LYNCH FEST IS IMMINENT

New Mexican Mob Has Surrounded
Cattle Thieves and Mean
to Take Action.

DEPUTY CONSTABLE KILLED

Posse Has Been Sent to Scene of
Trouble for Purpose of Inter-
cepting the Mob in Its Mad
Purpose.

Albuquerque, N. M., July 11.—A posse headed by Under Sheriff Ed Newcomer has gone to Las Padillas, 10 miles south of here, where a mob has three alleged cattle thieves surrounded in a house bent on lynching them. The three men were recognized by Deputy Constable Joseph Padella of Las Padillas on the street in the latter place and he proceeded to arrest them. A running fight in the street ensued. One of the alleged bandits was wounded and Padilla was shot several times and almost instantly killed. The pursued men then entered a house, ran the owners out and barred the doors. A mob of several hundred people surrounded the house and when the messengers who came to Albuquerque to notify the officers left the place, shots were being exchanged between the mob and the prisoners.

FISHERMEN ARE DISPLEASED

Think British Columbia and Sound
Packers Are Conspiring.

Vancouver, B. C., July 11.—The Fraser river fishermen view with no little dissatisfaction some of the decisions reached at the conference of Puget sound and British Columbia salmon cannerymen. It was agreed that no Puget sound cannerymen should buy fish in Canadian waters, and that no British Columbia cannerymen should purchase salmon in United States waters except from and through the authorized representatives of the respective cannerymen and independent trap-owners. The fishermen say that the whole object of this agreement is to keep down the price of fish. It is considered a combine.

In the past there has been considerable buying of fish by Puget sound cannerymen from Fraser river fishermen. This aided the latter to get a fair price. On the other hand, the Fraser river cannerymen have at times bought from the Puget sound fishermen, and the two associations have to some extent frustrated each other's efforts to keep the price low in this way. By the present arrangement the members of each association, if short of fish in their own territory, must buy from the cannerymen and not from the fishermen in the foreign territory. This means that the fishermen are shut off from any outside market, and there is no doubt that trouble is brewing. The obvious result is that they will form an international fishermen's union to offset the strength of the two cannerymen's unions, which really amount to a salmon combine embracing British Columbia and Washington cannerymen. The fishermen assert that there was more a desire at the recent conference to adopt means to hold them down than to find ways of preserving the industry. Henceforth a strike on the Fraser will mean a strike on the sound, and vice versa, if an international fishermen's union is formed. The matter of an international hatchery was postponed for a few months.

Overdue Makes Port.

San Francisco, July 11.—The overdue French bark Montebello on which 15 per cent. reinsurance was quoted, has arrived here, 180 days out from Swansea. Her long trip is accredited to calms and head winds.

She reports speaking the British ship Celtic Monarch in latitude 50.24 south, longitude 87.14 west, for the welfare of which considerable anxiety has been felt.

Suicide a Chicago Man.

San Francisco, July 11.—It is now believed that the true name of the man who shot himself here on Saturday last is William Bailey and that his home was in Chicago. His clothing, it has been discovered, bore a Chicago tailor's tag, showing that it was made for a person of that name.

Firing at Port Arthur.

Chefoo, July 11, 6 p. m.—There was heavy firing at Port Arthur from midnight until 3 o'clock this morning.

Murder and Suicide.

New York, July 11.—In a jealous rage William Noerling has probably

fatally wounded his wife and then committed suicide at his home in Brooklyn. The couple had five children who were huddled in an adjoining room when the crime was committed.

STRUCK BY A BASEBALL.

Maryland Player Probably Fatally Injured by Peculiar Accident.

Philadelphia, July 11.—Unconscious as a result of having been struck on the head by a baseball on Saturday, H. Williamson, 23 years old, of Providence, Maryland, lies at the point of death in the university hospital, while his bride of two weeks waits in anguish beside his cot. The physicians say that he is suffering from a compression on the brain.

Williamson was a pitcher of the Providence baseball team and was in the box in the game with the Cherry Hill team at Cherry Hill, Md. While at the bat he was struck on the head by a swift ball. Mrs. Williamson, who is only 16 years old, was a witness of the accident.

THIS CAT HATCHED CHICKENS.

But the Story Comes All the Way From Berlin, So Beware.

New York, July 11.—A dispatch to the Herald from Berlin asserts without qualification that a brood of chickens has been hatched by a cat in Buschen, near Dusseldorf. The animal attacked the old hen each time it ventured to approach and continued setting on the eggs until the chickens were hatched in the ordinary course. The chickens now follow the cat about wherever it goes.

Well-Known Banker Dead.

New York, July 11.—The body of banker Fred Heins, formerly mayor of Davenport, Ia., who died here suddenly on Sunday, has been taken to his late home. The banker came here with his wife to see a daughter off to Europe. An attack of acute indigestion caused his death.

SORRY HE'S A CANDIDATE.

Ex-Senator Davis' Son on Vice Presidential Nomination.

New York, July 11.—John T. Davis, the only son of ex-Senator Henry G. Davis, democratic nominee for the vice presidency, is visiting this city. His father's nomination at St. Louis came, he says, as a great surprise.

"At the same time I rather regret it personally," he added. "We thought when we dissuaded father from accepting the nomination for the governorship of West Virginia that he would remain out of politics altogether. He is an active man, and looks much younger than his 51 years might indicate."

TO FURTHER ARBITRATION.

Proposal Under Way by Trades Unions of New York.

New York, July 11.—Plans are being made for the formation of a permanent organization of the National Structural Building Trades Alliance, composed of labor organizations throughout the country for the purpose of bringing about yearly trade agreements with a view to fostering a better feeling between employers and employees and to further arbitration in labor disputes.

It is estimated that at least half a million men in the skilled building trades will be represented in the organization. A temporary organization has been effected which will be made permanent at a meeting set for August 5.

Economy Brand Evaporated Cream

bears the above cap label. Contains fully as much food substance per can as the watery imitations in larger cans. It is smooth and perfect because skillfully prepared. Its purity is guaranteed.

A good way in which to kill or stop the ravages of moths in carpets after insects have commenced eating is to take a coarse crash towel and wring it out in clean water, spread it

smoothly on the carpet, then iron it dry with hot iron repeating it on all suspected places and those least used. It is not necessary to press hard, heat and steam does the work effectually on worms and eggs.

Cancerous Ulcers ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer.

Dear Sirs:—I have not words strong enough to praise your great medicine. I had a sore on my left temple for several years. It would itch and burn and bleed, would scab over, but would never heal. The doctors pronounced it Cancer. After taking B. S. S. awhile the sore began to disappear, and when all the poisonous matter had passed out it healed. I took in all about thirty bottles, taking it for some time after it had entirely healed. This was about ten years ago, and I have seen no sign of it since.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. Medical advice or any information you may desire will be given by our physician without charge.
