**Don't Neglect Yourself.**  
1468 Second Street, Louisville, Ky., April 14, 1904.  
I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience.  
His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it.  
I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.  
Mrs. L. M. Thompson,  
Director, BETHOVEN MEDICAL SOCIETY.

**WINE OF CARDUI**  
Wine of Cardui regulates the menstrual flow, banishes headaches, backaches and bearing-down pains. Severe headaches, bearing-down pains, indigestion, loss of appetite and nervousness are symptoms of female weakness and should be given prompt attention. If you are troubled with menstrual irregularities do not let them run on. They will certainly grow into dangerous and chronic troubles. Get a bottle of Wine of Cardui and begin treatment at once.  
All druggists sell \$1.00 bottles of Wine of Cardui.

**SAVING OF MILLIONS**

**American Engineers Make Important Discovery Regarding Panama Canal.**

**SEA LEVEL CANAL FEASIBLE**

**Floods of Chagres River Can Be Diverted to Pacific Ocean, Saving Many of the Locks.**

Chicago, Sept. 29.—George Ehle, an American engineer, with a party of young college graduates in four months has made discoveries about the Panama canal which the French engineers failed to make in 15 years. His information makes it possible to solve the baffling problem of the Chagres river freshets by diverting the stream to the Pacific coast. It also releases \$20,000,000 for excavating a sea level waterway.

This announcement of the engineering work thus far done by the United States Panama commission has been made before the Chicago Press Club by Chief Engineer John F. Wallace, who recently returned from the isthmus.

"In their explorations," said the chief engineer, "Resident Engineer George Ehle and his college lads endured hardships that it took American pluck to overcome. They spent four months in the tropical jungle tracing the course and source of the Chagres river, whose spring freshets, sometimes 40 feet high, so far have proved an insuperable obstacle to a sea level canal project."

By the use of data collected by the Ehle party Mr. Wallace said that it would be possible to divert the Chagres from the Caribbean slope to the Pacific side of the isthmus. This could be done at an approximate cost of \$16,000,000, releasing the \$20,000,000 of the \$36,000,000 destined for the construction of locks.

**DENOUNCE INSPECTORS' REPORT.**

**Organization of General Slocum Survivors Want Guilty Punished.**

New York, Sept. 29.—Survivors of the General Slocum excursion steamer fire and those who were bereaved by the horror of last June, to the number of more than 300, have held a meeting to protest against the decision rendered by the local steamboat inspectors in their recent investigation.

The meeting was held under the auspices of the Organization of General Slocum Survivors. Resolutions were adopted denouncing the report of Inspectors James A. Dumont and Thomas H. Barrett and calling for the punishment of those responsible.

The organization represents 300 survivors and the families of 600 dead. The report was denounced as unjust and unfair to the stricken families, and resolutions were adopted declaring that the whole responsibility rests with the board of directors and officers of the steamboat company. A copy of the resolutions will be sent to President Roosevelt.

Fully one-third of those at the meeting were women, who, without exception, were in deep mourning. Many wept and the men were hardly less affected as the story of the disaster was told over again by those who had passed through the awful catastrophe.

**BOUGHT STEEL SHARES.**

**Big Deal in Stocks Makes Flurry in San Francisco.**

San Francisco, Sept. 29.—Charles M. Schwab and the members of his party have departed for the north and east in a special train. Before leaving town the shipbuilding magnate caused a flutter of excitement on the stock market by buying nearly \$1,500,000 of preferred stock of the United States Steel corporation. While the greatest possible secrecy is being maintained as to the

**HEALTHY PLANTS**

**Require the Most Careful Attention as Well as Good Soil.**

Did you ever see a rosebush which, despite the most beneficent environment of soil-of sunshine-and of atmosphere, seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Eagle Drug Store, 351-353 Bond St. Owl Drug Store, 549 Corn. St. T. F. Laurin, Prop. "Special Agent."

Identity of the purchaser of the big block of steel preferred. It is the gossip of local financial circles that the stock was bought for Mr. Schwab's account.

The big purchase, which represents one of the largest brokerage transactions ever witnessed in San Francisco, was made through the local office of a New York brokerage firm. In all 20,000 shares were purchased and its buying advanced the market from 71.50 to 72.50. Figuring the stock at an average of \$72, the deal represents a transaction of \$1,440,000.

**WE ARE WELCOME IN PERU.**

**Broad Minded Man Just Made President Is Progressive.**

New York, Sept. 29.—Conditions in Peru, political and industrial, were never more favorable than now, according to Irving B. Dudley, the American minister to that country, who has just returned to spend a few weeks at his home in California. Toward the United States there is an especial feeling of good will, he says. Commerce with this country, already one of Peru's largest interests, is steadily on the increase. There is no danger of an overturning of prosperity because of revolutions or internal dissension, the minister added. The Peruvians have a particular liking for the United States and much admiration for the president. "Dr. Jose Pardo, who was inaugurated president of Peru last Saturday, was the president of the cabinet under President Candamo who died in May. Dr. Pardo told me recently that he had two great aims for his country—one of increasing the railways and other means of communication, the other the providing of better educational facilities in every town and particularly the providing of teachers who had a broad, liberal education—teachers who had been educated here wherever possible.

"The United States stands second as to commerce with Peru and it is gaining in amount of business transacted all the time. Large amounts of American capital are being invested there and the business men of Peru welcome it."

**DESERVE SEVERE PENALTY.**

**School Boys' Heartless Hazing in Flushing, Long Island.**

New York, Sept. 29.—Young boys attending the public schools at Flushing, Long Island, have taken part in a hazing which narrowly missed causing the death of Herbert Howe, 11 years old. The lad was captured on his way to school by a band of larger schoolmates. They bound him with ropes, bandaged his eyes and mouth, marched him half a mile and threw him into an abandoned well.

When young Howe failed to come home his mother notified the police. Search was at once instituted. The missing lad's seven year old brother furnished a clue and the detectives finally located the boy in the old well, distant from any house and concealed by underbrush. He had been in the same position 10 hours but was not seriously injured.

**STATION FOR SAN FRANCISCO.**

**Secretary of Commerce and Labor Makes Personal Investigation.**

San Francisco, Sept. 29.—Victor H. Metcalf, secretary of commerce and labor, made investigation of the need of an immigrant station for this port and inspected a proposed site for the building on Angel island. The cabinet representative was acting in accordance with a resolution passed by congress at its last session directing him to ascertain what is required for a station in San Francisco and how much it will cost. He also inspected the accommodations provided for immigrants on their arrival pending examination. Incidentally during his visit to the detention shed at the Pacific Mall dock Secretary Metcalf examined into the case of two Chinese who claimed to be merchants and granted them permission to land.

**REPORT FROM WHALERS.**

**Catch of the Pacific Coast Fleet—Ice Was Very Heavy.**

San Francisco, Sept. 29.—Private advices have been received here of the catch of the Pacific whaling fleet. The fleet wintered east of Point Barrow and on September 6 the whaling steamer Thrasher passed the point. She reported the catch and also that the ice was very heavy. The Narwhal caught two whales to the eastward of Point Barrow and she previously reported a catch of 14. This large catch is due to the vessel having been in the Arctic for some time. The Jeanette killed six; the Bowhead had three; the William Baylies had three; the Beluga had one; the Barbara Hernester caught four and is now on her way to Seattle.
