PROFESSOR PINCHOT'S TALK

Prof. Clifford Pinchot, chief of the United States bureau of forestry talked on government withdrawals and forest reserves in Portland last night. Senator C. W. Fulton presided as chairman of the meeting and Congressman William E. Fulton presided as chairman of the meeting and Congressman William E. Fulton presided as chairman of the meeting...

The Sovereign Grand Lodge, Independent Order of Odd Fellows, which holds its grand encampment in Baltimore, Md., this month, has gone on record for its 388,000 members as favoring union labor. It had been intended to have the United States Marine Band lead the great procession in which 30,000 Odd Fellows will take part...

H. G. McKinley, a well-known timber land speculator, has stated that parties of no less prominence than State Senator Pierce Mays and Representative A. N. Jones of Multnomah county, were among those who engineered the Blue Mountain reserve. Senator Mays, so McKinley alleged, complained to him on the ground that he, McKinley, had purchased a few thousand acres of school land within the reserve without any expense...

One effect of the new Irish land law already noticeable is a pronounced check upon Irish emigration. An anti-emigration society has been formed in Ireland whose purpose it is to restrain emigration and to keep the people in their own country. A writer in the St. Louis Post-Dispatch, referring to Irish emigration says: "The volume of emigration has been enormous. During the last decade of the nineteenth century France lost by immigration only one inhabitant out of 5,975 of its population...

Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters...

one in 427, Austria-Hungary one in 488, Denmark one in 688, Switzerland one in 1284, Holland one in 2772 and Ireland one in 114. Of course, the cause of this movement, which has threatened Ireland with depopulation, was the misery of the people and the impossibility of making a career in conditions imposed by the British government. Ireland is one of the most fertile countries in the world. The blight of landlordism being removed there is every reason to believe that she offers all that her sons can ask, for several generations at least.

The Astorian has an editorial urging construction of a railroad along the coast. The city by the sea is on the right track and it will be a railroad track from mouth of Columbia to California coast one of these days. Such a line is bound to be built eventually for the Pacific coast must, ultimately, contain as many and as great seaport towns as does the Atlantic and a coast railroad or railroads will be an absolute necessity, and will be tapped too, by transcontinental lines.

There are reports to the effect that salmon are not finding ready sale at \$1.30 per case, the price fixed by the Alaska Packers' Association. While the A. P. A. is looked to for the setting of the price each season, confirmation must come from buyers who are willing to pay the price. The price set for this season, \$1.30, is held by the Fishing Gazette to be logical figures for this year, yet if the small packers are unable to get the established price they are face to face with the proposition of selling under or carrying their pack over. It is to be hoped, however, that the packers will be able to realize the full market price before the time of out-lifting for another season is at hand.

By all means keep on tipping the hat. Keep it off in the autumn breezes and catch cold. Keep it off in the winter and die of pneumonia. But be a gentleman to the last.—Tacoma Ledger. Of course the editor of the Ledger is bald-headed.

John Mitchell, the labor leader, is writing a book—in fact has it almost ready for the bookellers. If that does not prove his undoing, Mitchell is surely the man of the day.

Look Here!! Something New!!

That's precisely what the proposition is. Not something for nothing, but actual value for one-third of what the same goods would cost you elsewhere.

THE DAILY ASTORIAN'S PREMIUM OFFER

The publishers of the Daily Astorian, in line with modern journalistic methods for increasing the paper's circulation, have decided to offer special inducement to prospective subscribers for the paper, and to that end have received limited consignments of three separate volumes which are to be disposed of to subscribers at the rate of

\$1.00 PER VOLUME

- "Cutler's Red Book of Priceless Recipes"
"Webster's Common Sense Dictionary"
"The Life of Pope Leo XIII"

Briefly, the first book contains recipes for about everything from curing the sick or running a library to getting up the hundreds of dishes fancy or otherwise, that are known only to skilled chefs. As a compendium of information, this book is absolutely peerless, for being of the most modern date, its precepts are reliable, and reaching, in its wide scope, every one from the professional man to the farmer, not forgetting their wives, the volume should be found in every household. There are 639 pages of good type, well illustrated by cuts appropriately distributed.

WHAT A CLERGYMAN THINKS.

Astoria, Ore., Sept. 21, '33. I have been requested by The Astorian to write a recommendation of a work entitled "Life and Life-work of Pope Leo XIII." by J. J. McGovern, D. D. It is a pleasure to comply with this request. In this volume we find condensed in compact form, all the facts of interest in the life of the great sword-figure concerning whom it treats. It is preeminently a practical biography, intended for the busy man with little time to spare; it displays an insight into the great pontiff's career which denotes the close observer and careful student on the part of the compiler. No man, be he a Catholic or a non-Catholic, can lay claim to a thorough knowledge of the political, social, religious history of the last quarter of the nineteenth century, who is ignorant of the life and work of Leo XIII. This volume will in a measure, furnish a key to the secret of the deceased pontiff's wonderful success and influence in the world at large. The author pays special attention to Leo's attitude towards the United States. The chapters devoted to a consideration of "Leo XIII and Education" and "Activities in Behalf of Labor" are very timely. The even, non-polemical tone of the volume recommends it alike to believer and unbeliever. The perusal of this book must needs prove uplifting.

AN EDUCATOR'S OPINION.

Astoria, Ore., Sept. 21 '33. I am familiar with Webster's Common Sense Dictionary, and can say that it gives the best authority, and contains about all that the busy professional man to the farmer, not forgetting their wives, the volume should be found in every household. There are 639 pages of good type, well illustrated by cuts appropriately distributed.

H. S. LYMAN,

County Superintendent of Schools. AS TO THE BOOK OF RECEIPTS. Astoria, Sept. 21, '33. After an inspection of Cutler's Red Book of Priceless Recipes, I can truthfully subscribe to its excellence as a most valuable compendium of information for the household, and take pleasure in placing myself on record to that extent. I may especially recommend those portions of the book relating to the care of the health. MRS. F. D. KUETTNER.

As it would hardly be fair to old subscribers to offer any or all of these valuable works to new subscribers, since there is no increase in the price of the paper, The Astorian, in a spirit of fairness, hereby extends the same privilege to its old subscribers and invites them to step into the office and secure for \$1.00 one of these \$3.00 books. Bear in mind that we mean exactly what we say in referring to the very limited number of books in the consignments.
