The Russian consul personally had a telegram from Dalny saying that it is rumored that two Japanese battleships had been sunk off Port Arthur.

Refugees coming in say that the power received no damage from the bombardment and that considerable tand fighting is going on to the north of Dalny.

CUTICURA

The World Is Cuticura's Field, **Used Wherever Civilization** Has Penetrated.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric seld in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the scalp, face, ears and neck and on one limb. I was for several months under professional treatments, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dread-fully disfigured and I lost nearly all my hair. At last, my wife prevailed upon me to try the Cuticura Remedies and I gave them's thorough trial with the most satisfactory results. The disease soon began to disappear and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible women to report if any case should come under their notice when a poor person is so afflicted, so that your remedies may be

"'Ah!' exculaimed the candidate here's 5 cents for you. I don't suppose he gave you any money?"

"The youngster laughed merrity. 'Yes, he did, too! He gave me 10 cents!"

"Not to be outdone, the candidate gave the little one another nickel, and arrived here from Dalny have reported plicking her up in his arms, kissed hem. "Did he kiss you you, too?" he asked genially.

FUTRE DEMAND FOR WHEAT.

When Millions of Orient Use It Supply Will Be Inadequate.

(Booklover's Magazine.)

A strong point made by the flour mill magnates of the west is that when any considerable number of the millions of China shall call for flour the entire wheat-growing area of the world will not be sufficient to supply the demand

"Even if all Japan should become a flour-eating people," he said, "the whole available supply of the Pacific coast would provide this commodity for only kingdom."

There is likelihood, too, that a greater portion of the inhabitants of Japan will acquire the habit of using flour. It was represented to the mikado by his ablest advisers that, in modeling the Japanese army on the latest military standard of the modern powers, the important matter of dlet had been overlooked.
