### PAUPER'S TOMB IS FIT FOR A KING

Moses Rockwell Crowe Dies, and Is Interred in Mausoleum Built in His Prosperity

New York, August 15.—Moses Rockwell Crowe, projector of extensive water companies and once millionaire, has died a pauper at the state hospital on Ward's island. His body has been placed in the magnificent mausoleum, the finest in the Middle West, which he had built in the heyday of his prosperity at Falls City, Neb.

He projected the present water system used to supply Ward's island, where he died of brain fever after an illness as a charity patient at Bellevue hospital.

Crowe made the millions he spent so lavishly by developing water systems for a number of communities, notably in Grand Rapids, Mich., and in Westchester county in this state. Money being needed for further operations, he mortgaged his property and plants recklessly. Bad financing and business quarrels got him into complicated litigation, which ended in foreclosure proceedings and the loss of his entire property.

The accident happened on the north shore and the details are unobtainable. All the men aboard were young French Canadians.

### SCHOOL OF JOURNALISM

Joseph Pulitzer Provides Sum of Million For Establishment of Such a One

### FOR COLUMBIA UNIVERSITY

Candidates Will Be Admitted Upon Establishing Record of Good Character and Intelligence

New York, August 15.—Joseph Pulitzer has provided a sum of \$2,000,000 to establish a school of journalism at Columbia university, in this city. The school will hold toward the university a relation similar to that of other professional schools, and like them will be national in scope. The important feature of the organization of this school will be the advisory board nominated by the donor which will aid in devising the plan and course of instruction. Seven members of the advisory board have already been named and, with the others to be selected, will be nominated by the trustees of Columbia university at their meeting in October.

It is hoped school may be opened in the autumn of 1904. This course of study will be two years. Candidates will be admitted upon examination as to good character and intelligence but previous collegiate courses will not be required.

### Bankers Are After Reforms

Want Government to Turn Over to Banks Business of Money Order Business.

New York, August 15.—President Stephen M. Griswold of the New York State Bankers' Association, says that at the tenth annual meeting of the association to be held in Saratoga, September 10 and 11, action will be taken looking to the doing away of the money order system by the express companies and the postoffice department and the taking up of the same by the banks. "In addition to the money order business, the association will tackle the question of admitting trust companies to state association," said he. "At present trust companies are not obliged to keep a reserve. This gives them an advantage that the banks object to. The bankers all over the country are taking steps to bring the necessary pressure to bear so that the money order business now transacted by the postoffice department and the express companies shall be controlled wholly by the banks. The banking associations of various states have taken the necessary action already, and we expect to fall in line with our western brethren and reach an agreement that will enable the banks to conduct this particular branch of the banking business advantageously to the general public."

### Veteran Host Gets Together

San Francisco Scene of Active Preparations for Annual G. A. R. Meet

### FOR COLUMBIA UNIVERSITY

Candidates Will Be Admitted Upon Establishing Record of Good Character and Intelligence

San Francisco, August 15.—More than 2000 members of the Grand Army of the Republic and its allied associations have already arrived here to swell the vanguard of the host which will attend the thirty-seventh annual encampment of the national organization. Among the later arrivals are the delegations from South Dakota and New Hampshire, each about 100 strong and the Illinois party from headquarters numbering 720. The last named delegation included among its members General John C. Black who is a prominent candidate for Commander-in-Chief for next year, with a strong possibility that he will be elected, and Adjutant-General Partridge of the Illinois department, G. A. R. The veterans of the Spanish-American war are evidently going to cut quite an important figure in the coming reception to the veterans of the G. A. R. They are pouring into the city from all quarters and its principal features of the coming week will be the great consolidation of all organizations of the late war.

The parade of this organization next Tuesday will include within its ranks every man in this city who has an honorable discharge from the United States army or navy. The triumphal arches and the street decorations are advancing rapidly to completion and the announcement is made that everything will be in readiness for the general illumination on Monday night. The national association of naval veterans will be represented in this city during encampment by about 100 members. A number of the delegates have already arrived. The visiting delegates will be given an opportunity while here of viewing the old mission Dolores church in the Mission district of this city, the oldest land mark now existing of the early Spanish inhabitants. The church was built in 1776 and save for Sunday school exercises it has been closed to the public for a long time past. The subscriptions now have run up to \$25,588.

### SHEEP HERDER STRUNG UP

Made to Swear He Would Leave the Country—Prominent Cattleman Placed Under Arrest

Butte, Aug. 15.—That a wild range war is raging in Lewis and Clark county, the entire region there being in awful terror, is evident from a special received by the Miner from Helena. An unheard of condition of things prevail and where it will end none can tell. Already several arrests have been made of seven well-known cattlemen being among the number. The immediate charge is an alleged attack made upon Alfred Dagnaline, a sheep herder. The man says that he was strung up to a tree and made to swear that he would leave the country.

Full details of the condition of things cannot be obtained at the present time but grave fears are felt that the facts, when they are known, may startle the entire west.
