## TO BE GOOD ADVERTISING

Idea of Having Yukon Exhibit at World's Fair Is Considered Best Thing Possible.

### ENTITLED TO CANADIANS SPACE

Proposed to Send Vegetable as Well as Mineral Products Together With Indian Relics.

Seattle, Jan. 20.—A special from Dawson to the Post-Intelligencer says: The idea of having an exhibit of Yukon territory products at the world's fair at St. Louis is believed by Elgin Shoof, one of the promoters, to be one of the best schemes ever evolved for the advertising of the Yukon, and he feels that the Dominion government certainly will lend its aid. He says: The Dominion government has large space allotted at the St. Louis fair. The Canadian government will erect a large building on the space and allot a certain portion of the building to each province or territory in the Dominion.

Yukon territory certainly is entitled to a share of the space, and the Yukon Horticultural Society intends to ask for a share to which this district is entitled.

Alaska, which has about the same population as Yukon territory, will spend, I understand, at least \$50,000 in making an exhibit. This money is largely, if not wholly, from the American government.

The Yukon, I estimate, can make a creditable showing with less than \$50,000. Perhaps \$15,000 would make a fine exhibit.

The question of money for the Yukon territory exhibit will be taken up with the Dominion government soon. The Yukon Horticultural Society has delegated me to confer with Ottawa on the matter. I may go to Ottawa. At any rate I shall press the matter, and hope for success.

Many fine exhibits of grain, grasses, potatoes and fruits raised in the Yukon, specimens of gold from different creeks, woods, coal, mammoth and other prehistoric bones, Indian collections and the like will help to make the exhibit interesting.

## COLOMBIA HESITATES TO MARCH ON PANAMA

New York, Jan. 20.—Strong indications that there will be no war between Panama and Colombia have been observed by Bishop Junguito, who has just returned from Cartagena and Barranquilla, cables the Panama correspondent of the Herald. The Bishop journeyed to Colombia to see the papal nuncio who is en route to Rome. He declares that many of the soldiers who went to the front along the Panama border have returned in ill health. The soldiers from the interior, he says, cannot stand the heat of the climate and the conditions in the Colombian camps.

There are no facilities for getting supplies and there is great suffering among the soldiers. The hospitals are reported crowded, and discontent was expressed everywhere. The troops are not anxious to start on a hard journey to the isthmus and the sentiment along

the coast favors the abandonment of the idea of a campaign rather than risk serious troubles. The people in the cities are anxious to be rid of the burden imposed on them by paying the army and all the officials on a gold basis, as they have received no gold from Bogota and the drain is greater than they are willing to stand.

The government junta here has letters from Bocas del Toro and other points showing that there has been no further advance of the Colombian army.

### Finns Repudiate Russia.

Seattle, Jan. 20.—Finlanders in considerable numbers are becoming naturalized these days. The imminent likelihood of a Russian-Japanese war is thought to have something to do with their sudden interest in the matter. The deputy clerks in charge of the naturalization bureau in the county clerks office say that the Finlanders when questioned about the matter, express a lively desire that Russia may be worsted in the conflict.

Some Finlanders have acquired a little knowledge of American ways. One of them inquired with a cunning smile yesterday if a reduction would not be made in fees during the city campaign. He was answered in the negative, but told that some politician might lighten the burden for him. He decided, however, to pay the freight himself.

### Prince is Negligent Landlord.

New York, Jan. 20.—At Lambeth a coroner's jury has returned a verdict of accidental death in the case of a woman who fell down stairs, says a Times dispatch from London. The jury reported that the landlord should be compelled to provide hand rails, the lack of which caused the woman's death.

The landlord in question is the prince of Wales as the house belongs to the Dutchy of Cornwall.

## AMERICANS MANAGE WAR

Fighting Zone Marked by Visiting Commanders Complied With by Combatants.

### REBEL STRONGHOLD INVESTED

Conditions in Santo Domingo Continue Strenuous With Government Forces in Ascendant.

New York, Jan. 20.—Seven hundred government soldiers are on the march to Santiago, the rebel stronghold, says a Herald dispatch from Puerto Plata, Santo Domingo. It is believed this battle will be the most important of the Jimenez revolution. The rebels are firmly entrenched in their capital and it is presumed they will make a desperate resistance.

Details of the re-capture of Puerto Plata a few days ago by the government forces show, according to the Herald's correspondent, that the commander of an American war vessel in the harbor practically managed the battle and that a fighting zone marked by the commanders of the United States and British war vessels was accepted by the contending forces. President Morales' troops promptly respected the order to cease firing, although General Jimenez's forces, when routed, ran through the streets and continued to fire in all directions. An American force, composed of eight men, with the Stars and Stripes, went to the firing line and demanded a suspension of hostilities. The commander of the United States warship then landed a force of 100 men and arranged for the surrender of the fort. The Americans disarmed the Jimenez forces and later turned over the fort to General Ces-

pedes, in command of the government troops.

New York, Jan. 20.—It is reported here, says a Herald dispatch from St. Thomas, D. W. I., that the Dominican minister of foreign affairs, accompanied by a delegate, has left Santo Domingo for Washington to attempt to make arrangements with the United States to establish a protectorate over the republic of Santo Domingo.

Vigorous bombardment of the capital continues by the forces of General Jimenez. Man refugees including several deputies, have arrived here on the French steamer from Port au Prince, Hayti.

A dispatch last night from San Juan, Porto Rico correspondent of the Associated Press, announced the arrival there of a delegate on his way to Washington with the object of soliciting recognition of the Morales government and the issuance of an exequatur to its consul-general in New York. No mention was made of a desire for a protectorate.

### Seattle Keeps P. P. & N.

Seattle, Jan. 20.—There was a story afloat yesterday to the effect that the offices of the Pacific Packing & Navigation Company would be removed to Bellingham within a few days. This report failed of confirmation at the offices of the company, and Receiver J. A. Keer said last night that the company had no intention of making a change, at least until the Alaska canning season was opened.

The basis for the story was the fact that much of the company's furniture had been sold to the Interstate Red Cedar Shingle Company and the offices in the Globe building occupied by the packing company had been leased by the shingle corporation. The Pacific Packing & Navigation Company is still occupying a portion of the room in the Globe building the company formerly held.
