Man Cannot Rest From a Year's Work in Two Weeks and Generally Returns to Work Worse Than Before.

under the caption, "The Injustice of Vacations," the Independent quotes Russell Sage to the effect that he never has taken a vacation in his life; that the vacation habit is the outgrowth of abnormal or distorted business methods and that a man is less fitted to do good work for his employer after two weeks rest each year than he was before.

"When I was a boy," said the veteran financier, the practice was not in vogue, during the 83 years of my career, I have not taken a vacation. As a matter of fact, I was so glad to get a chance to learn business that the idea of asking my employer to make me a present of two weeks of the time that belonged to him would have been preposterous. Besides I was eager to advance in business.

What the Republican Party Stands For (From Francis Curtis's "History of the Republican Party.

It will not be contended, in spite of the vast array of republican achievemen chronicled in these volumes, and the alusion to democratic shortcomings, that all of good which we have experienced during the past half century should be credited to the republican party, and all of bad to the democratic party. At the same time remarkable progress we have made as an industrial nation at home, and the rank which we have attained among the nations of the world, have accompanied the legislation and administration of the republican party. It is quite possible that the same progress New York, June 2.-In an article may have been made had the democratic party been in power instead, but it is hardly likely that any fair-minded bors, was selling only stolen goods in a person will put forth such a claim. Automobilists Say They Are Wrongfully Fined -- Will Cause Trouble for Officials.

New York, June 2.-An organized effort is being made by the automobilists of this city to end what they term persecution by authorities of small towns n New Jersey. Suit for \$10,000 damages has just been entered for false arrest against one town marshall of Catham, and steps will be taken for the impeachment of a justice before whom the marshal has been taking automobilists whom he charged with violating the speed laws.

Many of these in arrest assert that they have been fined when they were able to prove observance of the laws and all allege that town officials are guilty of conniving at the arrests in order to increase their fees.

#### Car Thief Is Caught

Man Was Selling Only Stolen Goods in Large Grocery Store He Operated in Chicago.

Chicago, June 2.-In the arrest of Michael Donovan, the police believe they have begun the disruption of an organized band of car thieves whose depredations in recent years have cost the railroads nearly \$1,000,000. The police say that while question-

ing the man's wife she told them that her husband, who is a property owner, and is considered wealthy by his neighbig store which he has been operating for a number of years.

When Donovan was arrested and held for investigation of his wife's story, the police say that in the presence of railroad detectives he confessed to having received stolen goods from the car thieves during the last 15 years.
