As a business proposition, it pays to trade at home, conditions being equal as to the value offered; but when you can get a better article at home on as good terms there is an added reason for patronizing the home institution.

## Strikers Lose Stronghold.

New York, Dec. 26.—The George A. Fuller Construction Company, through President S. J. McConnell, has applied for membership in the Building Trades Employers Association. The application has been accepted and President McConnell will become a member as soon as the plan, scope and regulations of the association has been thoroughly explained to him.

From the beginning of the trades war last May the Fuller company has been one of the strongest resources of the striking locked out employes for the reason that its officers refused to maintain any relations with the association with which all the other employers are affiliated.

There is but one Painkiller, Perry Davis'.

## DISAPPEARS WITH LARGE SUM.

Friends Alarmed About William B. Smith, Brother of Mrs. Fair.

New York, Dec. 26.—William B. Smith, brother of the late Mrs. Charles L. Fair, disappeared from his home in New Market, N. J., last Monday night and failure to secure any trace of him has led his wife and friends to decide upon calling upon the police for aid in the search.

Smith received quite a large sum in settlement of his claim on the Fair estate and immediately gave away his bakeshop in New Market. He took up automobile and other sports, changing entirely his former mode of life. When he left home Monday he led his wife to expect him back for lunch. His failure to return alarmed his family as he carried a large sum of money. No trace of his movements could be found for several days but it has been learned that he told one of his intimate friends he intended to go to Boulder, Colo., later to California, thence around the world to Paris and New York.

## Transports Ready For Emergency.

Washington, Dec. 26.—The war department officials admit that the transports Sherman, Buford and Crook, now at San Francisco, are being made ready for sea. Primarily these vessels are being made ready for service at Manila, but officials make no concealment of the fact that they want to be ready for any emergency which may arise and should the government desire to use any of them for transportation of troops to Panama the ships will be available for that purpose. Still, the positive assertion is made that no orders have been received by the quartermaster's office with this end in view. It is stated that it is simply a case of being prepared if occasion arises.

New York, Dec. 26.—Pneumonia has become so prevalent in this city that the health department has decided to amend the sanitary code by classifying that ailment with measles, scarlet fever and smallpox and making it compulsory on physicians to report every case of pneumonia promptly. This is said to be without precedent in America or Europe.

In the last three weeks, according to the health department, there have been 329 cases reported here, an increase of 48 per cent over last year.

Have had two baths, and can say that my surprise is great over the rapid improvement experienced. Can handle my hat now and walk easily and painlessly, and am certainly pleased to say a good word for the curative properties of Medical Lake.
