The Medicine That Cures.

RENO, ORE., May 11, 1903.

Wine of Cardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles to effect a complete and lasting cure. I especially recommend it for sterility or ovarian troubles, inflammation and ulceration, painful, profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery.

It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Cardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Cardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Cardui will completely cure you.

All druggists sell \$1.00 bottles Wine of Cardui.

WINE of GARDUI

You don't have to hire a Cab

The La Salle Street Station in Chicago, which is used by the trains of the Rock Island System, is located in the very heart of the city, less than a block from the Board of Trade; less than two blocks from the Post Office; within easy walking distance of the principal hotels, theatres and stores.

You don't have to hire a cab to reach them. The "union loop" is right in front of the station. Pay 5 cents, get aboard the elevated, and you are whisked to any part of town you wish to reach.

Let me give you other reasons why you should use the Rock Island System. There are lots of them.

HE BARKED LIKE A DOG

Bite of Mastiff Results in Hydrophobia and Terminates in Awful Death.

SLIGHTS DOCTOR'S ORDERS

Unusual Case in New York Brings to Light That Excellent Ordinance is not Enforced By Officials.

New York, Feb. 19.—John C. Kane, 49 years old, of 240 Bergen street, died at the Long Island College hospital shortly after 5 o'clock last night. The direct cause of death was hydrophobia, contracted about three months ago.

Mr. Kane up to the time of his death conducted a horseshoeing shop at 187 Bergen street, a couple of blocks from where he lived. On the afternoon of November 11 last Mr. Kane was working in his little shop when he heard a woman scream for help. He rushed outside and found that a little dog, the property of a neighboring woman, had been attacked by a large mastiff. The woman screamed for Kane to save her dog, and while he was attempting to do so the other dog turned on him and took a large piece out of his arm at the elbow.

After the trouble was over Kane visited Dr. Leech, who has an office next door, at 185 Bergen street. The physician cauterized the wound and told Kane to take a couple of days' rest, or serious results might follow. Kane was very busy in his shop at the time, and kept at work.

Kane's wound healed very slowly, and when he returned to Dr. Leech last Friday he was in a critical condition. The doctor immediately recognized the symptoms of hydrophobia, and told Kane that the proper place for him was in a hospital, but Kane didn't think it was as serious as that, and decided to stay at home with his family.

The doctor was again called on Sunday evening, and he found the sick man barking like a dog and suffering greatly. Monday morning Kane was taken to the Long Island College hospital, where, after undergoing an operation, he died last night writhing in agony.

The dead man was one of the best known horseshoers in Brooklyn, where he conducted a business for 18 years. He is survived by a wife and five children.

Following is a statement made by Dr. Leech:

"The case of Mr. Kane, whom I attended, was one of the most peculiar that I have ever come in contact with, or in fact have ever heard of. In most hydrophobia cases there are three stages, and the patients usually passed through them all, but Mr. Kane's case was out of the ordinary run. He skipped the first two stages and died in the third and last stage, which is paralysis of the muscles.

"This case," continued Dr. Leech, "is a great lesson to the city of Greater New York, and probably after a few more people suffer death in this awful way, the police will wake up to the fact that there is an ordinance in this city prohibiting the running of dogs at large without being muzzled."

GREAT DISTRESS PREVAILS.

Misery and Want Follows in Wake of Dominican Rebels.

New York, Feb. 19.—A French mail steamship which has arrived here reports that the United States cruisers Newark and Columbia have, says a Herald dispatch from St. Thomas, D. W. I., been forced to fire on the Dominican rebels outside of the city of Santo Domingo, because the insurgents fired upon an American mail steamship. The American commander has forbidden either party fighting within the city limits. Great distress and starvation prevails in Santo Domingo city. The town of Jeremie, in southern

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wall and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserably of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 5c. in stamps for sample to The Herpicide Co., Detroit, Mich.

T. F. LAURIN, Special Agent.

WORKING PLANS ARE TO BE PREPARED TO RUN TRACTS

(Washington Correspondence to New York Commercial.)

Frederick Weyerhaeuser, president of the Weyerhaeuser Timber Company, has signed an agreement with the bureau of forestry by which the bureau agrees to prepare working plans for the conservative management of about 1,300,000 acres of the company's timber lands in Washington. By the agreement, the Weyerhaeuser Company agrees to defray the living and traveling expenses of agents of the bureau engaged in the work.

The Northern Pacific Railway Company has also requested that the bureau of forestry prepare working plans for its enormous timber land holdings in Washington and Idaho.

The timber lands of the Weyerhaeuser and the Northern Pacific companies are the most extensive privately owned tracts of land for which the bureau of forestry has ever been asked to prepare plans. The field work will begin next summer. The task of putting all these lands under careful management is of great magnitude, and only one familiar with the nature of the forests of the northwest can appreciate its difficulties. But great as these difficulties are, the importance and value of the work, once accomplished, far outweigh them. It is another proof of the profound interest and confidence which the west has come to feel in the practical results of forestry that the two

Hayti, has been declared in a state of siege.

CARROL WRIGHT ON LABOR.

Religious Idea Must Prevail in Solving the Problem.

Buffalo, Feb. 19.—Carrol D. Wright, United States labor commissioner, in a speech here on the question, "Is There Any Solution of the Labor Problem," said:

"Law has always failed to adjust wages and its efforts in that direction have done more harm than good. Socialism is an ambitious remedy, but it is not a vital principle. It is not a constructive force. The application of the religious idea is the true solution of the labor problem."

Mr. Wright said that the late Abram S. Hewitt and the late Senator Hanna were two of the greatest friends that labor had ever known.

COMPLAINT OF USURY.

Woman in Case Is Arrested by Authorities For Third Time.

New York, Feb. 19.—James T. Fitzgerald, of 1383 Meserole avenue, Brooklyn, was complainant recently in obtaining usury warrants from Justice Wyatt, of special session in Manhattan, for Charles Bridal, of 598 East Eighty-fourth street, and Louise Walsh, of 2631 Third avenue, employes of the Manhattan Finance Company, of 277 Broadway. Fitzgerald said that on June 5 last he borrowed \$25 from the concern and repaid it in six monthly installments of \$5 each. The warrants were executed yesterday and the defendants admitted to bail in \$500 each.

Ida Lode, of 318 West Forty-fifth street, Manhattan, was also arrested for the third time. She was employed by Mitchell & Co., now in Jersey City.

Assistant District Attorney Kresel said that the Manhattan Finance Company, the Globe Surety Company and the Aetna Security Company are owned by two brothers, one of whom is president of a state bank in Manhattan. He added that as fines are being paid by employers, employes do not seem to mind prosecution. He will endeavor to have some one put in jail for a term as a curative.

Golf Cures Bright's Disease.

Chicago, Feb. 19.—Golf is a sure cure for Bright's disease, according to Dr. E. N. Nash, who has made the statement at a meeting of the Homeopathic Medical Society. Dr. Nash supported his statement by citing cases in which he had noted definite and immediate benefits resulting in the patient's pursuit of the pastime and in the healthful open air life on the links and close communion with nature which the exercise compels.

Descendant of Edwards.

New York, Feb. 19.—Jonathan Tryon Hughes Edwards, sixth in line of direct descendants of Jonathan Edwards, is dead at his home here. More than 5000 descendants of the famous educator knew him as "Cousin Tryon."

A 7-year-old boy almost ending fatally started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklin's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c at Charles Rogers' drug store.

greatest land holding companies of the Pacific coast and Rocky mountain states, the one representative of the lumber, the other of the railroad interests of that country, should have called on the bureau of forestry for expert advice in managing their lands. The main timber supply of the United States is contained in the northwestern states, and the great advances which forestry has made in that part of the country must be regarded everywhere as of general benefit.

In a letter to the chief of the bureau of forestry, Howard Elliott, president of the Northern Pacific, writes these significant words:

"The Northern Pacific Railway Company is a larger holder of timber lands in the northwestern states, which are now being logged from in more or less irregular methods.

"Realizing the increasing scarcity of timber, and the probability of a more economical use of forest tracts which we have, and understanding that your foresters lend assistance to land holders in the way of making surveys and plans for economical forest management, I would ask whether it would be possible for the bureau of forestry to make surveys and plans for this company, looking toward the forest management of its tracts."

The work for the Weyerhaeuser Company is not the first undertaken by the bureau for that concern. Last summer a party of foresters made a study

of the Norway pine on the company's lands near Cloquet, Minn., and a working plan for these lands is now in preparation.

The following is part of the text of the agreement under which the bureau of forestry is to prepare working plans for the Weyerhaeuser Company:

"The department of agriculture, in pursuance of the investigations in forestry and in order to disseminate a knowledge of improved ways of handling forest lands, shall, after personal study on the ground by its agent or agents, prepare a plan for harvesting the forest crop and reproducing the forest on the land of the said Weyerhaeuser Timber Company, situated and described as follows: 1,300,000 acres, more or less, state of Washington.

"The said plan shall be prepared for the purpose of promoting and increasing the present value and usefulness of the said land to its owner, and to perpetuate and improve the forest upon it.

"Upon the completion of the said plan and its acceptance by the said Weyerhaeuser Company, the department of agriculture shall supervise the execution thereof so far as may be necessary.

"The department of agriculture shall have the right to publish and distribute the said plan and its results for the information of lumbermen, forest owners and others whom it may concern."

C. TOROTANI IN TROUBLE

Unpopular Jap Dropped Overboard byirate Jap Country-men Then Jailed.

HAS AN UNSAVORY RECORD

Returns to Seattle After Keeping Away From Authorities and Meets With a Decidedly Damp Reception.

Seattle, Feb. 19.—The troubles of C. Torotani were many early yesterday morning. By enraged countrymen this Japanese, who is known to the police as a desperate character, was cast into Elliott bay; then fished out again, and finally given over to Patrolmen Keith and Roessler, who landed him in the city jail.

Torotani has another name, which smacks more of his native sod and is harder to remember. Under this he went among his compatriots when in Seattle before. At that time he made a pretty good living by frightening women of his race with a long knife and taking their money from them. He was having a pretty good time until Detectives Hubbard and Freeman drove him out of the city along with the celebrated Gonda.

Early yesterday morning Torotani stole back to Seattle. He came in via the Grant street bridge and stopped to rest at a saloon on Grant and Weller streets, kept by another Japanese. Here were many men from the land of the chrysanthemum, discussing the prospective capture of Fort Arthur and celebrating their country's Fourth of July.

Into this good-natured crowd Torotani made his way. His arrival was greeted with loud cries, and he was about as popular as though he had shouted "Long live the czar." It

looked like a riot for possibly two minutes. By the end of that time the enthusiastic and law-abiding Japanese had taken Torotani to the back porch and dropped him over the railing. He splashed loudly as he struck eight feet of salt water.

Rescue work on the part of his assailants followed, and by the time the man was landed the patrolmen had been notified. They hastened to the place and gladly welcomed Torotani, who is always considered a good capture. He is being held for investigation, as there are a few points in his past conduct which the department wants to clear up.

Prominent Lawyer Dead.

New York, Feb. 19.—Francis Forbes, a prominent lawyer and recognized authority on trade mark law, is dead at his home here. He was recently appointed by President Roosevelt as a delegate to the international convention of jurists, to be held in connection with the world's fair at St. Louis.

Raoul Seeks Retirement.

New York, Feb. 19.—William G. Raoul, president of the National Railroad Company of Mexico, has announced to the directors his intention not to accept a re-election in April. His desire is to devote more time to personal affairs. No formal action on the matter was taken at the meeting of the board at which Mr. Raoul's statement was presented.

To Issue Paper Money.

New York, Feb. 19.—The Japanese government has decided, says a Herald dispatch from Seoul, to issue special paper money for military use throughout Korea, redeemable in gold coin.

Escaped an Awful Fate.

Mr. H. Harkins, of Melbourne, Fla., writes: "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption in duce me to try it. Results were startling. I am on the road to recovery and owe all to Dr. King's New Discovery. I surely saved my life." This great cure is guaranteed for all throat and lung diseases by Charles Rogers, druggist. Price 50 cents and \$1. Trial bottle free.

CHRONIC SORES
Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health.

If you have a chronic sore write us. No charge for medical advice.
