt by half a dozen colored persons opposed to Booker Washington, president of the Tuskegee institute, to ask questions at a meeting which he was addressing tonight at Zion church, almost resulted in a riot and 25 policemen were called to quell the disturbance. Washington was allowed to proceed.

At the close of the meeting Washington issued a statement that the colored people of Boston should not be held responsible for a few riotous individuals and Wm. Trotter, one of those arrested, stated that the cause of the rioting was an absurd ruling of Chairman Lewis in ordering the arrest and ejection of any person who hesitated to speak. He said the disturbance was prearranged and after the meeting Trotter and his friends admitted that they went there with the intention of breeding trouble.

### ACQUITS HERSELF NOBLY

#### SHAMROCK III BEATS SHAMROCK I IN STIFF BREEZE—LATTER IS INJURED BY PUFF OF WIND.

Atlantic Highlands, N. J., July 30.—In a sea rougher than any she had raced in before and with wind that blew more than 12 knots an hour, Shamrock III experienced her most severe racing trial today, and acquitted herself as became a candidate for America's cup. Her performance in eight miles of windward work, in which it was estimated that she beat Shamrock I by six minutes, was a surprise. Before the race was finished, however, a puff of wind split two feet of the mainsail of Shamrock I near the peak. The trial was abandoned.

### CURED OF LOCKJAW

#### REMARKABLE FEAT PERFORMED BY DOCTORS IN INTEREST OF MEDICAL SCIENCE

San Francisco, July 30.—The doctors at the German hospital have succeeded in conquering a case of lockjaw. The patient was Pietro Raffino, who was badly burned at Stockton last May and was attacked by lockjaw. His cure is a remarkable one and will be the subject of a medical paper. He arrived at the hospital on May 31. The following day anti-toxin was injected in the muscles of the back. The next day he was given two more injections. On Wednesday it was found that no improvement had developed and early in the morning he was given an injection of anti-toxin in the spinal canal and again in the afternoon. The following morning, Thursday, the doctors drilled a small hole through the skull, inserting a spinal needle and injected anti-toxin into the lateral ventricle. The treatment proved somewhat successful and now Raffino though somewhat weak is as well as ever he was.

### CAKEWALK IN LONDON

#### SOCIETY SWELL WINS A NOVEL WAGER TO THE DELIGHT OF A LARGE AUDIENCE

New York, July 30.—For a wager of \$2500 a rather well known gentleman of athletic propensities undertook, says a London dispatch to the Herald, to perform a cake walk from a well known restaurant to Hyde Park corner and back, between 11 o'clock in the morning and 6 o'clock in the evening. The appearance of a well dressed man alternately walking with his knees on a level with his chest and hopping on one foot, followed by hansom cabs containing umpires and backers caused considerable comment and amusement in the West End. However, he won the wager.

### YOUNG WOMEN STRIKE

New York, July 30.—Nearly 2000 young women who compose the Wrapper Makers Union, are on a strike for a nine hour day. A crowd of the strikers invaded one shop where the women had refused to quit. They overturned sewing machines and scattered partly finished garments around the floor. Police reserves had to be called to quell the disturbance and several strikers were arrested.

## CARDINALS DO NOT APPRECIATE THEIR CELLS

### Absence of Running Water and Proper Ventilation Creates Disgust in Ranks of Churchmen

#### Experiments With Kitchens and Dumb Waiters Prove That They Are in Perfect Order--To Be Confined Indefinitely--Are Marshaling Their Strength

Rome, July 30.—The cardinals today visited the cells which they are to occupy during the conclave, but it cannot be said that they returned very enthusiastic over the idea of being confined in what are rightly termed "cells" which are without running water and necessary ventilation. It is feared that the health of some of the older cardinals might suffer. Perhaps the most dissatisfied was Cardinal Masary who as primate of Hungary is the wealthiest of the cardinals. He is credited with an income of \$400,000 annually. He insists he cannot eat with others and must have his meals outside.

Tonight experiments were made with the kitchen, the workings of which are considered quite important as about 500 people must be fed thrice a day for an indefinite period. The trials were quite successful. The revolving dumb waiters were also tested. They are characteristically Roman and consist of shelves on which things are placed and are made to revolve carrying things in or out but making it impossible for persons on either side to see each other.

Rome, July 30.—The Vatican today was the scene of great activity both in side and outside. In the Vatican, preparations were making for the conclave and everything was in the utmost confusion. In the Sistine chapel work will go on throughout the night.

The catastrophe erected for the funeral services is being pulled down and the galleries are being replaced by stalls for the cardinals. Outside the Vatican the work was of a different character, the quiet work of supporters of different candidates marshaling their strength for the contest which is to come when the doors of the conclave are closed. No one candidate stands out prominently as did Count Pecci, in the conclave of 1878 and the discussion here is not so much concerning the superior qualities of the candidates as of the strength with which they are credited.

### CHEMISTRY AND JEWELS

#### PERFECT IMITATIONS OF COSTLY GEMS NOW EASILY OBTAINABLE THROUGH THE CHEMISTS CRUCIBLE.

New York, July 30.—In connection with recent decisions of the general board of appraisers regarding duty on imitations of precious stones, a well known jewelry expert of this city, through whose hands millions of dollars' worth of precious stones have passed, declares that rubies, beautiful in color and rivaling the natural gems are today easily produced from the chemist's crucible. The secret of their production, which he says was known in France years ago, but was kept secret, lies in the manner of fusing a number of small, cheap stones into a single large one. It is said the manufacturer is now being carried on extensively in several European countries and only the most experienced examiner can detect the real stones and those from the crucible.

### UNCHAIN THE DOGS OF WAR

#### AND THE ENEMY WILL FIND RUSSIA UNRELENTING—ACTIVE IN MILITARY CIRCLES

New York, July 30.—Unusual activity continues in south Russia military circles, says a Moscow dispatch to the Times by way of London. Frequent conferences are being held in Odessa, by military chiefs from south Russia. Unusually exhaustive inspections of troops are being held throughout the south.

Large orders for ammunition cases, etc., have just been placed in various towns by the War Office, and the government magazines have accumulated unusually large quantities of stores for sometime. It is reported that the volunteer fleet authorized by the government that provisions must be made for the contingency of expeditious withdrawal of the fleet from service under the commercial flag between Odessa and the far east.

### TOUR OF INDIAN BAND.

San Francisco, July 30.—Twenty-five young Indian musicians, the band of the United States Indian school at Phoenix, Arizona, are visiting this city in charge of E. B. Custer, the disciplinarian of the institution. The band includes Indian boys from the 10 of the 40 or more Indian tribes represented among the 700 pupils of the school. The largest number are Apaches, and there are Hoplas, Maricopas, Walapai, Pimas, Klamath, and others. The boys have made a tour of the interior cities of the state and will return via the coast towns. Their trip is educational in its object.

### NOTICE TO QUASH INDICTMENTS

New York, July 30.—Notice has been filed by counsel before District Attorney Jerome of a motion to quash the indictment against Robert L. Martin and Harry Veitshusen, of the Delaware Surety Company. Martin is a brother-in-law of F. A. Heinze of Montana. The indictments which have been pending two years charge false swearing in regard to the capital of the surety company. The men named never have pleaded to the findings. There is an incident of the litigation between the big Montana Copper Companies.
