

STEAMSHIP WAS STRONG

Norge Was, Danish Naval Officer Says, Excellently Built and Quite Staunch.

HAD PLENTY OF LIFE BELTS

Stock on Board Exceeded Number of Passengers Carried by the Ill Fated Vessel on the Last Trip.

Copenhagen, July 7.—Captain Lamb, one of the officers of the Danish navy, said to the Associated Press correspondent that the Danish steamship Norge which was wrecked off Rockall reef on June 28, was an excellent and strongly built ship, and that Captain Gundell was one of the most capable navigators on the trans-Atlantic route.

Captain Lamb asserted that no fault could be found either with the captain or crew. He said he believed that the Norge gave way with the current.

Officers of the United Steamship Company, which owns the Norge, deny the statements made by the survivors of the wreck that the strings of the life keels were rotten or that the supply of lifebelts was insufficient. They say that only recently the Norge was supplied with three hundred new lifebelts and that the stock on board exceeded the number of passengers carried by the ship on her last trip.

CITY IS NOT LIABLE.

Court's Ruling Puts Quietus on Suits for \$8,000,000.

Chicago, July 7.—Litigation to the probable aggregate total of \$8,000,000 has been discouraged by a ruling of Judge Holdom, in the superior court, to the effect that the city of Chicago was not liable in any degree for the Iroquois theater fire. A suit by Eva Catherine Gibson for \$15,000 damages because of a broken arm and an injured spine was the case decided. Sixty other suits are pending and had the decision been against the city hundreds of other actions probably would have been filed.

The opinion was on the city's demurrer to the averment that the theater was a public nuisance and that the municipality was liable because of the dereliction of its officers in issuing a license before the theater had complied with the ordinances. But even had the playhouse been a nuisance in the legal meaning of that word the city still would not have been liable.

FILIPINOS ARE COLORED.

Decision Affecting Matter Reached by Kentucky College Officials.

Louisville, Ky., July 7.—The state board has instructed the high school board to inform four Filipino students who applied for admission to the Dupont Manual Training High School that their color debar them from the privileges of the public schools. When the request that the Filipino boys be allowed free admittance to the school was presented to the board, Dr. R. E. Galvin inquired if Filipinos are not negroes. Professor Mark said he had investigated the law as to the separation of races in the schools and found that the word "colored" applies to negroes, Indians and other brown races.

Wafers Are Subject to Duty.

New York, July 7.—Judge Townsend in the United States circuit court has handed down a decision sustaining the board of general appraisers in what is known as the Wafer case, one of the most important cases lately tried. Under this decision sweet wafers will continue to be assessed at 20 per cent as non-enumerated manufactured articles. Large quantities of these wafers are imported annually, chiefly from England and Austria. They consist of thin layers of flour paste, with a layer of sugar, variously flavored, between, and the importers made the claim that they were free of duty under the paragraph admitting unleavened bread.

BRITISH STEAMER CAPTURED.

Russians Seize a Vessel Loaded With Supplies for Japanese.

London, July 7.—The Central News has received a dispatch from Vladivostok dated July 2, saying a British steamer has been captured by the Russians and taken to that port. The vessel had a cargo of railroad material which it is alleged was intended for the Japanese.

The steamer referred to is probably the Cheltenham, referred to in Vladivostok dispatches as having been brought in there July 2.

IRON MARKETS DULL.

Holidays Have Interfered With Little Business That Has Been Doing.

New York, July 7.—The holidays have interfered with what little business there was doing, says the Iron Age, and the iron markets generally are dull. The mill and foundry consumption usually falls off considerably during this season of the year, owing to stoppages for repairs and remodeling. At a time like the present when consumption is generally light these more than offset banking and blowing out of blast furnaces. In the foundry branch the key to the situation is held by the southern producers who are at odds with the coal miners of whom they demand concessions in wages. The furnace companies act in a determined way, but some shipping collieries not identified with the iron trade are putting backbone into the manufacture by running subject to a final settlement on the basis of the agreement to be reached.

An indication of the attitude of buyers is furnished by the fact that a large pipe foundry which sold 15,000 tons of cast iron pipe to Cincinnati covered only a small part of the iron and then withdrew from the market again. The billet meeting is now being held, but until the whole basis of the association and its methods are changed the trade will pay very scant attention to it. How little of the prices really means is shown by the fact that the consumers who have sliding scales will get their June billets at \$19, when the official price is \$20.

PEACE IN COLOMBIA.

Elevation of General Reyes to Presidency Said to Insure Good Order.

New York, July 7.—It is the general opinion, says a Herald dispatch from Bogota, that the official proclamation of General Rafael Reyes as president and Ramon Gonzalez Valencia as vice president, which occurred July 4, guarantees peace, order and the future prosperity of Colombia, owing to General Reyes' "personal and political prestige at home and abroad." The interior of Colombia is peaceful.

The Fourth of July was not observed by the American legation, according to the correspondent, by official order from Washington.

Lived 102 Years.

Chicago, July 7.—Benedict Mardell, 102 years of age, is dead at the Jewish Home for the Aged. He was in perfect possession of his mental faculties to within five minutes of his death.

HEAD SOLID SORE

Awful Suffering of Baby and Sleepless Nights of Mother.

CURED BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore Writes Mother.

"I herewith write out in full the beginning and end of that terrible disease, eczema, which caused my babe untold suffering and myself many sleepless nights.

"My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and Ointment right away.

"To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning."

Mrs. WM. BYER, Elk River, Minn.

"Cure permanent." So writes Mrs. Byer, Feb. 25, 1903, six years later:

"Your letter of the 19th Inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head which at that time was a solid sore on top and down the back. Once or twice since then a patch has come on her head near the wrist, but it finally disappeared after proper treatment with Cuticura."

Sold throughout the world. Cuticura Soap, 25c. Jar of Ointment, 50c. Soap, 25c. Depot: London, 27, Chancery Lane; Paris, 1, Rue de la Paix; Boston, 137, Columbia Ave. Foster Drug & Chem. Corp., Sole Proprietors. See How to Cure Eczema.

Newbro's Herpicide

VACATION TIME. Vacation time should bring rest, recreation and comfort; and comfort of the solid and pleasing variety means no high collar, no stiff hat and no itching scalp. It is for this last discomfort that Newbro's Herpicide becomes a summer necessity, as it stops itching of the scalp and Prickly Heat almost instantly. Take Herpicide with you on your vacation.

SCALP WARNING. Itching of the scalp is not so much a punishment for past neglect as it is a warning for the future. It shows, almost conclusively, that the vine-like, microbic growth that causes dandruff, itching scalp and falling hair has entered the Sebaceous glands and unless this growth is stopped and kept out of the scalp, baldness will follow.

IT IS CONTAGIOUS. It was Prof. Unna (ask your doctor about him), who first pointed out that the true cause of hair loss is a germ or microbe that lodges in the scalp where it causes dandruff. Being of microbic origin the disease is necessarily contagious but Dr. Sabouraud has recently called attention to the highly contagious nature of dandruff, and the necessity of constant watchfulness to avoid it. Kill the dandruff germ with Herpicide.

UNSTERILIZED PUBLIC HAIR-BRUSHES, says Dr. A. Cartaz, are to blame for most of the baldness that is prevalent today. He further states that, "baldness begins in the young." By this he means that the germ that causes the disease is planted in the scalp of young men and that sometimes years elapse before the destruction is complete.

WILL NOT GROW HAIR. Newbro's Herpicide is a "Hair-Saver;" it will not grow hair—nature does this—but by destroying the enemies of hair health, it enables the hair to grow as nature intended—except in chronic baldness. Save your hair with Herpicide. Wonderful results follow its use.

HOT WEATHER TROUBLES. During hot weather the minute sudatory glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly as it carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp. Incomplete elimination of refuse matter produces a hot and feverish condition of the scalp, familiarly known as Prickly Heat, for which Herpicide gives immediate relief. Ladies will find Herpicide indispensable. It contains no grease, will not stain or dye. It is an exquisite hair dressing that COOLS, COMFORTS and DELIGHTS.

NO COMPLAINT FROM OUR CUSTOMERS. "Herpicide is giving entire satisfaction to our trade. We have never had a single complaint that it would not cure dandruff and falling hair." (Signed) WOODWARD, CLARK & CO. Portland, Ore.

A HERPICIDE FOLLOWER. "I have tried five or six bottles of your Herpicide and can say that it is very good, and so I address my neighbors the same." (Signed) MRS. NELLIE HUGHES. An Unhealthy Hair. Albina, Ore.

A Healthy Hair. At Drug Stores \$1.00. Send 10c in Stamps to THE HERPICIDE Co., Detroit, Michigan, for sample.
