A HAPPY MOTHER

WEATHERFORD, TEXAS.
May 14, 1904.

Before my baby was born I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health as I took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.

Mrs. G. C. Wood
TREASURER, YOUNG MATRONS' CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble. Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

All druggists sell \$1.00 bottles Wine of Cardui.

PERRY GOES TO SEATTLE

Revenue Cutter Will Leave Out This Evening to Be Fitted for Northern Cruise.

MAY NOT RETURN TO ASTORIA

Report Has It That Some Other Vessel Will Be Stationed Here Next Winter to Aid Shipping Interests.

If all goes well, and there is scant reason to believe that it will not, the revenue cutter Perry will depart tonight for the sound. Whether or not she will ever again return to Astoria is a question that can not be answered. If intimations which have reached the port can be relied upon, she may be replaced here during the winter months with some other vessel of the revenue cutter service.

The Perry is in need of repair. Some time ago, soon after the completion of the Portland drydock, the cutter was doped to be repaired there. The story proved to have been mythical, however, resulting no doubt from the enthusiasm with which completion of the drydock was characterized. Perhaps some effort was made to induce the department to send the Perry to Portland for dockage, but if so it failed, for she is to go to the sound now and there be renovated.

After coming off the sound drydock the cutter will be fitted out for her regular Alaskan cruise. She will proceed north just as soon as repairs can be made and supplies taken aboard and will remain in northern waters until fall. She will be one of a fleet of several vessels to spend the summer in Alaskan waters.

The cutter is now being prepared for her trip around to the sound, and it is Captain Dunwoody's hope that he will be able to get away tonight. It was stated yesterday that perhaps the Perry would not return in the fall to Astoria, where she has wintered for several years past, but that another and larger vessel would be sent down. Just what object the department might have in making the change was not stated, but it is presumed the officials of the service are anxious to locate here a cutter large enough to render assistance to shipping during the winter storms. The Perry is almost too small for effective work of this sort. Every winter there is more or less damage to shipping because of heavy weather, and a larger cutter would be of great assistance. However, nothing of a definite nature has yet developed, and doubtless will not until late in the year.

Twenty-Four Hours Late.

The steamship George W. Elder arrived yesterday from San Francisco. She was due here the previous day, but was delayed on the trip up the coast. The steamship was provided with a poor quality of coal and consequently experienced difficulty in keeping up steam. The northwest blow that has prevailed also delayed her and she was just 24 hours behind time. She brought a large number of passengers and much freight.

Marine Notes.

The steamer Elmore departed yesterday for Tillamook and Nehalem. The British bark Invermay, with a cargo of lumber for Mollendo, departed yesterday.

The steamer Anderdeen arrived yesterday from San Francisco to load lumber. Head winds delayed her almost 48 hours.

May's lumber record is still climbing upward. The latest cargoes to be cleared are those of the barkentine John Smith, which goes to San Francisco with 390,000 feet, and the schooner A. F. Coats, which goes to San Pedro with 750,000 feet. The month promises to be a record-breaker in the matter of lumber shipments.

A War Photographer's Sacrifice.

In some respects one of the most remarkable war photographs ever made was secured by a man named Meyer, a

No Dessert More Attractive

Why use gelatine and spend hours soaking, sweetening, flavoring and coloring when

Jell-O

produces better results in two minutes? Everything in the package. Simply add hot water and set to cool. It's position. A surprise to the housewife. No trouble, less expense. Try it to-day. In Four Fruit Flavors: Lemon, Orange, Strawberry, Raspberry. At grocery, 10c.

correspondent for a German illustrated newspaper during the war in South Africa. Meyer was with the Boers, and one day, during one of Buller's attacks along the Tugela he took a position on the firing line. The fire from the British batteries across the river was very heavy during the preliminary period of the assault, and shells literally rained on the low lying kopjes occupied by Botha's army. Meyer thought he saw a god opportunity to secure a fine picture, and he jumped out of his "schanse" to snap it. Just then a big lyddite shell exploded within a few feet of him, killing him instantly. I afterward secured his camera, which was comparatively uninjured. When the film it contained was developed I discovered that Meyer had made a beautiful photograph of the huge shell which had snuffed out his life. I sent a copy of the picture to his relatives in Germany.—Syracuse Telegram.

Shop Force Struck

Port Jervis, N. Y., May 25.—The shop force for the Erie Company at this point struck today. This included the men of the International Union of machinists of the machine shop and part of the car shops. The non-union men also left in a body because a raise in the wage schedule, which they say was promised two months ago, had not been made.

McGovern Training.

New York, May 25.—Terry McGovern, the pugilist, has begun light training for his battle with Eddie Hanlon which is scheduled to take place in San Francisco the latter part of July. Next week the former champion will go to Mount Clemens, Mich., where he will continue his preparations for a time.

First Deal In Redwood

Large Tract of Forest in California Sold to Firm in Wisconsin for \$600,000.

San Francisco, May 25.—The first deal in redwood timber land in this state this year was affected yesterday when a large tract of forest in lower Humboldt county was transferred to the Metropolitan Lumber Company of Green Bay, Wis.; Donovan & O'Connor of Menominee, Mich., and Charles Culbertson of Boulder, Col. The purchase price is said to be \$600,000, of which a large payment has already been made. The tract, it is estimated has in the neighborhood of 400,000,000 feet of timber on it.

Do you know of any exception to this rule: That the merchant who spends the most money for newspaper space does the most business?

BOUGHT GOLD BRICK.

Victim Tries to Dispose of His Buy to Government.

San Francisco, May 25.—United States mint officials discovered yesterday what appears to be a gigantic "gold brick" swindle, with E. Cohn of the Crossley building as the victim. Cohn took a large metal bar to the mint yesterday morning for deposit. The experienced eyes of the receiving clerk, Major D. L. Noggle, discerned that the ingot had a suspicious appearance. The doubts as to its genuineness were confirmed by an assay, not a trace of precious metal being found.

When Cohn was advised in the afternoon of the results of the assay, he staggered as if he had been shot. A companion, in the excitement, turned to the man with the exclamation:

"I told you so! I told you that it was a swindle!"

The pair took the worthless bar away with them. Subsequently Superintendent F. A. Leach of the mint advised Secret Service Agent William J. Burns of the peculiar transaction. The mint people are satisfied that Cohn was the victim of a "gold brick" deal, and probably was hard hit. Major Noggle notified Superintendent Leach that had the bar been genuine it would have been worth \$25,000. As it is, the assay showed it was absolutely worthless.

The brick, as described by Major Noggle, was a rough, blackened affair, not gilded, but of brass, with the appearance to an unpracticed eye of a bar of alloyed gold. In size it was large enough to have carried \$25,000 in gold, but not heavy enough to be precious metal.

E. Cohn is a money lender in the Crossley building. Cohn's brother said today that two brothers named Gutter, race track men, had obtained from E. Cohn \$17,000 on many different schemes, and the latter was pressing them for payment of the debt. Max Gutter let Cohn know that he had the
