

EXPANSION ON ISTHMUS

Panama Government Appropriates a Good Slice of Territory Belonging to Columbia.

MAKES GREAT EXCITEMENT

Strip of Land Varies From 18 to 58 Miles in Width—Gives Panama an Additional Pacific Port.

New York, Aug. 20.—Private advices received here from Buena Ventura, Colombia, are to the effect, says the Times, that the government of Panama has stationed a military garrison at Nugu, a city at the affluence of the Atrata and San Juan rivers. If this news is correct, the Panama republic has assumed formal possession of a wide strip of the Colombia department of Cauca, which, according to a map of the greater Colombia, issued in 1830 at Caracas, was originally the southern extremity of the department of Panama. If Panama succeeds in maintaining her hold, she will acquire an additional Pacific seaboard extending from the isthmus proper south to Punta Limones, near the mouth of the Baudo river, a distance of about 100 miles. The minimum width of the territory is 18 miles, the greatest 58. The news is said to have created intense excitement at Bogota, the capital of Colombia.

GIRL HAS NEW SCALP.

Hair Caught in Wheel and Tore Away Head Covering.

New York, Aug. 20.—Margaret Dougherty of Rochester, N. Y., who was almost scalped in an automobile accident August 10, is recovering at a hospital here, after undergoing a remarkable operation, which resulted in the replacing of her scalp, which was torn from her head. The cuticle already has begun to unite, and the girl's hair shows such signs of vitality that the success of the operation is assured.

Miss Dougherty fell in dismounting from a n automobile in Central park. Her hair caught in the balance wheel which had not been shut off and the rapidly revolving shaft wound it up, tearing off part of the scalp seven inches from her ear and five from front to back. She was carried to the hospital unconscious and later a policeman arrived with the scalp. The doctors quickly prepared the wound, replaced the severe portion, which fitted perfectly when sewed on. Upon removal of the bandage it has been found that the cuticle is healing and the surgeons are satisfied that the woman will show no effects of her terrible experience a month hence.

MARRIED AFTER 40 YEARS.

Aged Chippewa Chief Wished to Protect Legal Rights of His Wife.

Detroit, Aug. 20.—Slowly dying and scarcely able to make the necessary utterances, James Bah We Tuk Yoh, chieftain of remnants of the Chippewa tribe, which still live north of Bay City, Mich., has been married to Martha G. Nah Shank, who, according to Indian ceremony, has been his wife for the past 40 years. Bah We Tuk Yoh owns considerable property. He is 70 years old and his wife is 55. With death near he wished to insure his wife's possession of his goods and chattels. Although the couple have married children, the legal ceremony was necessary, because the law will not recognize a common law marriage between Indians. It is told that the original Indian marriage was the greatest event of the times among Michigan Indians.

VISAYAN PUPILS STRIKE.

Young Filipinos Object to Being Called "Little Savages."

St. Louis, Aug. 20.—The Visayan pupils, 25 in number, who have been studying in the model school in the Philippine section at the world's fair, refuse to attend the classes in the future. Their action is explained in a letter which has been received by Mr. H. G. Stone from Miss Teresa Ramirez, a 16-year-old pupil of the school, who had read and taken umbrage at that portion of the folder, recently issued by the Philippine exposition board, describing the villages and exhibits of the Philippine islands at the world's fair, in which the pupils of the school are classified as "little savages."

Bankers' Convention.

New York, Aug. 20.—All plans have

been completed for the thirtieth annual convention of the American Bankers' Association which will be held at the Waldorf-Astoria hotel September 14, 15 and 16. The convention will be called to order by the president, F. G. Bissel, of the First National bank of Milwaukee.

INTERESTED IN ORIENT.

Korea Capable of Wonderful Trade Development.

Seattle Post-Intelligencer: Seattle's interest in the Japanese-Russian war proceeds very largely from existing and clearly defined future trade relations with those oriental countries directly involved. That her sympathy is largely with Japan is due in part to the fact that if that nation wins there will be a greater commercial advance in Korea than if Russia can seize upon that benighted monarchy.

The trade of Korea is capable of wonderful development. In the past Great Britain has had the best of the import business, the Japanese and Chinese coming next in favor. Japan promises to maintain in Korea the "open door." If she wins in the great struggle now in progress, her promise will undoubtedly be kept and the development of trade in the little but resourceful hermit nation will be very rapid indeed. It is therefore natural that the United States should watch the struggle with interest. We are the best situated of any of the great nations to derive tremendous benefits from trade development with the countries on the Pacific coast of Asia.

The recently published report of Korean trade referred solely to treaty ports. And it showed figures that are surprising. The imports were in excess of \$9,000,000, with exports of over \$7,000,000. Here was a total trade for 1903 close to \$17,000,000; and that, too, with very few points open to commerce. Given the "open door" promised by Japan, and given a stable and decent government, Korea must develop rapidly and enormously.

The United States is well situated for control of Korean markets. If she secures that advantage, the direct route of the tide of commerce is most certainly through the port of Seattle. Korea will furnish an expanding market for cotton. And for several years cotton shippers have found it convenient to reach the oriental markets via Seattle.

Scientific Seasickness.

Some physiologists say that seasickness is due to the violent stimulation of the fluid in the semicircular canals of the ear, set in motion by the rolling or pitching of the boat. The nerve leading to the brain is "set on edge." This nerve and the pneumogastric nerve terminate in closely adjacent centers in the brain. It is claimed that the stimulation of the nerve from the semicircular canals reacts upon the pneumogastric nerve, causing a general sensation of nausea.

Bear this in mind the next time you experience mal de mer, and perhaps you may enjoy it more.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes, of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds and Throat and Lung troubles. Guaranteed by Chas. Rogers' drug store. Price 50c and \$1.00. Trial bottles free.

The beer that made Milwaukee famous—Schlitz—is always on draught at The Grotto. Otto Mikkelsen, proprietor.

Treasury Department, U. S. Life-Saving Service, Washington, D. C., July 26, 1904. Sealed proposals will be received at this office until 2:00 o'clock p. m., of Friday, August 26, 1904, and then publicly opened, for the construction of a floating boathouse for Grays Harbor (Washington) Life-Saving Station. Specifications and drawings, forms of proposal, etc., can be obtained upon application to the Superintendent of Construction of Life-Saving Stations, Pacific Coast, Room 35, New Appraisers' Stores, San Francisco, Cal.; to the Assistant Inspector of Life-Saving Stations, Coasts of Washington and Oregon, 13th District, Tacoma, Washington; or to this Office, Horace L. Piper, Acting General Superintendent.

Pears'

To keep the skin clean is to wash the excretions from it off, the skin takes care of itself inside, if not blocked outside.

To wash it often and clean, without doing any sort of violence to it requires a most gentle soap, a soap with no free alkali in it.

Pears', the soap that clears but not exoriates.

Newbro's Herpicide

VACATION TIME. Vacation time should bring rest, recreation and comfort; and comfort of the solid and pleasing variety means no high collar, no stiff hat and no itching scalp. It is for this last discomfort that Newbro's Herpicide becomes a summer necessity, as it stops itching of the scalp and Prickly Heat almost instantly. Take Herpicide with you on your vacation. ...SCALP WARNING. Itching of the scalp is not so much a punishment for past neglect as it is a warning for the future. It shows, almost conclusively, that the vine-like, microbe growth that causes dandruff, itching scalp and falling hair has entered the Sebaceous glands and unless this growth is stopped and kept out of the scalp, baldness will follow. ...IT IS CONTAGIOUS. It was Prof. Unna (ask your doctor about him), who first pointed out that the true cause of hair loss is a germ or microbe that lodges in the scalp where it causes dandruff. Being of microbic origin the disease is necessarily contagious but Dr. Sabouraud has recently called attention to the highly contagious nature of dandruff, and the necessity of constant watchfulness to avoid it. Kill the dandruff germ with Herpicide. UNSTERILIZED PUBLIC HAIR-BRUSHES, says Dr. A. Cartaz, are to blame for most of the baldness that is prevalent today. He further states that, "baldness begins in the young." By this he means that the germ that causes the disease is planted in the scalp of young men and that sometimes years elapse before the destruction is complete.

WILL NOT GROW HAIR.. Newbro's Herpicide is a "Hair-Saver;" it will not grow hair—nature does this—but by destroying the enemies of hair health, it enables the hair to grow as nature intended—except in chronic baldness. Save your hair with Herpicide. Wonderful results follow its use. HOT WEATHER TROUBLES. During hot weather the minute sudatory glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly as it carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp. Incomplete elimination of refuse matter produces a hot and feverish condition of the scalp, familiarly known as Prickly Heat, for which Herpicide gives immediate relief. Ladies will find Herpicide indispensable. It contains no grease, will not stain or dye. It is an exquisite hair dressing that COOLS, COMFORTS and DELIGHTS. NO COMPLAINT FROM OUR CUSTOMERS.

"Herpicide is giving entire satisfaction to our trade. We have never had a single complaint that it would not cure dandruff and falling hair." (Signed) WOODWARD, CLARK & CO. Portland, Ore. A HERPICIDE FOLLOWER. "I have tried five or six bottles of your Herpicide and can say that it is very good, and so I address my neighbors the same." (Signed) MRS. NELLIE HUGHES. An Unhealthy Hair. Albina, Ore.

T. F. LAURIN, Special Agent. A Healthy Hair. At Drug Stores \$1.00. Send 10c in Stamps to THE HERPICIDE Co., Detroit, Michigan, for sample. "Destroy the Cause--You Remove The Effect"
