

GREAT TRIO OF RULERS

Edward, William and Roosevelt Designated as Leading Powers of the World.

FUTURE OF GREAT BRITAIN

Predicted That Ten Years Will See Canada, Australia and South Africa Represented in High Office.

Chicago, Nov. 10.—A banquet in honor of King Edward's birthday has been given by the British and Canadian Americans of Chicago at the Auditorium. Sixty four guests were present, among whom were Alexander Finn, British consul to Chicago, Vice-Consul Thomas Erskine, J. R. Forgan, George Duddleston, D. R. Cameron, John Creer and Charles Crowneil. A telegram of thanks from King Edward was received in reply to one sent congratulating his majesty on his birthday. Dr. James Stone responded to the toast "the day we celebrate." He compared the king with President Roosevelt and Emperor William and declared them the three great and most picturesque rulers of the world, who appealed most to the imaginations of men.

Richard Armstrong, who spoke to the toast "the colonies," declared that in 10 years the world would see an imperial federation of the British empire with a Canadian as prime minister, an Australian at the head of the war office and a South African in charge of the admiralty.

MUNICIPAL DENTISTS.

Importance of Taking Proper Care of the Teeth.

Municipal dentists are appointed and paid for by many of the large towns and cities of Germany. In Strasburg, for example, 2,666 children were examined last year, 699 teeth were filled and 2,912 were extracted. The method of work is simple. The teacher brings his class to the dentist, who examines each mouth quickly and marks on the card each child has brought whether treatment is necessary. If so, the child must come again on Saturday. Russia is also joining this movement, and has already fitted up nine such institutions in St. Petersburg alone. And why not, or rather, why so late in coming, one might ask. If it is true that, generally speaking, good teeth are necessary to good health and long life, and if, also, a large and growing proportion of citizens have not good teeth, then it follows that the fact is one of public concern. It is not, for instance, of as much importance to the community that workmen should have good masticating and digesting powers as that there should be \$20,000,000 city halls, public parks, expositions, etc.? This little, or large, realization of preventive medicine has so far got into our American minds that we have ordered the soldier's teeth to be attended to and his governmental service is by so much enhanced. But the soldier is at last paid by the civil worker, and as to his teeth and service we are entirely indifferent.—American Medicine.

New Port for Valparaiso.

New York, Nov. 10.—Congress has approved the project for the construction of a new port, says a Herald dispatch from Valparaiso, Chile. The news was received with great rejoicing by the people.

\$18 to New York from all Scandinavian points on all lines. Tickets at New Cash Grocery, Alderbrook.

HE EXPLAINS.

Mr. Chas. Rogers Tells What He Knows.

A Boston Paper Investigates the Merits of Vinol.

A Subject That is Agitating the Whole Country.

There have reached us rumors of a new discovery. Something that will revolutionize the practice of medicine. A remedy that has given sufferers from wasting diseases hopes of renewed health and prolonged life.

Of enough importance have these stories appeared that a special interview with Mr. Rogers, of Astoria, who has interested himself in this new preparation which is called Vinol, was thought advisable.

Our reporter had no difficulty in finding Mr. Rogers' place of business. The first man he met said: "Oh yes, Mr. Rogers is the man who has the wonderful new remedy that will cure everything that people always thought cod liver oil would help," and he was speedily directed to Mr. Rogers' enterprising and busy establishment. Mr. Rogers is business from the word go, but rather objected to the fame of this preparation being spread abroad as a discovery.

"Why," said Mr. Rogers, "this is no more a discovery than was the moon when it was first viewed through a telescope. The discovery existed simply in the fact of finding out a means of getting at the truth we were after. Perhaps the method might be considered a discovery, but what we have found has been known for years, and it is nothing more nor less than the valuable medicinal properties that have always existed in the cod's liver, and for which cod liver oil has been prescribed by so many physicians. You see it is just this way. Cod liver oil (perhaps you have taken it yourself) is something that is very valuable in all sorts of wasting diseases, and in itself is extremely disagreeable. Why I firmly believe that a great many cases of consumption, even, could be cured if it were possible for the patient to take enough cod liver oil to let its virtues become manifest. For those who have a tendency to sore throat, bronchitis, coughs, colds, for every one of an anemic disposition, it has always been considered as simply invaluable; and yet it has more often been necessary to abandon its use than it has been possible to devise a way of administering it.

Two eminent French chemists started in and got interested in the matter, and after years of study they have succeeded in extracting from the liver of the cod just what is necessary, and have left behind that obnoxious, greasy, vile-tasting fatty matter, the thought of which even has turned the stomachs of thousands. That is all over now. We have just the thing at last. We have found a way of getting the kernel out of the nut.

This Vinol that is so much talked about is just exactly that. It is the concentrated essence of medicine found in the cod's liver that does the good. The grease is like the shell of the nut, absolutely useless, only it is different from the shell of the nut because besides being useless it is extremely obnoxious and disagreeable to sight, taste and smell.

We have now taken this extract and put a sufficient quantity of it in a delicious-tasting table wine. We have also added a small amount of organic iron. This heightens the tonic effect of the wine. The extract of the cod's liver comes in just the right proportion to do the greatest amount of good. "Here, drink this," said Mr. Rogers, as he reached for a bottle, and poured forth what appeared to be, and which smelled like, a delicious, rich wine.

The reporter hesitated. The thought of cod's livers, or anything to do with them, brought back memories of the past, when he himself had made heroic struggles to take that awful medicine. "Go ahead and drink it," said Mr. Rogers. The reporter did so, and looked up. "Yes, I know, but that is all right. I thought you were going to give me some of that Vinol you were talking about, and did not know that it was your custom to treat a man interviewing you, to a drink like that."

Mr. Rogers laughed. "Well, what is Vinol that you have taken. Now you know that part of what I have told you is true. It did not taste bad, did it?" And it surely did not. "Now," said Mr. Rogers, "let me tell you something else. You have just taken, condensed, of the curative principles of the cod's liver what you would find in fifty per cent. of its volume of cod liver oil. You can therefore imagine that

309 Bond Street, Cor. 9th. Astoria, Ore.

If it is necessary to take this remedy, how much easier it will be to derive benefit from it than it used to be when cod liver oil was administered. Do you realize that formerly you only obtained a small proportion of these same curative properties in a whole pint of that horrid oil? Doesn't that tell the story to you?

"You will have to excuse me now, for, as you see, I am more than driven. Of course I am getting the advantage of the new discovery by being directly connected with the Boston house."

The reporter thanked Mr. Rogers for his kindness, and left him, wondering to himself whether after all a man had to be born on purpose to be famous, or whether notoriety and good fortune did not sometimes come as a matter of luck.

Was Cousin of Herbert Spencer.
San Francisco, Nov. 10.—Molra Mathews Spencer, a first cousin, it is said, of Herbert Spencer, the English philosopher, was found dead at his residence here today. Death was due to heart disease. He was born in England 72 years ago.
