Weinhard's Lager Beer.

You Can Be Cured.

No. 11 Cedar Terrace, Hot Springs, Ark., April 28, 1908.
When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days every month, and had intense bearing down pains. My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all.
A friend who was calling on me brought me a bottle of Wine of Cardui and was so kind in the praise that I told her that I would take it to please her.
I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Right bottles brought back my lost health and strength, and I have not had a sick day in six months.
ETTA FINNEGAN
TERRACON, ST. ANDREW SOCIETY.

WINE OF CARDUI

Mrs. Finnegan had little hope of relief because she knew that every time she had those spells of menstrual suffering with attendant bearing down pains she was weaker. And every month the pain was growing more severe.
But Mrs. Finnegan was cured by Wine of Cardui. She is now so well that there are few women who would not be glad to have the health she has. And any woman who has those dreaded bearing down pains can have the same relief.
You can be free from menstrual irregularities if you take this pure vegetable wine. Why don't you take it when you see what it has done for others? Secure a bottle of Wine of Cardui today.
Your druggist has \$1.00 bottles.

AN ENORMOUS ALASKA TRADE

Seattle Does Thriving Business With Far North in Season Just Closed.

GOLD FROM NOME \$6,260,000

33 Vessels Did Business Amounting to \$15,644,160—Carried \$1,457 Passengers—Big Yield Next Year.

Seattle, Nov. 8.—Figures carefully compiled by the Post-Intelligencer disclose that Seattle did a business of \$15,644,160 with Nome during the season just closed. The showing is less than that of 1903, due largely to the fact of a drought in the earlier season. For the year 1903 the business totalled \$19,071,900.
In taking into account the trade with Nome is meant all of the Seward peninsula country and lower Yukon. Scarcity of water during the earlier stages of the season prevented development and shipments of supplies to the district fell off correspondingly. Again there was not as much railroad construction on the Seward peninsula this year as there was in 1903.

There were engaged in the carrying trade, steam and sail, thirty-three vessels, merchant and government.
The passenger carriers took 5,147 people to this section of Alaska, and they brought back 6,310 handling a total of 11,457. In 1903 the Nome fleet carried 12,713 passengers. This year's Nome freight shipments total 71,775 tons, as against 110,750 in 1903.
The production of gold was slightly in excess of 1903. This year the gold production for the districts named amounted to \$6,260,000. The yield for 1903 was about \$5,700,000. Koyukuk contributed some of the gold sent out by returning Nome vessels, as did also Tanana. And more or less freight for these districts was carried as far as St. Michael and Nome on the vessels.

Dr. Lyon's PERFECT Tooth Powder

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century. Very convenient for tourists.

PREPARED BY
S. H. Lyon, D.D.C.

The transportation charges going and coming on both passengers and freight amounted to \$1,706,660. Of this sum freight contributed \$1,076,525.
The goods sold on the basis of \$100 per ton valuation were worth \$7,177,500. Return cargoes such as furs, fish, ores, etc., were estimated to be worth \$500,000.
The Nome season opened and closed earlier this year than in 1903. And with plenty of rain the most conservative operators estimate that the gold yield would have been at least \$8,000,000, and possibly \$10,000,000. These authorities, too, predict for next year a more extensive development and a greater production of the precious metal than any since the discovery of the Seward peninsula diggings.

RECEIVER FOR SANTO DOMINGO.

John T. Abbott Has Charge of Custom House.

New York, Nov. 8.—John T. Abbott, who recently took charge of the Puerto Plata custom's house in order to liquidate a judgment against the Santo Domingo government, has arrived here. He declared that Carlos F. Morales, the former priest, who recently placed himself at the head of the little West Indian republic, to be a very friendly man and one of great ability. The custom's house at Puerto Plata is working out the indemnity which the Santo Domingo government owes American citizens. Having full power in the matter Mr. Abbott has been liberal with the government in the 20 days he has been in charge and has turned over most of the moneys for government uses. The indemnity payments will be taken out later on. He is in this city at present on a brief business trip and will sail for Santo Domingo again tomorrow.

PROHIBITIONISTS OPTIMISTIC.

Chairman Stewart Expects to Carry Certain Districts.

Chicago, Nov. 8.—Optimism over election prospects prevails in the councils of the prohibition party. Oliver W. Stewart, chairman of the national prohibition committee, says he is confident that Silas C. Swallow will receive 300,000 of the votes cast today, which is an advance of 90,000 over the ballot given John G. Wooley in 1900.
Alonzo E. Wilson, chairman of the state committee, expressed his belief that Arthur Gourley would receive enough prohibition votes to send him to the house of representatives from the Sixth district, and is hopeful that several prohibition members of the legislature will be chosen in Chicago and down-state districts.

NEVER BEEN IN ASTORIA.

English Reformer Admits Americans Are Making Some Progress.

New York, Nov. 8.—Sir Wemyss Reid, chairman of the Reform club of London, the largest liberal organization in England, who is now in this city, believes the political plane in America is gradually growing higher. "As a life time observer of American politics," he said, "I cannot help remarking that both parties have reached a much higher standard in their campaign than ever before.
Abroad, I might say, your politics have not always been regarded as on the highest level obtainable. But there has been a perceptible ascent to a higher platform."

QUARREL ENDED IN MURDER.

Wyoming Women Fight Gun Duel—One Dead.

Chicago, Nov. 8.—A dispatch to the Record-Herald from Evanston, Wyo., says:
Mrs. Leon Demars, shot in a duel by her neighbor, Mrs. Nancy Richards, is dead. Several times the women had come to blows and each had warned the other that the next encounter would be with guns.
Mrs. Demars went to Mrs. Richards' ranch, near Fort Bridger, and, upon being ordered away, displayed a big revolver. Mrs. Richards had been carrying a weapon in expectation of meeting Mrs. Demars. Mrs. Richards says Mrs. Demars fired first, but there were no other witnesses.
Mrs. Richards was arrested.

BLOCKADE AT TERMINALS.

13 Men Do Work of 105 Men by New Switch System.

New York, Nov. 8.—A great blockade of passenger trains at the Long Island city terminal of the Long Island railroad, due to the installation of a new system of switches, began to give way early today. Trains of minor importance were disregarded, however, in an effort to get things running on the main line.

Thousands of commuters reached Long Island city after their day's business in Manhattan only to find little hope of getting home by rail. Some of them organized into trolley parties and finally reached home after two or three hours' ride by circuitous routes. Trains from the east continued to arrive regularly as long as the rolling stock held out, but they got no further than the yard limits. The officials had quite as much trouble getting trains into the yards over the great network of tracks as they did in getting them out, so that a shortage of cars soon resulted.

A big crowd of racegoers on the way to Aequeduct gathered soon after the morning rush had been disposed of. Running of the regular racetrack train specials was out of the question. A string of 20 cars were coupled into one train and got away at the hour for the departure of the regular last train.

Trolley officials were quick to recognize their opportunity and the cars on their lines move past the terminal in a continuous procession for hours, greatly relieving the situation. In the scramble for seats on the trolley cars during the rush hours many women and children were knocked down and severely injured.

Officials of the Long Island declare there is nothing wrong with the new switching device, but say that the trouble is due entirely to lack of experience by the men. The plant, which has just been installed, is one of the largest in the world, operating many more switches, blocks and signals than any before constructed. A four-story switch tower contains 157 levers, which operate all the switches and signals in the yard, attached to 25 terminal tracks. Formerly it required 195 men to handle the switches on the ground, while with the new system but 13 men are employed.

SMALLPOX IN INDIANA TOWN.

More Than Seventy Cases in Thorntown Revealed by Anonymous Letter.

La Fayette, Ind., Nov. 8.—More than seventy cases of smallpox have been found to exist at Thorntown, a town of 2,500 population on the Gig Four railway, southeast of here.

Today Secretary J. N. Hulst of the state board of health, took stringent measures to prevent a further spread of the disease.

The situation at Thorntown was unknown to the state board of health and all others outside the town until yesterday when an anonymous letter was received by Dr. Hurty calling his attention to the fact that a strange disease had broken out in town and that several of the victims were likely to die.

It is probable that the city authorities of Lafayette and other towns in this vicinity will quarantine against Thorntown.

BOY HAD AN OPINION.

And Will Spend Three Months in Jail For Expressing it.

New York, Nov. 8.—A 13 year old Polish boy has been sentenced to three months imprisonment for lese majeste at Lissa, province of Posen, according to a Times dispatch from Berlin.

While a school in conversation with other boys he is alleged to have condemned the neutrality of Germany in the far eastern war.

Will Serve as Balloon Ship.

Berlin, Nov. 8.—The North German Lloyd steamer Lahn, which was sold to Russia several months ago, has undergone reconstruction and will serve as a captive balloon ship.
She will leave Geestemuende for Russia on Saturday.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
