A PROBLEM.

Property Qualifications for Voters in Five States.

Exchange: If the democratic party is the party of reform and the only hope of the working man, how is it to be explained that in the strictly democratic states of Louisiana, Mississippi, Alabama, Georgia and Virginia a man must be worth \$300 of taxable property before he is allowed to vote? How is it that the democratic states thus deny the working man the right to vote unless he is a property owner and continues to make claim that it is the friend of the man who has been disfranchised? How many laborers in these states can show \$300 worth of taxable property? This is democratic exemplification of its interest in and protection of the great mass of wage workers, who make up the bulk of our population.
