Expense Borne Not By City

Defer Improvement So That the Work May Be Hurried Through With.
In referring to the Budget's editorial of yesterday, touching upon the proposed improvement of Franklin avenue, W. H. Barker, a leading resident and property owner of that section, says that it is much in error; that the expense of building the street was borne, not by the city, but by the interested property holders; and that the only reason for desiring that the work be deferred is that it may be hurried through when it is begun.
"Ten years ago last September," said Mr. Barker, "the work of building the street was begun and it was not completed until spring. In the meantime the street was well nigh impassible. The same condition confronts us now; only they are worse. There are six houses that will have to be moved 20 feet back, and legal preliminaries must be gone through with, before the work can even be started, which will be six weeks. Then the street will be torn up and will remain in a wretched condition during the winter, making it impossible for 150 school children that use the thoroughfare. We want nothing to occur that will hinder the operation of the mill, but are anxious for conditions that will promote the interests of the business, and an impassible street is certainly not one of them. Let the avenue be improved, but let the improvement be begun at the time of year when it can be completed to the best interests of all concerned."

TO REPEAL THE TIMBER ACT
Senator Hanabrough Offers an Important Measure.
Washington, Nov. 11.—Senator Hanabrough today introduced a bill in the senate which, by implication, repeals the timber and stone act, under which land is now acquired for \$3.50 an acre, regardless of its real value. The measure is intended to cure defects in the existing laws, speculation in public timber lands and the frauds which recently have grown into a national scandal.
The bill was referred to the committee on public domain, of which Hanabrough is chairman.

RAILROADS INCORPORATED.
San Francisco, Nov. 11.—Certificates of incorporation of two new railroad enterprises which will aid in the development of northern California have just been filed here with the county clerk. One is the California & Oregon Coast railroad Company with a capital of \$1,000,000. The main line of the road will run from Grants Pass, Ore., to Crescent City in this state, a distance of 91 miles, with two branch lines, one 20 miles long to Chetco, Curry county, and another into Humboldt county, a distance of 80 miles. The other incorporation, the Chico & Northern Railroad Company, capitalized at \$1,000,000 will be 32 miles in length, commencing one mile south of Chico, running to Stirling, on the lands of the Diamond Match Company. The Southern Pacific is said to be the controlling factor in both roads.

DEFENSE FUND PLAN APPROVED.
New York, Nov. 11.—In fear of further drastic legislation, following that of last winter when the license fees in this state were advanced greatly, the central organization of the New York City Wine, Liquor and Beer Dealers Association has adopted resolutions approving the defense fund plan formulated at the recent liquor dealers national convention and has fixed New York state's contribution at \$750,000. It was announced that this money is to be raised by a tax label to be put on every package of liquor and barrel of beer, but some of the dealers said the label may not be used.
They stated that the money can be raised by regular assessment upon each saloon keeper. In Manhattan alone there are 8000 members of the association in good standing. If every state represented in the National Association takes similar action the defense fund of the liquor dealers, at this rate, will approximate \$5,000,000.

ARISTOCRATIC LADY LED.
Memphis, Nov. 11.—Miss Douglas Calhoun, prominent in city circles, and a member of an aristocratic family, was killed by a car last night. The young lady, her brother and a woman friend were taking a horse back ride. At the approach of the car the animal became frightened and Miss Calhoun was thrown immediately in front of the rapidly moving car and instantly killed.

Would Protect Astoria Salmon

Senator Fulton to Introduce a Bill Which Will Stop False Labeling.
Senator Fulton has prepared and intends to introduce a bill making it unlawful to pack and sell as Columbia river salmon fish that are taken from other waters, and are of an inferior grade. He says that, of late, the markets have been stocked with inferior fish that are either marked "Columbia river salmon," when, in fact, they are taken from the bays along the coast, or even in foreign waters, or else are taken out of season and are consequently of poor quality.
He deems it important that the Columbia river salmon industry should be protected by federal law, which will cut off misrepresentations destined in time, if kept up, to injure the market for Columbia river fish. His bill makes it a misdemeanor to mark falsely canned or packed salmon, and to sell or export fish when so falsely marked. The penalty is \$200 for the first offense and \$300 for each succeeding violation of the law, with imprisonment for one year, or both.

Gentlemen—I came to Medical Lake seven weeks ago almost helpless from inflammatory rheumatism and generally in a run down condition. At this time I am almost entirely recovered and have an appetite which is the despair of the hotel proprietor. Inflammation and swelling is nearly gone from my hands and feet, and I feel spien did. Medical Lake has certainly done much for me.
