# TELEGRAPH

The Planters or Southern Hotel before you go to the Worlds Fair at St. Louis.

If you buy your clothes at Wise's and win one of the four first-class round trip tickets to the World's Fair, you can afford to stop at a first-class hotel, but the hotel will be crowded and you should write or telegraph to a good hotel to be sure of accommodations, meanwhile we will accommodate you with the finest clothes on earth at moderate prices and give you a chance on the four free tickets to the St. Louis Fair—and that beats going to Portland.

# HERMAN WISE

### NEW ROAD COMPLETED.

The road to the Tongue Point mill was completed yesterday. One can now safely and comfortably drive through Alderbrook and to the mill. The new road is of plank and gravel.

It is 20 feet wide, affording ample room for teams to pass. The length of the new road is about 1800 feet. A gang of 30 men have been at work on it for about three weeks. The cost of the improvement to Mr. Hume was \$1000.

## SOON TO BE COMPLETED

Apparatus for Commercial Club Gymnasium Has Been Ordered by Directors.

### BOYS' DAYS TO BE ARRANGED

Probable That Board Will Place Gymnasium at Disposal of All the Lads of the City.

The board of directors of the Commercial Club has ordered the necessary apparatus for the new gymnasium and the annex will be completed in a short time. Baths and other conveniences are to be installed within a few weeks. The gymnasium is a spacious one and when fitted up will be a credit to the club. Fred Mueller, formerly of San Francisco, has been engaged an instructor and will take charge of the gymnasium November 1. Mr. Mueller has had much experience in this line and there is no doubt that the annex will flourish under his management. It is the intention to install the baths in the rooms south of the main hall, where also will be located the members' lockers and the dressing rooms. This will make it possible to devote the entire main floor to gymnasium purposes. The arrangement is a most satisfactory one. Recently the board of directors decided to permit the high school boys to use the gymnasium, but made no provision for other boys to enjoy the privilege. However, it is probable that regular boys' days and classes will be arranged, so that all those desiring may have the advantage of an early physical training. The matter is to be brought before the board for consideration.

### ANOTHER HAMMOND RUMOR

The periodical rumor with reference to the probable future plans of A. B. Hammond is now current in Astoria. This time gossip has it that Mr. Hammond is going to dispose of all his interests in Eureka, Cal., (!) and his himself hither to develop his business interests in and around Astoria. The story goes that he will build a large mill at Tazoy Point, which affords what is generally considered to be the finest mill site in the west. If Mr. Hammond ever builds a mill at Tazoy Point, the A. & C. will be extended down the coast into his timber tract, all the trade of the south will come to Astoria, and—well, the rumor that Mr. Hammond is about to pack his junk and depart from Eureka for Astoria lacks confirmation.

### ALL ORDINANCE SIGNED

Mayor Suprenant yesterday attached his signature to all the ordinances passed at the recent special session of the council. The ordinances signed were as follows: Confirming all contracts heretofore entered into by the street committee; accepting the bid of W. A. Goodin for the improvement of Sixteenth street; extending the time for completion of Sixteenth street, Franklin avenue from Ninth to Twelfth and from Fifth to Ninth, and Exchange street from Fourteenth to Seventeenth

### TREASURER DEALEY STILL CONFINED.

City Treasurer Dealey is still confined at his home on Exchange and Seventeenth streets. He continues to improve in condition but is mending slowly. It is expected that he will be out in a few weeks.

### HIGH SCHOOL TEAM ORGANIZES.

The high school football team has effected organization by the election of Will Woods as captain and Wilson Stone as manager. The team is now practicing under the direction of Professor Eyre. Many of the boys have played for three or four years, and the team will doubtless prove one of the

best light aggregations in the state. The team has already arranged for two games—one with the Holmes business college team and the other with the B. S. A. team. It is probable a third game will be arranged with the HRI military academy eleven.

### HELP THE POOR.

Members of the Salvation Army are anxious to receive donations of old clothing for either men, women or children. It is the desire of the members that persons having such donations to make drop a card to army headquarters and the articles will be called for. Clothing thus donated will be given to the poor during the winter months. Captain and Mrs. Holston and Cadet Childers have arrived to take charge of the army in this city.

### CHANCE FOR OCEAN RACE

Columbia and Whittier Departed at the Same Time.

There promises to be an interesting race down the coast between the steam ship Columbia and the tank steamer Whittier, which left out yesterday at the same hour. The Whittier is loaded with her unique cargo of water. She is said to be a very speedy vessel and capable of giving the Columbia a good run down the coast to San Francisco. There is no possibility that the Columbia will permit any common tank steamer to wrest from her the laurels she has won on the Astoria-San Francisco run and a brush is looked for. Both vessels were well loaded when they departed yesterday and conditions generally were favorable for fast time.

### MARINE NOTES.

The German Naurochos departed yesterday for the United Kingdom with a cargo of grain. The schooner W. F. Howe is on her way from San Pedro to the Columbia to load lumber. The Oriental liner Indrasamha arrived yesterday from the far east with a full cargo of oriental stuffs. She brought 100 passengers across the ocean and landed 80 at Victoria. The big liner left up the river to discharge her cargo. A full outward cargo awaits her at Portland.

### WILL STAY TWO DAYS LONGER.

Owing to the carpenters being here and not being able to take proper care of our trade we have induced our tailor, Mr. M. A. Rolfe of Chicago, to stay with us Thursday and Friday with his full line of woollens in the piece. Suits and overcoats to order \$15 to \$40, fit and satisfaction guaranteed. Come in and see the fall novelties. Mr. Rolfe has been making clothes for our prominent citizens for the last six years and giving them complete satisfaction. We can please and save you money at C. H. Cooper's.

### MORE SOLDIERS NEEDED.

The campaign for recruits in the department of the Columbia is on and from many posts are being sent out special recruiting officers to enlist men preferably those from the rural districts because of their better physique and habits. General Funston has authorized the post commander at Vancouver to detail non-commissioned officers for enlistment duty, their men to be sent to the garrison there to fill two battalions of infantry that are at present badly needing men.

### MADE RECORD PASSAGE.

The Indrasamha, arriving yesterday from oriental ports, established a new record for trans-Pacific trips made during the past five years. She made the run from Yokohama to Victoria in 15 1-2 days, which is about two days better time than other vessels make across the ocean. Of the liners plying out of this port the Indrasamha is the greyhound, always making the passage a day quicker than the Indrapura and Indravell.

### NEW ORDER MEETS.

Clatsop Council No 996, Royal Arcanum, held a regular meeting last night. This fraternal society was recently organized in Astoria and starts off under favorable circumstances. The membership is steadily increasing and the order promises to become one of the most popular in the city.

### DRINK THE BEST.

When you want refreshments, you want the best. Call on P. S. Kenney, Star saloon, 507 Bond street, who keeps everything first class. Patrons always receive courteous treatment. Open day and night.

### COUNTY COURT ADJOURNED.

The county court was in session yesterday for a few hours, considering the matter of timber land assessments and seeing to it that alterations were made as directed. Adjournment was then taken for the term.

### NEW ROAD COMPLETED.

The firm of Wherity, Ralston & Co. has joined the Commercial street improvement society and carpenters will today begin the work of putting in a new front. The appearance of the store will be greatly improved.

### BROKE INTO HIS HOUSE.

85, Le Junin of Cavendish, Vt., was robbed of his customary health by inveterate chronic constipation. When Dr. King's New Life Pills proke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure, 25c at Chas. Rogers' drug store.

## TO SET OFF BIG BLASTS

Two or Three Explosions of Sixty Tons of Powder to Be Made at Bugby.

### PROGRESS OF JETTY WORK

Construction of Tramway Suspended and No Further Extension Will Be Made During the Winter.

Two or three of the immense blasts of giant powder are to be set off at Bugby quarry shortly. In each instance 60 tons of powder will be exploded. The mountains of rocks will rise into the air, and then settle down with a deafening roar. For several days past arrangements have been under way to set off the blasts, and things are now about in readiness.

Great care is exercised by the men in placing these monster blasts, for a premature explosion would result in many fatalities. Long tunnels are run into the mountain sides, these being connected with cross tunnels. The main tunnels extend to the earth for hundreds of feet, and the explosion is scarcely heard. The explosion of one of the blasts creates a veritable earthquake; the mountain of rock aways majestically for a moment, and then, with a crash that can be heard for miles, the great mass of rocks comes tumbling down. Tens of thousands of tons are blasted out in this manner.

The blasts now to be set off will determine the value of the Bugby quarry. The rock is of excellent quality as far as the men have worked, and it is expected that the quality and quantity will prove equally as satisfactory farther south from the river. Only the monster blasts will, however, give the officers of the Northwest Construction Company an accurate idea of what they may expect hereafter in getting out rock for the big jetty at the Columbia's mouth.

At the present time the company is furnishing 1200 tons of rock daily to the jetty, but operations will shortly be carried on much more extensively. Major Langitt has visited the jetty and the Bugby quarry and is quite well satisfied with the progress being made. He says the rock is all that could be desired, although he hopes the quantity will soon be increased.

The work of extending the jetty tramway has been suspended for the winter, and the attention of the engineers will now be given up to filling that portion already completed. All the rock received during the winter months will be dumped into the sea, so as to support the woodwork and strengthen it sufficiently to withstand the usual storms that prevail during the winter. It is expected that the tramway will be saved from destruction in this manner. The transportation of rock by rail enables the engineers to make more substantial progress, however, and better results are looked for than during past years.

### THE VANGUARD'S PASSENGERS

The following passengers came down yesterday on the Vanguard and spent half a day in the city: Misses Nettie and Juliet Ashley, Miss Hannah Helgeson and Mr. John Finlayson, of Brookfield; Alex Campbell, Mrs. Benjamin Simpson and Mrs. Smith, of Cathlamet, and P. J. Wilson, of Skamokawa.

### FOUND.

A place where you can buy fine wines and liquors for family and medicinal use, at reasonable figures. The California Wine & Liquor House, 422 Bond street, phone 2174 black, are content with small profits. No bar. Free city delivery. 228-026

### PERSONAL MENTION.

Al Waddell returned to Portland last night. Fritz Johnson was over from Chinook yesterday. W. S. Booth came down from Portland yesterday. City Attorney Smith was in Portland yesterday. Mrs. Dimmick of Ilwaco visited in this city yesterday. Miss Edith Olier left yesterday for an extended visit in California. Harvey Thompson of Hammond was on Astoria's streets yesterday. Mrs. Haddix left yesterday on a visit to her former home in Waco, Tex. Charles Gray, representing the North western line, was in the city yesterday. F. S. Stanley is looking after his many interests in the Lower Columbia river country. Mrs. William Edgar left yesterday morning for California where she will spend the winter. Mrs. F. E. Prael was among those embarking on the Columbia here yesterday for San Francisco. Louis Kinkels returned last night from The Dalles, where he had been visiting for two weeks. Mark T. Brownson, special agent of the Western Loan and Savings Company, was in the city yesterday. Allen Forward of Salem was out among Chinook's tall timbers yesterday. He is doing some preliminary cruising of timber in these parts for prospective buyers.
