

### BIG LEAD IN LOWER HOUSE

Republicans Will Have Working Majority of Fifty and Probably Much More.

### SENATE ALSO REPUBLICAN

Little Change is Likely in Voting Strength of Upper House, Which Has Majority of 22.

Washington, Nov. 9.—President Roosevelt is assured of the cooperation of a republican congress. The present republican majority in that body is 54 and there need be no surprise if that figure is almost doubled and it is reasonably certain to reach a majority of at least 50. In practically all districts, the republicans have held their own while in some significant instances the democrats have lost. It is possible the republican majority in the senate will show little if any change in the voting strength. Of the 90 members of that body 57 are republicans and 33 democrats.

### OUR FRUITS IN FAVOR ABROAD.

England Taking Best Grades of Canned Fruits Readily. New York, Nov. 9.—Allen G. Freeman, vice-president of the J. K. Armsby Co., who has just returned from an extended business trip in Europe, is spending a few days here at the offices of the company en route to the headquarters in Chicago. Mr. Freeman arrived on the Cedric. He has been abroad for several months on business for the company and has visited practically every country in Europe. Touching on the more important products in which American producers are interested, he said: "There is an active demand on the other side for our fruits, both canned and dried, and the markets there are gradually being extended for the better grades. California canned fruits in particular are receiving more attention in the United Kingdom and all high grades are wanted. We will export this year

fully as much as in 1902. In dried fruits, prunes are being taken freely, and it is safe to say that the exports out of the 1904 crop to date are in excess of those to the same date last year. The trade is taking all sizes, covering 120s up to 30s. European crops are larger than last year, but our fruit has taken hold on the other side and dealers want it. There is a good demand for apricots and peaches and the business done in these fruits is, I think, in excess of last year's for the same period. All the countries having no prohibitive duties on imports of fruits are, of course, our chief customers. Germany and France have these duties and the trade with them is not so large.

"The United Kingdom is our best customer, and in some parts of Scotland I found American canned fruits received very favorably. The English market on salmon is firmer and the outlook is considered very favorable with stocks in better shape than was the case last year."

### Poor Girl the Pet of London.

Camille Clifford, who made the hit of "The Prince of Pilsen" during its recent engagement at the Shaftsbury theatre in London, as the New York girl in "The Song of the Cities," has decided to remain in England, and will play a similar role in "The Catch of the Season" at the Vaudeville.

Four years ago Miss Clifford landed in Boston as a steerage passenger from Sweden. The girl knew nothing of the country or the language, and had no friends. Life in the new world was a hard proposition, and the girl who was to become the darling of the London Johnnies in four short years was compelled to scrub floors for a living.

Later she had charge of the candy stand at the Columbia theatre. When "The Prince of Pilsen" was put on in Boston three seasons ago Henry W. Savage engaged her as one of the golf girls. Last season she was the New York girl in the Eastern "Pilsen" company, and in a beauty contest at

Daly's theatre was selected from more than 200 aspirants to create the part in London. She followed Gibson's ideal of the typical New York girl.

Her wonderful success saved the piece and has made her the most famous chorus girl in the world.

### GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuel, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '09, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroys the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 50c. in stamps for sample to The Herpicide Co., Detroit, Mich. Eagle Drug Store, 351-353 Bond St., Owl Drug Store, 649 Com. St., T. F. Laurin, Prop. "Special Agent."
