**SWEAT SHOPS CAUSE STRIKE**  
 Garment Makers' Union Will Try to Induce Sanitary Methods in Manufactories.

**MUST NOT TAKE WORK HOME**  
 Secretary of Union Claims Wealthy Women Wear Custom Made Clothes Made in Filthy Bedrooms.  
 New York, Oct. 15.—Directed against the manufacture of clothing in bedrooms and kitchens of tenement houses, a general strike is threatened by the Ladies Garment Makers International union.

The general secretary of the union has announced that strikes will be ordered against all Fifth avenue women's customs tailors who compel workmen to take their work to the tenement house quarters where they live. "The strikes will be ordered to compel the manufacture of clothing in sanitary and properly lighted and ventilated work rooms rented or built by the employers," said the secretary. "I am of the opinion that if the wealthy women who patronize custom tailors knew the conditions under which a good deal of their clothing is made they would be as anxious as we are to bring about a revolution in the industry by refusing to patronize any except the firms which have their clothing manufactured in sanitary workshops. "The workmen employed in the manufacture of wealthy women's riding and street dresses are paid very low wages and as a consequence live in the worst and most unsanitary tenement houses. They must take their work home and finish it in squalid, unsanitary, disease infected bedrooms and kitchens. "In addition to insisting on the manufacture of the clothing in sanitary workshops, the union will demand a minimum scale of \$21 a week. Strikes will be ordered wherever the demand is refused."

**TRACKLESS TROLLEY.**  
 Only American System of Its Kind Will Operate in Massachusetts.  
 Hull, Mass., is to have the first and only trackless trolley system in the United States, says the Boston Journal. It will run from Nantasket point, a distance of two and a half miles, over the highway.  
 The trackless trolley is the latest system of passenger transportation and is in successful operation in Germany. It is nothing more than a number of electric automobiles running between given points on a regular schedule. Instead of the automobile carrying storage batteries to supply power to run

the motors propelling the carriages the power is supplied by a double trolley, one wire carrying the negative and the other the positive current. The carriages can run all over the road, pass each other without interference and will be noiseless, clean and can be stopped almost instantly.  
 There has been much complaint over the operation of the trolley system in Hull. The railroad commissioners have been asked to remedy the difficulty and have failed to give satisfaction to the residents of the town. The trackless trolley will not come under their jurisdiction, and no rails need be laid. The highway commissioners may have a little something to say about how they shall use the road, however.  
 It was learned recently that the carriages to be used will seat forty people and will resemble very much the big automobile used by a Boston firm in touring the city.

**Photographing on Linen.**  
 Some interesting demonstrations have been carried out in London with a new photographic art material called "photolinol." This fabric is composed of linen, which is thoroughly permeated with the photograph, producing a high translucency. One very picturesque effect obtained by this means is that the picture, when colored and viewed with a reflected light, bears a very strong resemblance to an oil painting. The lines of the weaving of the linen appearing similar to the canvas in the painting. Photolinol is waterproof and indestructible, while the photograph does not fade in the sun.

as it appears to be woven into the material. The process is a secret one, but its commercial utility and value are already asserted, since it can be employed for curtains, screens or theatrical scenery.  
**COMMEND BISHOP POTTER.**  
 National Liquor-Dealers Pass Resolutions.  
 St. Louis, Oct. 15.—By virtue of a resolution adopted at the convention of the National Liquor Dealers' Association, it has been decided to amalgamate that association with the Knights of the Royal Arch and the Knights of Fidelity, the name of the combined organizations to be the National Liquor League.  
 Resolutions were adopted commending Bishop Potter for his action in dedicating a New York saloon. The resolutions advocate a reduction of the tax on whiskey and also a reduction of the tax on imported wines and liquors.

**Don't Neglect Yourself.**  
 1628 Second Street, LOUISVILLE, KY., April 14, 1908.  
 I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience.  
 His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it.  
 I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.  
**WINE OF CARDUI**  
 Wine of Cardui regulates the menstrual flow, banishes headaches, backaches and bearing-down pains. Severe headaches, bearing-down pains, indigestion, loss of appetite and nervousness are symptoms of female weakness and should be given prompt attention. If you are troubled with menstrual irregularities do not let them run on. They will certainly grow into dangerous and chronic troubles. Get a bottle of Wine of Cardui and begin treatment at once.  
 All druggists sell \$1.00 bottles of Wine of Cardui.
