CROWN PRINCE AGAIN ILL.

Strenuous Horsemanship Results in Young Man's Confinement.

New York, May 14.—Crown Prince Frederick William has been confined to his quarters for three days, by order of the emperor, according to a Times dispatch from Berlin. The order is stated to have been due to the participation of the crown prince in the recent dangerous riding competition on the Berlin race track, when, mounted on an Arabian horse, he outdistanced a dozen brother officers and tied with Captain Von Hoizing of the First Uhlan's of the guard for the Kaiser's cup, but gallantly renounced all claims to this prize. This is the second time the emperor has disciplined his son for reckless horsemanship.

The Salmon Market.

The New York Fishing Gazette says of the salmon market: By one of those extraordinary coincidences which are sometimes met with in trade relations, it certainly does seem as if the consumptive demand from domestic sources for red salmon the present season has for some inexplicable reason dwindled away to an infinitesimal point. Needless to say, the prospect is hailed with delight by "short" interests who are confronted with the proposition of covering at an arbitrary figure. Producing interests cannot be said to be materially affected because it is an assured certainty that in any event the past season's pack of red Alaskan fish, the sole factor in the situation, will be closely cleaned

up at quotations. The wire edge to English export requirements, to say nothing of the tentative demand from Russian sources, would more than suffice for the entire quota. We can not, therefore, but regard it as a peculiarly fortunate circumstance that at this juncture the internal consumptive demand for salmon in the states should be materially abated.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 50c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Woman Arrested for Embezzlement.

New York, May 14.—Marshall Rawlins, said to be connected with a well known Baltimore family, and formerly the wife of a Chicago resident, is under arrest here on a charge of having attempted to pass a worthless check for \$6. The statement was made in court that she had disposed of simi-

LIFE OF BOY WORTH TWICE AS MUCH AS THAT OF GIRL

Newark, N. J., Jury Decides Value in Suits Growing Out of Trolley Car Accident at That City.

New York, May 14.—A boy's life is twice as valuable as that of a girl, according to a decision by Judge Adams of the Essex county circuit court at Newark, N. J.

The suit grew out of the Clifton avenue trolley accident of February 19, 1903, in which nine high school pupils were killed.

In announcing his decision, Judge Adams pointed out that in each case the only question to be considered by the jury was the amount recoverable according to the interpretation of the statutes. In each, he said, there was the probable pecuniary value to the parents of the one whose life had been ended. A woman may become a bread winner, he said; a man must be one. The finding was made in accordance with the judge's idea.

Washington, May 14.—Miss Clara Barton today resigned the presidency of the American Red Cross and was succeeded by Mrs. John A. Logan, who has heretofore occupied the office of vice president of the association. The ceremony occurred at Mrs. Logan's residence and was participated in by Miss Barton, Mrs. Logan and members of the executive committee of the Red Cross. Miss Barton's letter of resignation was a partial review of the work of the organization. The resignation was accepted, and in addition to many individual expressions of regret the executive committee united in a letter to Miss Barton.

Retires From The Red Cross

Miss Barton is Succeeded as President of Society by Mrs. John A. Logan.

Washington, May 14.—Miss Clara Barton today resigned the presidency of the American Red Cross and was succeeded by Mrs. John A. Logan, who has heretofore occupied the office of vice president of the association. The ceremony occurred at Mrs. Logan's residence and was participated in by Miss Barton, Mrs. Logan and members of the executive committee of the Red Cross. Miss Barton's letter of resignation was a partial review of the work of the organization. The resignation was accepted, and in addition to many individual expressions of regret the executive committee united in a letter to Miss Barton.

With the retirement of Miss Barton, Mrs. Logan as vice president succeeded to the duties of the chief position. She made a brief address, saying in part:

"In assuming the duties of acting president of the American National Red Cross, I do so with many misgivings as to the possibility of satisfying every one. However, desiring to do all I can to allay the present excitement within the organization, I have tried to fill the position with charity for all and malice toward none."

"I shall be governed by the wisdom and counsel of the executive committee, and endeavor to the utmost of my ability to give most respectful consideration to each member of the society."

"Every interest of the American National Red Cross shall be protected as far as it is possible to do so. The executive committee shall be advised of every step taken for the promotion and welfare of the society and the preservation of its assets and good name, and a full report will be made to the next meeting of the American National Red Cross Society, to whom the executive committee and myself are responsible."

"I shrink from undertaking the duties of the president and from making these suggestions, but having accepted the position from the society, I feel I must endeavor conscientiously to do my duty."

Miss Barton left with Mrs. Logan a number of suggestions bearing upon the conduct of the society, and Mrs. Logan suggested that a meeting be called for September 8 next for the consideration of this memoranda.

In speaking of the necessity for this meeting, she put it upon the ground of the "present unpleasant and unsatisfactory condition of affairs." She suggested that at the proposed meeting no proxies be received. She also expressed the opinion that in the interim a proper custodian should be appointed to take charge of the assets of the organization.

Peruvian Officers Banqueted in Manaoas by Consulate.

New York, May 14.—A dispatch from Manaoas says that the consulate there has tendered a banquet to the Peruvian officers, who assembled in plain clothes to celebrate the beginning of war, cables the Rio Janeiro correspondent of the Herald. The police established a guard around the consulate to prevent a manifestation which had been planned by a mob.

CELEBRATE START OF WAR.

The governor of Manaoas reports that great excitement was caused there by reports of Peruvian advances on the upper Purus.

A little life may be sacrificed to a sudden attack of croup, if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

ROYAL Baking Powder

Makes the food more wholesome, and more nutritious to both brain and muscle.

I have given the Training Table to the Cornell University for five years very satisfactorily, and am certain that much of the success has depended upon the quality of articles used. In baking powder, I use the Royal, for it is undoubtedly the best. I have occasionally given others a trial, and have demonstrated to my satisfaction that there is but one always reliable, always making perfect, delicious and wholesome food,—The Old Reliable "Royal."

(Mrs.) Amelia Morey Atkins.

BOILS PYRAMIDS OF PAIN

Most Plentiful and Troublesome During Spring and Summer.

It takes warm weather to bring out the hidden impurities, humors and poisons in the system and stir up the sluggish blood, and this is why boils are so common in Spring and Summer. They sometimes come singly, but oftener in pairs and triplets, and even in bunches and clusters, and generally upon the tenderest part of the body. They are the most painful of all skin eruptions, and the blood is in a turmoil, and the system in a feverish commotion from the time these volcanoes of misery begin to form until they

burst and the matter is all discharged. But lucky is the unfortunate sufferer who gets off with only one boil, for even if another does not follow immediately, the poison that is left in the blood is bound to collect somewhere else and break through the skin, and these pyramids of pain may be coming and going all through the Spring and Summer.

Some people have an idea that boils are good for the health, that they are evidences that the blood is too rich, but nobody's blood ever gets too rich; neither are boils conducive to health. Impoverished or polluted blood, or a riotous, feverish condition of this vital fluid causes boils, carbuncles, and other dangerous skin eruptions.

Long-continued sickness leaves the blood too weak and sluggish to throw off the bodily impurities and relieve the system of the waste and refuse, which then concentrates at some spot and a carbuncle or boil is the result. To one already enfeebled by disease boils seem to come with more frequency, causing the intensest pain and greatest danger to the already weak and debilitated sufferer.

All skin eruptions, from the sometimes fatal carbuncle to the spiteful little cat-boil, are caused by bad blood, and the only way to avoid or get permanently rid of them is to purify and build up the deteriorated, polluted blood, and counteract the humors and poisons, and nothing will do this so quickly and thoroughly as S. S. S., which is the acknowledged king of blood purifiers and greatest of all tonics.

Where the blood has become impoverished and is poor and thin no medicine acts so promptly in building it up and restoring its richness, purity and strength. The time to cure a boil is before it develops, when it is in a state of incubation or formation in the blood, for boils are, after all, only the impurities and poisons bubbling up through the skin, and this will continue in spite of poulticing and lancing till the blood gets rid of its accumulated poison. The way to stop boils is to attack them in the blood, and this is what S. S. S. does. All danger of boils is past when the blood has been thoroughly purified and the system cleansed of all morbid, impure matter. If you are subject to boils, then the same causes that produced them last season will do so this, and the sooner you begin to put your blood and system in good order the better the chance of going through the spring and summer season without boils or other painful and irritating skin eruptions.

S. S. S. is guaranteed purely vegetable, and can be taken with perfect safety by old and young, and without harm to the most delicate constitution. It is mild and pleasant in its action, and unequalled as a cure for boils and kindred eruptions.

Write us if you would like advice from our physicians or desire any special information; this will cost you nothing.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

BOILS FOR OVER 15 YEARS.

Gentlemen:—For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared, and I have not been troubled any since. I feel deeply indebted to S. S. S. for the excellent health I am enjoying, as I have not felt so well in twenty years. You have certainly placed me under many obligations, and I must say that I will always have great faith in S. S. S.
