SSS FOR THE BLOOD

The best known and most popular blood purifier and tonic on the market to-day is S. S. S.

There is hardly a man, woman or child in America who has not heard of "S. S. S. for the blood." It is a standard remedy and specific for all blood troubles and an unequalled spring tonic and appetizer. S. S. S. is guaranteed purely vegetable, the herbs and roots of which it is composed being selected for their alterative and tonic properties, making it the ideal remedy for all blood and skin diseases, as it not only purifies and invigorates the system, but also tones up the blood, but at the same time tones up the tired nerves and strengthens the general system.

For Chronic Sores and Ulcers, Catarrh, Rheumatism, Blood Poison, Malaria, Anemia, Eczema, Psoriasis, Salt Rheum, Tetter, Acne, and such other diseases as are due to a polluted or impoverished condition of the blood, nothing acts so promptly and effectually as S. S. S. It counteracts and eradicates the germs and poisons; cleanses the system of all unhealthy accumulations, and soon restores the patient to health. If you need medical advice write us about your case, and your letter will receive prompt attention from our physicians, for which no charge is made.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. To-day my blood is in fine condition and my general health is of the best. Am a fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. S. S. S. has been of great service to me. I do not hesitate to give it the credit it deserves. W. F. VAN DYKE, 815 Fifth St., Beaver Falls, Penn.

Fresh and Bright and full of news from far and near are the pages of THE MORNING ASTORIAN. Its number of readers is rapidly increasing, and it is acknowledged to be the best newspaper Astoria has ever had. Do you ADVERTISE in it

FIRE ABOARD BIG STEAMER

Ohio Is Damaged to Extent of \$20,000 While Lying at Moran Bros. Dock.

FIREMEN ARE HANDICAPPED

Experience Great Difficulty in Getting Water Into Vessel's Hold—Other News of Maritime Interest.

Seattle, June 17.—The steamship Ohio, while tied to the outer end of Moran's pier, was damaged by fire to the extent of \$20,000 early this morning. The fire was discovered in the after hold of the vessel and by the time the fireboat Snoqualmie was lashed alongside the interior of the big steamship was in flames.

The fireboat poured three streams into the hold of the burning steamship, but the firemen were hampered in their work because the water had to be poured through hatches without a clear field to fight the flames. The firemen worked long before getting the fire under control. It has not been learned how the fire started, but it is supposed to have originated through spontaneous combustion in the linen room.

The Ohio was built in Philadelphia in 1873. Her gross tonnage is 3488. She is 343 feet long, 43 feet beam and 24 feet deep. For many years the Ohio ran out of New York, and at one time was one of the greyhounds of the Atlantic.

In 1898 the Empire Transportation Company, former owner of the ship, sent her around the Horn with the Indiana, Conemaugh and Pennsylvania and entered them in the transport service out of San Francisco. In 1900 the Ohio was placed on the Nome run and continued in that service until this spring, when she was purchased by the Moran Bros. Company, who contemplated spending \$100,000 in refitting and repairing the vessel.

NEBRASKAN BREAKS RECORD.

Is Making the Longest Trip Ever Made by an Oil Burner.

Within a few days the American-Hawaiian Steamship Company's freighter Nebraskan will arrive in this port with nearly 3000 tons of general cargo from New York. Upon the arrival of the steamer in this harbor she will end the longest passage ever made by an oil burning vessel. The Nebraskan is now discharging cargo at San Francisco, but is expected to sail out from the Golden Gate today.

In the run from the eastern city, the Nebraskan's patent log showed that the vessel had covered 13,150 miles, and in doing so had consumed 9634 barrels of oil. The passage was made in the remarkably quick time of 64 days. From the time the now famous vessel left the shores of Long Island astern until she was off the River Platte, she experienced welcome winds and summer seas; but when off the mouth of the Platte a gale that was soon whipped into a hurricane began to blow and the waves did all in their power to swamp the American steamer. But wind and wave did not stop the steamer, and she plowed on through the gale to the Straits of Magellan, where a few hours' stop—the only one on the passage—was made in order to give the sea time to go down. The run up from the straits was uneventful.

The Nebraskan is in command of Captain Weeden, formerly of the Navadan, and her engines are guarded by Chief Engineer John Mitchell. In the far-off southern seas the steamer spoke the French bark Suzanne, bound from Havre to Honolulu.

The steamer is consigned to the Charles T. Beebe Company. After taking a large cargo aboard here for Honolulu, the steamer will proceed to the islands for several thousand tons of sugar.

She Had Met Mrs. Murphy.

Childish precocity is not confined within any definite area of thought. A young miss of 5 had recently visited the Central park zoo under the guardianship of mamma, and was greatly interested in the hippopotamus family, which was disporting in the open-air water trough for the first time this year. The female representative of the species is known both to the keepers and the public as Mrs. Murphy.

A few evenings later mamma entertained a visitor, Murphy by name, and little Elsie, on entering the parlor, was introduced.

"I'm glad to meet you, Mr. Murphy," she said with ingenuous grace. "I saw your wife in the park the other day. She's awfully fat."

Mr. Murphy expressed his pleasure with difficulty.

GONG TO THE FAIR.

What to Do if You Desire Practical Information.

If you contemplate visiting the St. Louis Exposition, to secure reliable information as to railroad service, the lowest rates and the best routes, also as to the local conditions in St. Louis, hotels, etc., etc.

If you will write the undersigned, stating what information you desire the same will be promptly furnished. If we do not have it on hand will secure it for you if possible, and without any expense to you. Address B. H. TRUMBULL, Commercial Agent, 142 Third street, Portland, Ore.

Marine Notes.

The steamship Chico arrived yesterday from San Francisco. She brought a large quantity of cement for Portland.

Receipts of rock at the Jetty aggregate about 2500 tons daily and work on the breakwater is being rushed.

There was nothing in the offing yesterday, and it proved one of the quietest days of the season.

The British ship Rajore is still on the disengaged list, and probably will be laid up for some time to come.

If it is worth while to do business at all it is worth while to do a lot of it—and this means, always, a proportionate amount of newspaper space.

Is Your Head Clear?

LIFE AMONG CLIFF DWELLERS.

Quaint Customs of Ancient Aboriginal Race Typified at World's Fair.

St. Louis, June 17.—Famous caves of the stone age, as they exist today in the canyons of Arizona, New Mexico and Colorado, are reproduced for the habitation of real Cliff dwellers on the pike at the world's fair, and here the life of these ancient aborigines may be studied amid natural surroundings.

Added ethnological interest is found in a large pueblo of Zuni and Moki Indians who daily perform the historic snake dance and follow the strange customs common to their tribes. These Indians are the descendants of ancient kings and are the remnants of a once powerful race. They have not before been seen at any exposition.

Huge cliffs form the front of the concession and above these can be seen a towering peak which can be reached by a tortuous trail overhanging rocky ledges, deep fissures and caverns. Burros convey the visitor to the top of the crags, where the caves and their relics may be seen, and where a fine view is obtained of the busy scenes on the pike below.

Entrance to the city of Cliff dwellers is through a tunnel which pierces the cliffs. The reverse side of the walls presents more caves and other mountain trails. A large structure of quaint architecture occupies the center of the village, and in this the Indians perform the dance of Kachina, the poetic flute dance and the dramatic snake dance.

The Kachina is distinguished by the use of the heads of buffalo and bear, which are worn by the warriors over their heads to conceal the features. The snake kiva, a cavern reached by a ladder, the famous dance rock of Woipi the antelope and other interesting sights rise from cacti and sage growing in the rocks and sand.

Long ladders reach to the roofs of the cliff dwellers, and potters, weavers, silversmiths, basketmakers and other Indian workers give the final touch to the attraction.

Special Excursion to the World's Fair.

The Denver & Rio Grande, in connection with the Missouri Pacific, will run a series of personally conducted excursions to the world's fair during June. These excursions will run through to St. Louis without change of cars, making short stops at principal points enroute. The first of these excursions will leave Portland June 7th, and the second June 17th. The rate from Astoria will be \$67.50 to St. Louis and return. Excursionists going via the Denver & Rio Grande have the privilege of returning via a different route. This is the most pleasant way, as well as the most delightful route, to cross the continent. The stops arranged give an opportunity to visit the various points of interest in and about Salt Lake City, Denver and Kansas City. If you wish to accompany one of these excursions write at once to W. C. McBride, 124 Third street, Portland, for sleeping car reservations.
