A HAPPY MOTHER

WEATHERFORD, TEXAS.
May 14, 1903.

Before my baby was born I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking four medicine for four months before baby came. Wine of Cardui restored my health as I took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.

Mrs. C. C. Wood
TREASURER, YOUNG MATRON'S CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble. Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

All druggists sell \$1.00 bottles Wine of Cardui.

WILL MEET WAR EXPENSE

Tokio Government Plan to Extend Monopoly on Tobacco and Create Salt Trust.

MAY INCREASE OTHER TAXES

Expenditure to Date is 150,000,000 Yen—Bonds Largely Subscribed for in Hawaii and San Francisco.

Tokio, March 16.—The cabinet, after a conference with the elder statesmen and other political leaders, has decided to submit proposals for the extension of the tobacco monopoly to include manufactured tobacco, and the creation of a salt monopoly to a special diet convening on Friday next. This will involve a heavy outlay for the purchase of private tobacco manufacturing concerns and the salt interests, but the advisers of the government regard the expenditure at this time as wise. The cabinet has decided also to suggest increases in land income, business, wine, soy, sugar stock exchange, mines, customs or duty, and stamp taxes, and in addition the creation of new taxes upon silk piece goods, kerosene and woolsens, an estimated total increase amounting to 68,000,000 yen. The war expenses from the commencement of hostilities to the end of March are estimated at 156,000,000 yen, divided as follows:

One hundred and eight million yen for the army and 49,000,000 yen for the navy. Of this sum only 60,000,000 yen has actually been disbursed, including the payment for the cruisers Nishin and Kasaga, purchased abroad. The government plans to meet the expenditures to the end of March with 100,000,000 yen from exchequer bonds just sold; 25,000,000 yen from the special funds and 31,000,000 yen to be raised by a temporary loan. The expenditures on account of the war from April next to December inclusive is estimated at 380,000,000 yen, besides a special war reserve of 40,000,000 yen. The government plans to meet these expenditures by the issuance of 380,000,000 yen in exchequer bonds; 68,000,000 yen in war taxes; 7,000,000 balance on ordinary annual receipts, and 25,000,000 yen from special fund. The foreign branches of the Yokohama specie bank reports subscriptions for the first issue of bonds totalling 850,000 yen. These bonds were largely subscribed for in the Hawaiian Islands and San Francisco.

THREE TYPES OF WOMANHOOD.

(By Countess de Montaigne.)
Women's industries will be widely exploited at the Louisiana Purchase exposition. Eleven years have rolled by since the close of the Columbian exposition. Since that time woman has explored many fields of endeavor formerly closed to her. At the present World's fair her work will be classified with that of men, and on every jury of awards a feminine juror will be appointed.

Much of the handicraft of women will be exhibited in the palace of varied industries. The exquisite statue entitled "The Industry of Women," by Kotif, typifying woman in her primitive state, is placed in a conspicuous position on this magnificent structure. It depicts the faithful housewife, who with distaff in hand, spins the thread from which the garments of the family are woven. From this state where woman scarcely rose above the position of a slave, by slow and painful graduation she has risen to greater heights until now she is the guiding spirit, of not only her home, but is an important factor in business, politics, religion and art. In fact, she has taken up almost every avocation once usurped by man.

Between the women of an early age and those of the 19th century there is a gulf wide and deep. Education has done everything for woman. It has set its seal upon her countenance as well as having developed her brain. Contrast the classic but unintelligent face of the Greek housemother with that of the woman of today. The artistic evolution is fittingly expressed in Miss Enid Yandell, the distinguished sculptress. Her face is not perhaps as classically correct as that of the exquisite statue of industry, but the thoughtful expression, the sweet decision of the mouth, and the contour of the face, all

demonstrate the improvement of a race. While perhaps a loser as to mere physical beauty woman is a gainer in the higher attributes of existence.

Here is another and distinctive type—the woman of business as embodied in Mrs. Margaret P. Daly, of Anaconda, Mont. Mrs. Daly is known as one of the wealthiest women in the world. Such was the confidence of her husband in her business acumen that he left her unrestricted control of his property, rated at \$60,000,000, which this enterprising lady has managed with rare tact and efficiency. Mrs. Daly dispenses a great deal of her fortune in philanthropy and exercises a generous hospitality. Her magnificent ranch at Bitter Root, Mont., is the scene of much gaiety, and in her palatial home in Anaconda many strangers have been entertained. Mrs. Daly represents Montana on the board of World's fair lady managers.

In our day and generation what woman would be satisfied to retrograde? The question is, who was the happier, the primitive doctor's prescription blank or the woman's suffrage, or she of the 20th century—restless, ambitious and forever reaching up after the unattainable?

AMERICANS ARE SAFE.

Friends of Seoul Residents Reassured By Letter Just Received.

Chicago, March 16.—Assurances that Americans residing in Seoul are in no danger is contained in a letter just received by the local Woman's Presbyterian Board of Missions, from Miss Eva H. Field, a medical missionary stationed in the Korean capital. Under date of February 14, Miss Field says: "If during the war any danger to Americans should arise our two United States boats will remain in Chemulpo harbor, and we would leave in a few hours. The Japanese army is a credit to the nation. They behave on the streets like Christian gentlemen, the reason probably being that their discipline is so perfect."

President Harper Better.

Chicago, March 16.—President Harper, of the university of Chicago, has so far recovered from his recent operation for appendicitis that he has been moved from the Presbyterian hospital to his home.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure—Doan's Ointment. At any drug store. 50 cents.

OPEN SHOP WATCHWORD

Employers and Men Get Forces Together for Life and Death Struggle.

NEITHER SIDE WILL GIVE IN

Bricklayers Insist That Agreement Has Not Been Lived Up to and Will Fight for Their Rights.

New York, March 16.—Employers and their men in the building trades here are preparing, according to the Herald, for a life and death struggle over the question of unionism. The struggle probably will be precipitated by a declaration on the part of the employers for the open shop policy and the destruction of the building trades unions.

The disastrous strike here last summer which caused losses mounting into the millions, ended in agreements to arbitrate future troubles, but now that the bricklayers' laborers have gone on strike, followed by the bricklayers, resulting in idleness of 10,000 men, and tying up of work all over the city, the employers declare that they cannot afford to enter into further agreements with the unions and it is asserted they are preparing to settle the matter in a finish fight.

The employers maintain that the open shop policy is the only course left to them if they wish to continue in business. A firm stand is being taken by the men, however, on the ground that their plans for arbitration were thrown aside by the employers. Circulars are being distributed broadcast warning the men to prepare for a determined fight against the open shop. These contain copies of letters that have been sent out by the National Association of Manufacturers of the United States, which includes employers' associations in every branch of manufacturing, and is said to be making a national campaign in favor of the open shop.

ed States, which includes employers' associations in every branch of manufacturing, and is said to be making a national campaign in favor of the open shop.

Wrestling Classes Arranged

New York, March 16.—Six classes in wrestling have been arranged for the supplementary meet to be held by the Metropolitan Association of the Amateur Athletic Union, March 24 and 26. The winners in the different classes will go to St. Louis to compete in the Olympic games to be held during the exposition. Local men are exerting themselves to make a good showing.

HETTY GETS EXTRAVAGANT

America's Richest Woman Buys Handsome House on Fifth Avenue.
New York, March 16.—Mrs. Hetty Green, America's richest woman, has joined the millionaire colony here, by purchasing a home on Upper Fifth avenue. She has in recent years maintained a legal residence in Hoboken, N. J., but lately has lived in a rented house in Fifth avenue, near Washington square. Her new residence is a handsome five-story mansion of the most modern design.

Used Special Weapon.

New York, March 16.—Charging that the American rifle team won the Palma trophy last year with a special weapon instead of the United States army service gun, the Dominion Rifle Association will follow Great Britain's example and not compete for the trophy this year and perhaps never again, says a Times dispatch from Montreal. This year's shoot is to be held at Sea Girt, N. J.

Autos for Fire Chief.

New York, March 16.—Favorable action has been taken by the board of aldermen to purchase two automobiles for the fire department. They are to cost not more than \$4000 each, one for the use of Fire Chief Croker in Manhattan, the other for the deputy chief, in charge of the Brooklyn and Queens departments. The machines will be used by the chiefs in making fast runs from their headquarters to answer important alarms.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

Newbro's Herpicide

A "HAIR-SAVER" THAT GROWS IN POPULARITY

GOING FOR HERPICIDE--BUT NONE TOO SOON

WHY? Because dandruff is a contagious disease and one cannot get away from it too soon. It is owing to the highly contagious nature of dandruff that the disease is so easily acquired. Washing and scouring the scalp will remove dandruff, but the cause of the disease can be removed only with a scalp germicide, and the original one is Newbro's Herpicide.

THE CHIEF reason for hair neglect and consequent hair loss is due to the extremely slow destructive action of the dandruff microbe, thus giving the impression that the hair is not in danger. The injury is to the hair bulbs, for when they are gone—as in chronic baldness—not even dandruff microbes remain in the scalp.

THE MERE fact that a tiny flake of dandruff laden with dandruff contagion, finds its way into the healthy hair of a young person, does not cause immediate dandruff and falling hair. Dr. Cartes, of Paris, has found that the dandruff microbe requires years of growth and development before it produces dandruff; but after this, the apparent destruction becomes more rapid, causing in time itching of the scalp and falling hair.

THE DISEASE DANDRUFF may be gotten by chance, but in almost every case it is acquired through the negligence of certain rules of cleanliness that are best understood by those who have kept pace with recent discoveries relative to the contagious nature of hair disease.

A Healthy Hair.

DISCRIMINATING PEOPLE now regard it a duty to employ a scalp antiseptic that will insure cleanliness and freedom from hair disease. This "duty" becomes a genuine pleasure in using Newbro's Herpicide and on account of its refreshing quality and exquisite fragrance a pleasant habit is usually formed for its use.

THE HERPICIDE HABIT. A well known traveling man writes as follows: "A friend of mine exposed me to your delightful remedy and I promptly caught the Herpicide habit." Ladies become enthusiastic over Herpicide for it overcomes excessive oiliness and makes the hair light and fluffy. It promptly corrects dryness and brittleness of the hair and never fails to cure dandruff and stop falling hair. It stops itching almost instantly.

TWENTY-ONE YEARS' EXPERIENCE.

"In twenty-one years' experience in my business I have found no preparation that equals Newbro's Herpicide for stopping itching of the scalp and removing dandruff." (Signed) W.C. GOODRICH, Portland, Oregon.

IT PLEASURES HIS PATRONS. "I have given your Herpicide a thorough trial, and take pleasure in recommending it. My patrons are highly pleased with Herpicide, and I can vouch for its merits as a positive cure for dandruff." (Signed) C. V. HARE, Portland, Oregon.
