Insanity, Death or Health?

No. 2807 Locust Street,
St. Louis, Mo., March 29, 1903.

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first real good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past.

Harriet C. Best
CHAIRMAN, LADIES OF HONOR, No. 9.

WINE OF CARDUI

We want to call your attention to the complete and immediate relief Mrs. Best secured by taking Wine of Cardui. Within a week after she began taking Wine of Cardui, Mrs. Best had her first good night's rest for eighteen months. Her restlessness was caused by nervousness and Wine of Cardui, as the best menstrual regulator, has no superior in the world as a medicine to soothe a woman's nerves. Nervousness and hysteria are warnings of the approach of insanity and if relief is not secured the end can only be the asylum or the grave. With such an outlook as this before her, no suffering woman can reasonably refuse to give Wine of Cardui a trial. It brings a cure that thousands of women have sought for in vain. Will you secure a bottle of Wine of Cardui today and start treatment?
All druggists sell \$1.00 bottles Wine of Cardui.

SIR THOMAS IS PREVIOUS

Club Intimates to Lipton That Bridges Will Be Crossed Later.

THEY ARE NOT YET REACHED

Request That Challenges Be Accepted Under New Club Rules Receives Unfavorable Reply.

New York, March 18.—The New Yacht Club has replied to the letter of Sir Thomas Lipton, in which the Irish baronet asked if the club would accept a challenge for a race for the America's cup under the new rule of measurement of the club. This letter was received early in January and acknowledged, but it was not deemed of sufficient importance to call a special meeting of the club for its consideration, as no challenge could be accepted for a race this year.

The letter was read to the members at the annual meeting, February 18, and referred to a special committee with power to answer for the club. This committee considered the proposals of Sir Thomas carefully and has no "mailed" the reply.

Sir Thomas Lipton, in asking if the club would accept a challenge under the new rules, practically asked the club to bar the Reliance, Constitution and Columbia from participating in future races for the cup. These boats could not be used as defenders because the present rules of the club limit the draught of any boat to 18 feet, and these three draw 20 feet each.

It is understood from club members who have a knowledge of what the committee agreed upon that the letter is intimated to Sir Thomas Lipton that the club does not cross a bridge until it comes to it and that it has no power to say what it will do in the event of a challenge being received and can make no agreement with any one which shall govern future contests. The letter points out that the deed of gift requires a challenge to come to some one yacht club and that it is the challenging club and not the representative that the New York Yacht club recognizes. If a challenge is received from some yacht club asking a race under certain conditions, then the matter will be considered by the New York Yacht Club and some definite action taken.

LOOKING FOR INDIANS.

Party of Fifty Red Men Lost in Northern Wilds.

Seattle, March 18.—A special to the Post-Intelligencer from Dawson says: The Canadian government relief expedition will leave here tomorrow for the purpose of endeavoring to rescue 50 McKenzie river Indians who are lost in the Rocky mountains 200 miles from Dawson.

The Indians left McKenzie some time ago, bound for this place. They lost their way, and, as it is 50 degrees below zero at the present time, the party must be in a pitiable condition.

There is a big political fight on between the different factions of the Yu-

Why use gelatine and spend hours soaking, sweetening, flavoring and coloring when

Jell-O

produces better results in two minutes? Everything in the package. Simply add hot water and set to cool. It's perfection. A surprise to the housewife. No trouble, less expense. Try it to-day. In Four Fruit Flavors: Lemon, Orange, Strawberry, Raspberry. At grocers. 10c.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

kon Liberal Party. One of the factions is opposing strenuously the action of Governor Congdon in throwing the patronage of his office to some who have openly fought the government and the liberals for a long time. The Dawson Liberal Club has adopted and published resolutions repudiating the new liberal organ, managed by Dan Matheson and W. A. Beddoe, and said to have been started by the sanction of the governor and with the understanding that it be given government business. The club declares the Sun to be the official organ of the party. The members of the club allege that the Ottawa government which has the appointment of the governor, has been trying to dominate the distribution of the Yukon patronage, utterly ignoring the members of the Yukon liberal party.

JAPS ARE SHIVERING.

Intense Cold in Corea Makes it Tough For Troops.

New York, March 18.—Although the ice in Ping Yang inlet is broken there is much drifting, says a Times dispatch from Chinampo, Corea. The weather is intensely cold, but such Japanese troops as are not immediately pushed forward after landing from the transports are bivouacking with their animals in the open and sleep in turns in Corean houses which, with fire under the floors, are warm.

Everything requisitioned is paid for, but at present the army is independent of the resources of the country. The men carrying two days "cooked rations" and three days' rice rations.

All the correspondents who arrived in the Corean theater of hostilities without official licenses have been requested to withdraw on board returning transports. No correspondent has been allowed more than 15 miles north of Ping Yang.

ONE FIREMAN MAY DIE.

Roof of Burning Building Falls on Six Men.

Chicago, March 18.—Six firemen have been severely injured in a fire of supposed incendiary origin which burned the old Holden school building, at Loomis and Thirty-first streets. One man may not recover.

All the injured firemen were on the third floor of the burning structure when the roof fell in upon them. The fire started on the third floor and by the time the fire engines arrived the entire upper part of the building was in flames. It was feared the fire would spread to the new school house adjoining which is twice the size of the burned structure, but by hard work the flames were confined to the upper floors. The old Holden school building was erected at a cost of \$50,000.

NEGROES BOYCOT HIM.

Delegate Who Pushed Jim Crow Bill Goes Hungry.

Snow Hill, Md., March 18.—Delegate W. G. Kerbin, of Worcester county, who has been pushing the "Jim Crow" bill in the state legislature has been boycotted by negroes.

Kerbin boards at a hotel here. When he returned from Annapolis and entered the dining room he was informed that the colored cook had refused to prepare another meal for him. Hungry and angry he traveled to Baltimore before obtaining food. His colored laundress also has joined the movement.

Japanese Landing Delayed.

New York, March 18.—The proposed Japanese landing at Wonsan, on the eastern coast has been further delayed, says a Herald dispatch from Seoul, by the threatened attitude of the Vladivostok naval squadron consisting of four ships, which are now anchored at Posselt Bay, an excellent base for attacking Japanese transports approaching Wonsan. It is reported by the prefects of northeastern Corea that bodies of Russians, accompanied by interpreters are surveying the country, ascertaining the population, the quantity of supplies and the sentiment of the people.

Hitchcock Succeeds Whitney.

New York, March 18.—At a meeting of the board of directors of the Saratoga Breeding Association, for the improvement of the breed of horses, F. R. Hitchcock, has been elected president, to succeed William C. Whitney and Harry Payne Whitney was elected vice president in place of Mr. Hitchcock. Clarence M. Mackay was elected a director of the association.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure—Doan's Ointment. At any drug store, 50 cents.

Nature Lends

Every one knows that Royal Baking Powder is absolutely pure. Hence the housewife uses it with implicit confidence and without question, and she is justified in so doing.

But how few realize that Royal Baking Powder in its chief ingredient is a direct product of the healthful and delicious grape! This constituent of the grape, crystallized and ground to an impalpable powder, is the cream of tartar which forms the active principle of every pound of Royal Baking Powder.

Fruit properties are indispensable to the healthfulness of the body, and those of the grape as used in the "Royal" are the most valuable and healthful of all.

Hence it is that Royal Baking Powder produces food superlative both in flavor and wholesomeness.

ROYAL BAKING POWDER CO., NEW YORK

LOWER THAN LOOKED FOR

Prices of Wheat and Cotton Drop Further Than Bears Had Expected.

TRADE ADVICES AT HAND

Labor Troubles Offset by Action of Soft Coal Miners in Accepting a Reduction in Wages.

New York, March 18.—Special trade advices from correspondents of the International Mercantile Agency throughout the United States chronicle interruptions and changes incidental to breaking from snow storms into a semblance of spring weather and the usual season's increase of labor disturbances. The latter despite their seriousness at New York are offset by the conservative action of 190,000 soft coal miners, who have decided to accept a reduction in wages.

Prices for wheat and cotton dropped further than many bears expected. Over a considerable period wheat should range relatively high on 50,000,000 bushels decline in domestic visible and invisible supplies within three years. The long predicted freer movement of cotton from the interior with growing short sentiment has had the natural effect. The unusual accumulation of funds at New York, by which banks are strengthened against the day of Panama settlements and possible needs by banks at European centers, due in part to checked demands for mercantile accommodation. In Philadelphia, Pittsburgh, Chicago and St. Louis there is a slackening in demands from banks also. On the other hand, Boston banks report no such check. Except at Chicago, among other cities, railway shipping facilities have vastly improved since last week, but Pittsburgh reports many cars needed, which have been sent to New York, Lake Shore and Canadian points. General trade is quiet. St. Louis takes the

brightest returns, with business well ahead of last year in agricultural implements and swelling volumes of sales of clothing, drugs and groceries.

The entry of the Pennsylvania railroad as a buyer in the steel market leaves no lingering doubt that the steel industry will take on renewed activity at an early day and that prices in some varieties will be still further advanced. The sentiment in New York financial circles has improved greatly since the merger decision and standard stocks which net five per cent with long time money at 4 1/2 per cent are now beginning to have their natural influence. In the Canadian dominion congested traffic has been relieved by milder weather. There is considerable activity in the distribution of spring goods, particularly cottons, millinery and footwear. Building at larger Canadian centers promises to be quite active. The increase at Toronto will probably be 25 per cent as compared with last year. The prospect is for heavy immigration.

CLAIM RICH VALUES.

Spencer Guich Makes Showing of Free Milling Ores.

Jacksonville, Ore., March 18.—Jack and James McNulty, who have been prospecting in the upper Applegate district for some months past, are developing a quartz ledge on Spencer gulch near Uniontown, about 11 miles southwest of Jacksonville. The ledge has been traced about 450 feet on the surface and a shaft has been sunk 45 feet at which depth the ledge is over four feet wide and assays made from various parts give flattering evidence of the richness of the mine. At the depth of 45 feet a vein of sulphite 16 inches wide was struck that yields high values. One sample of 1 1/2 ounces that was burned out in a frying pan yielded 30 cents in gold and a specimen of quartz sulphite weighing one-half pound when mortared and the gold collected with quicklime gave 75 cents worth of the yellow metal. These tests show that values run about \$2000 per ton, and the ore so far is free-milling. McNulty brothers are going to sink their shaft to a 75-foot level and then run a tunnel to meet it. There is every indication that the mine will prove to be a money-maker.

Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is ment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood, and the Uric Acid poison is neutralized, the sluggish circulation stimulated and quickened, and soon the system is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.

S. S. S. is a harmless vegetable remedy, unequalled as a blood purifier and an invigorating, pleasant tonic. Book on Rheumatism will be mailed free.
