ASTORIA

The Medicine That Cures.

RENO, ORE., May 11, 1903.

Wine of Gardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles to effect a complete and lasting cure. I especially recommend it for uterine or ovarian troubles, inflammation and ulceration, painful, profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery. It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Gardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Gardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Gardui will completely cure you.

All druggists sell \$1.00 bottles Wine of Gardui.

WINE OF GARDUI

Weinhard's Lager Beer.

PILOTS ARE UNDERPAID

Present Rates Do Not Afford Them Reasonable Compensation for Their Work.

CAPTAIN CAMPBELL'S IDEA

Says Rates Should Be Raised as High as Those in Vogue in Washington—Other Marine News.

Captain J. C. Campbell, chairman of the board of pilot commissioners, entertains the opinion that the Columbia river bar pilots ought to receive more money for their services. For some months past the situation has been rather discouraging, and it is the opinion of Captain Campbell that the pilots have good reason for complaint.

"My idea is that the Oregon rates should be raised up to those in effect in Washington," said Captain Campbell yesterday, when interviewed by an Astorian representative. "The inactivity of the shipping business has so reduced the receipts of the pilots that there is now practically nothing in the business. Anyone who is acquainted with the subject knows the pilots lead dogs' lives. Their duties are most disagreeable and should be better remunerated."

"In Oregon the rates are very low. Pilots receive \$5 a foot draft for vessels boarded and 2 cents a ton for the registered tonnage of the ship. In Washington the pilots receive \$8 a foot up to 12 feet draft, and \$10 a foot for every additional foot of draft. The Oregon pilot receives \$75 for the draft and \$40 for the tonnage; in all, \$115. When she goes to sea, drawing 22 feet, he receives \$110 for the draft and \$40 for the tonnage, or \$150. The vessel pays \$265 for the service."

"In Washington the same vessel would pay \$126 upon arriving and \$196 upon departing, a total of \$322, as compared with Oregon fees of \$265, a difference of \$57.

"When shipping was brisk and many vessels were arriving the pilots could earn fair wages at the rates now in effect, but since the falling off in Columbia river tonnage there has been practically nothing in it for them. It is my idea we should allow the pilots better fees, and exact from them the very best service possible. I do not mean to say that the present service is unsatisfactory, for it is not; but I believe the standard should be maintained and the rates increased. The pilots earn every dollar of their money and should be fairly treated."

The erroneous impression prevails in many quarters that the pilots have a sinecure. In the palmy days they used to draw down \$500 or \$600 during the busy season, but it is learned that no such handsome remuneration is received nowadays. Indeed, it is said the month of January, 1904, allowed a dividend of only about \$60. It is not difficult to understand from this that the pilots feel they are underpaid. It rests with the legislature to effect some change in the law, and, while no definite action has yet been taken, there is a possibility the fees may be raised at the next session.

Columbine Leaves Out.

Captain Richardson's trim little ship Columbine departed at 5:30 last evening for Destruction Island. She carried out a heavy load of material and a number of boiler-makers and mechanics. The dock and landing at Destruction Island are to be repaired, and the Columbine had on board something like 25,000 feet of lumber of this repair. The boiler-makers were from the Astoria iron works and the mechanics from Astoria and Portland. Captain Richardson is going to make his trip as short as possible, as his men are anxious to get back in time to vote on Monday. It will be a hard trip, but the captain expects to arrive home in time to permit the men to exercise their prerogative.

Marine Notes.

The pilot schooner San Jose put to sea yesterday morning. The Pulitzer will be laid up behind the O. R. & N. dock for a time and then sent to Portland to be thoroughly overhauled. The San Jose is in first-class condition. Captains Anderson and Gunderson went out on her.

The steamship Elder arrived yesterday from San Francisco. She brought a large number of passengers and a full cargo of freight.

The French bark Marechal de Nonilles has finished her grain cargo. She has 117,771 bushels of wheat, val-

ued at \$88,328, and goes to the United Kingdom.

The Despatch is due today from Eureka.

DRANK WONDERFUL DOSE.

New York Woman Takes Elixir of Youth With Good Results.

New York June 3.—Use of some remarkable stimulents, the nature of which has not been learned, has caused a strange scene in Sixth avenue. From a bottle, the label of which was marked as containing an elixir of youth, the dose being one teaspoonful every two hours, a woman, about 40 years old, took a long drink while standing on the sidewalk near Fifth street. Her peculiar actions attracted the attention of a large crowd, which soon grew to such proportions that the police reserve had to be called to clear the street car tracks.

The "elixir" was a wonder worker. Five minutes after drinking the dose the woman began to caper about like a child. She danced to the music of a street piano, played hide and seek and exhibited all the antics of a child. When the police arrived she beat one of them and exhibited remarkable strength. It required the combined effort of seven officers to overcome the woman, and she was carried to the hospital, where doubts are expressed as to her recovery. No marks of identification were found.

TUBERCULOSIS FROM COWS.

Thousands of New York Children Diseased by Impure Milk.

New York, June 3.—Extraordinary precautions are being taken by the health department to prevent the communication of tuberculosis through milk from diseased cows. Extra inspectors have been appointed and a strict examination will be made of the many herds producing the bulk of the city's milk supply. New rules are being formulated for the regulation of the traffic and the meat supply will be closely watched.

Some physicians have been quoted to the effect that thousands of children are now suffering from tuberculosis contracted through milk from infected cows, but the health department officials declare no unusual number of cases have been found and say they are merely taking every possible precaution.

Lost Leg in His Fall.

New York, June 3.—While at work on a 20-story building in lower Broadway, John Sullivan, a laborer, fell seven stories and lost one of his legs in mid-air. As he dropped down an open shaft Sullivan struck an iron girder with great force. It cut off one of his limbs above the knee like a knife. Sullivan will probably recover.

HE HAD TO SHOOT.

Legg Proves He Was Obligated to Kill Halsted at Baker City.

BAKER CITY, Ore., June 3.—Developments in the Legg murder case establish the fact that Llewellyn Legg, the O. R. & N. fireman who last night shot and killed Jack Halsted, one of the proprietors of the Nugget saloon, cannot be charged with a crime more serious than manslaughter. At the inquest he has made a good showing of self-defense, although Halsted bore the reputation of being a quiet, peaceable man.

Legg claims that Mrs. Lavine and Halsted assaulted him in the restaurant, and that Halsted struck him with a bottle of catsup. Legg's clothing is spattered with catsup, and there is a cut over his eye, and the back of his head is also cut. The evidence of eye-witnesses goes to show that Halsted followed Legg up the street some distance before he was shot.

It has been decided to hold an autopsy. The officers are unable to locate Halsted's relatives. It is known that they reside at University park, Portland, but their address cannot be found among Halsted's papers.

The World's Fair Route.

Those anticipating an eastern trip, or a visit to the Louisiana Purchase exposition at St. Louis, cannot afford to overlook the advantages offered by the Missouri Pacific Railway, which, on account of its various routes and gateways, has been appropriately named "The World's Fair Route."

Passengers from the northwest take the Missouri Pacific trains from Denver or Pueblo, with the choice of either going direct through Kansas City, or via Wichita, Fort Scott and Pleasant Hill.

Two trains daily from Denver and Pueblo to St. Louis without change, carrying all classes of modern equipment, including electric lighted observation parlor cafe dining cars. Ten daily trains between Kansas City and St. Louis.

Write or call on W. C. McBride, general agent, 124 Third street, Portland, for detailed information and illustrated literature.
