

## D. B. HILL TRIES A NEW ONE

**Government by Injunction Condemned by New York Democratic Leader.**

**Springs New Campaign Cry in Wheeling, W. Va., Before Audience of Artisans.**

## CAUSES GREAT ENTHUSIASM

**Election of United States Senators by Direct Vote Advocated—Injunction Feature Sustained by Platform.**

Wheeling, W. Va., Oct. 13.—David B. Hill injected a new argument into the democratic campaign here tonight—a straightforward condemnation of "government by injunction" and demand for a law granting a jury trial to persons held in contempt of court for violation of the restraining order of a federal judge. The democratic national platform sustains this position. Wheeling was selected by the New York politician as the place to emphasize and make a national issue of this point because of its varied industries giving employment to artisans, and because the injunction has been used here in labor disputes in a number of instances. The amendment aroused tremendous enthusiasm.

Another new point as a democratic argument was also made by Hill—the election of United States senators by direct vote of the people.

**Tammany Hall Leader Sends Circular Letter to Candidates.**

New York, Oct. 13.—Charles Murphy, leader of Tammany hall, has sent notices to 50 or more candidates on the county democratic ticket requesting them to decline endorsement of any party other than their own.

OUR SAILORS SLIGHTED.  
London Paper Regrets Due Cordiality Not Shown.  
New York, Oct. 13.—Deep regret is expressed by the St. James Gazette, says a Times dispatch from London, over what it terms the neglect to which the paper alluded a few days ago, of Londoners to extend hospitality to their American cousins aboard the Olympic and the accompanying vessels which have anchored in the Thames for several weeks. The article continues: "It has been left for the pilgrims, a probate society, to undertake the entertainment of our guests, which should have been seized as a precious opportunity by the municipal authorities. 'We appreciate the American navy, respect its fighting power and sympathize in its growth. We have shared in its triumphs with generous recognition, and we like to feel that if ever the shock of general war should dye the high seas, the red and white ensign and the stars and stripes would cover in close alliance the fighting ships of Anglo-Saxondom.'"

## WILL WIN CUP AGAIN.

**International Rifle Shoot May Be Held in Canada.**

New York, Oct. 13.—Developments lead to the belief, says the Herald, that the contest next year for the Palma trophy may be held in Canada. The National Rifle Association of America probably will challenge Great Britain on condition that the contest be decided in the dominion. In case of acceptance it is likely that the match will take place on the Rockcliffe range at Ottawa range, near the governor-general's residence. This is said to be one of the finest rifle ranges in the world.

The Palma trophy, after having been won by the American team in 1902, was returned to Great Britain because of the allegation that the American team had shot with a special make of barrel. The British rifle association did not ask for the return of the trophy, but the National Rifle association of this country decided that they would not keep the trophy if there was any question at all as to the genuineness of the victory.

## KUROPATKIN, IN OFFICIAL REPORT, VIRTUALLY ADMITS GREAT JAPANESE VICTORY

**Russian General Says That the Manchurian Army Was Engaged in Fierce Fight and Losses Were Heavy.**

**Report From Manchuria Headquarters Says That Gen. Oku's Force Alone Bagged 25 Guns, That One Wing of One Army Captured 150 Prisoners, That the Right Army Has Continued Pursuit of Enemy Towards the North.**

No appreciable progress has been made in the projected advance southward of the Russian army under Kuropatkin since the initial success of the movement in the capture of Bentisluputze. Fighting of the most stubborn description continues along the entire front. Oyama reports the recapture of 25 guns from the Russians. He claims distinct successes, forcing the Russian force to retire from advanced positions. Kuropatkin's report to the emperor is couched in guarded terms and claims nothing in the way of accomplishing results. The reports of the Russian military commander at Port Arthur show that the Japanese brought a shell fire to bear upon the inner fortress. The garrison, however, is represented to be hopeful of the outcome of the siege.

## KUROPATKIN ADMITS DEFEAT.

**Official Report Virtually Concedes Great Japanese Victory.**

St. Petersburg, Oct. 13.—Kuropatkin reports that during the fighting of yesterday and today the advance troops were reinforced from the principal positions and that the left wing, being ordered to fall back on the main position at about 2 p. m., the center was also obliged to fall back. The report did not mention the fighting on the right wing.

The full text of General Kuropatkin's report dated October 13 is as follows: Last night and throughout today the Manchurian army was engaged in a fierce fight. The Japanese concentrated a great force against our positions on the center and right wing. It became necessary to support these advance guards from the main position. The right wing held its advance position, and only at nightfall, under my orders, retired to the principal position. In the center the troops were forced to retire from the advance to the main position at about 2 p. m. According to reports and my own observations, the fighting was most desperate. We repulsed numerous Japanese attacks and ourselves assumed the offensive. The heroic defense of its advance position by the Tomak regiment is specially deserving of mention.

During the night our troops on the right flank recaptured at the point of the bayonet a village which had been lost the previous evening. On the left flank severe fighting for possession of a pass has been continued. Our troops scaled the almost inaccessible rocks and held their ground for two days, gradually approaching the enemy.

I have not yet received a report of the result of today's fighting on the left wing. Under the conditions of the fighting the losses were necessarily considerable. I have ordered that the positions we now hold be stubbornly defended tomorrow.

## JAP SUCCESS CONTINUES.

**Tokio Report Says Oku Alone Captured 25 Guns.**

Tokio, Oct. 13.—The latest telegrams from the front indicate a continuance of Japanese success. General Oku's left army alone bagged 25 guns. The Russians made two desperate counter attacks against the Japanese left, but were repulsed with heavy slaughter.

From the Manchurian headquarters in a telegram sent today is the following report: Since the last report our right army has been continuing the vigorous pursuit of the enemy towards the north. The number of guns captured by the center column of the left army is 18 instead of eight, as previously reported. The right column of the left army, while pursuing the en-

emy west of the Schili river, captured nine guns, making the total number of guns captured 25. The right wing of the left column of the center army captured 150 prisoners.

## CAPTURED GUNS EFFECTIVE.

**Japs Shell Russians With Artillery Taken From the Enemy.**

Headquarters Japanese Left Army in Field, Oct. 12, 6 p. m.—via Pusan, Oct. 14.—The victory of the Japanese left army today was a decisive one. The Russians fought bravely and several times attempted counter attacks. The Japanese repulsed them every time and continued a steady advance. The left wing of the left army threatened to envelop the Russian right, compelling the Russian to retreat. The Japanese artillery, including batteries captured from the Russians, did splendid work in shelling the trenches and retreating Russians.

## KUROPATKIN TO BE HEAD.

**Believed He Has Been Appointed Chief of Manchurian Forces.**

## WORD FROM PORT ARTHUR.

**Assaults Are Fierce and Hand Grenades Are Being Used.**

St. Petersburg, Oct. 13.—In the midst of the anxiety and suspense involved in the great fight south of Mukden comes the first word for many days of the gallant defenders of Port Arthur. The closeness of the fighting and deadly character of the attacks made are shown by the fact that both sides are using hand grenades and that the Japanese, after the bloody capture of an important signal station were face of the fire from the fortress. The repeated failure of the Japanese to hold the footing once gained in the circle of inner forts was received here with much satisfaction. The reckless ferocity of the assaults by the overwhelming force of Japanese seems to make it certain Port Arthur can only be held by immense expenditure of ammunition, and it is becoming a serious question with the authorities how long even the great supply known to exist in the fortress can last in the face of the Japanese attack.

## CARRIED AMMUNITION.

**Preliminary Examination Made of Captured Ship.**

Tokio, Oct. 13, 11 a. m.—Preliminary reports indicate that the bulk of the steamer Paping's cargo was ammunition. An inventory is expected soon. It is understood, however, that the matter was temporarily adjusted and no sensational develop-

ments, such as the resignation of Count Lamsdorff are anticipated at least for the present

## CHANGE IN RAILROAD.

**Harriman-Hawley Interests in Terminal Transfer Retired.**

Chicago, Oct. 13.—Four of the principal stockholders of the Chicago Terminal Transfer Railroad Company, who recently organized a protection committee, have been selected directors at the annual meeting. The Harriman-Hawley interests, which have had control, retired. It is said they have sold out nearly all of their stock in the company.

The new directors are: Charles L. Raymond, Chicago; William H. Heaton, New York; Albert E. Goodhart, New York; Arthur O. Slaughter, Chicago. They take the places of H. R. Hawley, Charles W. Gould and Henry A. Rust, whose term of office expired, and Otto G. Barnard, resigned.

**State Department Will Send Notes to Every Power Represented in Last Session.**

## MUCH DIFFICULTY EXPECTED

**Governments Will Probably Seek to Secure Iron-Clad Agreements as to Scope of Conference.**

Washington, Oct. 13.—The president is preparing to redeem his promise to the delegates to the interparliamentary peace conference to secure another meeting of the plenipotentiaries of the powers signatory to The Hague convention. The state department will address separate notes to every government represented in the last conference inviting suggestions as to time and place of meeting and without doubt, in the spirit of caution that is always exhibited by diplomats, many of these governments will seek to secure an iron-clad agreement as to the scope of the conference. Many limitations are expected to be proposed in this way, and it is realized that much difficulty will be experienced in securing harmony.

## PARKER VISITS HEADQUARTERS.

**Surprises His Lieutenants All Hard at Work.**

New York, Oct. 13.—Judge Parker today made his first visit to the headquarters of the democratic national committee. He surprised his political managers, who had received no intimation of his intention to visit. Judge Parker had left his apartments at the hotel with the purpose of taking a little morning recreation, and finding himself near the headquarters he decided to make an inspection of the rooms. He found all of the managers at their desks except William F. Sheehan, chairman of the executive committee.

During his visit to the headquarters Judge Parker pleasantly remarked: "I scarcely expected to see everybody hard at work so early in the morning. It looks good, and is very encouraging."

"Oh," said Chairman Taggart, "you can always find us hard at work, Judge. We are all interested in doing everything possible to secure your election."

## BRINGS BUILDING MATERIALS.

**Barge Columbia Unloading Brick and Stone for City Hall.**

The steamer Glenola yesterday morning towed in the Oregon Round Lumber Company's barge Columbia, which was heavily loaded with brick and stone for the new city hall. The barge carried 150,000 brick and several hundred tons of uncut stone. A crew of laborers was at once put to work unloading the barge onto the Elmore dock. The work was accomplished by means of a crane, and a small crowd assembled to watch the proceedings. On account of the small amount of space on the dock it will be impossible for the dock to hold the entire cargo of the barge, and a number of extra teams will be put to work this morning hauling away the materials to the site of the new building. It is expected that the 150,000 brick brought in yesterday will be all that the building will require. The brick was brought from Vancouver. A stop was made at Bunker Hill to take on the rock.
