FROM ILWACO TO ORIENT.

Dr. Klamke Appointed to Field and Hospital Service.

Ilwaco, Wash., April 8.—Dr. Edmond Klamke of Ilwaco has received an appointment to the Russian field and hospital corps, and has started for the scene of the war in the orient. He will sail on the Empress of Japan, which leaves Victoria, Monday, and will land at Shanghai, from where he will take the Chinese Imperial railway to Manchuria. He will report at either Harbin or Mukden.

Dr. Klamke is of Danish nationality and came to America three years ago. Besides the mother tongue, he speaks English and German fluently, and has a smattering of French. His wife will return to her old home in Copenhagen, in the course of a few weeks, and their wait the close of the war and the return of her husband.

"By the middle of May," said Dr. Klamke, in speaking of his trip, "I will be in the midst of the conflict, and will then know what actual war is. I have a trace of Russian blood in my veins, but it is not from sympathetic actions entirely that I am going to the front. The experience in surgery which I will no doubt derive, will be of great benefit to me. I have been working for the appointment for sev-

eral months, and was aided largely by influential friends and relatives in Russia.

"I do not know whether I will be assigned to the army or naval branch of the service, but in either case, I will probably work in connection with the Red Cross Society, which the Russian government has placed in charge of the work."

Japan Seeks Canadians.

Vancouver, B. C., April 8.—Japan is seeking Canadian south Africa veterans for service in the war with Russia. Secret service agencies are approaching men in various towns claiming authority from the Japanese government to offer positions to Canadians in the Japanese corps.

Wade Property Sold.

Pendleton, April 8.—The sale of the personal property of C. B. Wade, former cashier of the First National bank, netted \$12,000 today. Mining stock costing Wade at least \$300,000 sold for \$8,000.

Honors for Washington.

Seattle, April 8.—The university of Washington tonight defeated the university of Oregon in the fifth annual intercollegiate debate, the judges voting two to one for the Washington

team. The record now stands three to two in favor of Washington.

The subject was the merits of labor unions, Washington holding the negative.

Nearby Gets Decision.

Milwaukee, Wis., April 8.—Charley Neary of Milwaukee was given the decision over Jimmy Briggs of Chelsea after six rounds tonight.

Six Rounds to Draw.

Chicago, April 8.—Jimmy Gardner of Lowell, Mass., and Buddy Ryan of Chicago fought six rounds to a draw tonight.

Chivalry of General Gordon.

Many stories are being told of the late General Gordon, most of them relating to his chivalry and gallantry to women. A correspondent of the Kansas City Star writes that he will never forget the general's reply at a reception in London once, when asked if he had time to be introduced to some ladies. "Time to be introduced to ladies?" came the gallant retort, "I would have time for that if I were on a cavalry charge." Another story, told by the same correspondent, quotes the general's comment upon seeing the picture of "Napoleon's Coronation" at Versailles, where the emperor takes the crown from the pope after he has blessed it, and, first placing it upon his own head, then places it upon Josephine's saying: "Josephine, I

crowns thee, also." General Gordon said: "The greatest military genius of the world, but he threw away the love of a devoted woman, and his evil genius pursued him ever after."

A THOUGHTFUL MAN.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Charles Rogers' drug store.

"WHAT'S BRED IN THE BONE WILL OUT IN THE FLESH"

Is true of mankind as well as lower animals. We do not expect blooded stock from common sires, physical giants from dwarfs and midgets, nor well-developed, robust children from tainted ancestors and sickly parents. It is contrary to the laws of nature and heredity, which are inviolable, unchangeable and fixed.

Children not only inherit the features, form and disposition of their parents, but the mental and physical qualities, infirmities and diseases as well. That certain diseases are transmitted from parents to children, are bred in the bone and handed down from one generation to another, can not be denied, for we see evidences of it every where and every day.

SCROFULA, a disease almost as fatal as Consumption, is a disease of the blood, is bred in the bone and will out in the flesh in the form of glandular swellings, deep abscesses and sores, boils and eruptions. It affects the eyes and ears, weakens the digestion and destroys the red corpuscles and solids of the blood, resulting in emaciation, stunted growth and poorly nourished bodies.

RHEUMATISM is handed down from gouty ancestors and rheumatic parents. The acid poisons in the blood that cause the sharp, shooting pains in muscles and joints have been there may be from birth, and exposure to bad weather, night air, or cold, easterly winds only hastens the attack by exciting the acid blood. The blood must be purified and the poisons filtered out of the system in order to get relief from this painful disease.

CATARRH is something more than a cold in the head; the poison extends into the Throat and Lungs, attacks the Stomach, Kidneys and Bladder, and every part of the system. We inherit a predisposition or tendency to Catarrh, just like other blood diseases; it is bred in the bone and can not be reached with sprays and salves, but requires constitutional treatment and a thorough cleansing of the disease-tainted blood.

CONTAGIOUS BLOOD POISON is responsible for more suffering than all other diseases combined, and none is so surely transmitted from parent to child. Fearful ulcers and sores and disgusting skin eruptions often break out in infancy, and those whose blood is tainted with this awful poison are handicapped from birth, and unless the poison is eradicated carry the taint through life.

CANCEROUS ULCERS and old sores seem to pursue some families through generations, and in spite of washes, salves and ointments, continue to spread and grow because the taint is in the blood; is bred in the bone and grounded in the flesh.

Nothing but a real blood remedy like S. S. S. can reach these deeply rooted, inborn diseases. It goes to the fountain source of the trouble, uproots the old taint, drives out the poisons that have been lurking in the blood for years, and tones up the weakly constitution.

S. S. S. reaches diseases of this character that no other medicine does or can. It has been tested in thousands of cases during the nearly fifty years of its existence, and its reputation as a cure for chronic blood troubles is firmly established.

S. S. S. is guaranteed purely vegetable and suited to old and young and persons of delicate constitution. If you have inherited a predisposition or tendency to some family taint, the sooner you begin a course of S. S. S. the quicker and more certain the cure. The disease may develop in childhood or later on in life, but is sure to make its appearance sometime, "for what is bred in the bone will out in the flesh," as sure as you live.

Our physicians make diseases of the blood and skin a special study. Write us all about your case, and medical advice or any special information desired will cost you nothing.
