**BURNED IN TAR FACTORY**

One Died From Injuries—Two Were Saved By Jumping Into a Tank of Water.

THE PROPERTY LOSS IS \$25,000

Spontaneous Combustion in Tar and Paint Works Inflicts Severe Damage—Narrow Escape of Employees.

Denver, Col. Nov. 17.—One man is dead and three others are seriously injured as a result of a fire which destroyed the tar plant of the Denver Gas and Electric company. The property loss is estimated at \$25,000.

The dead: Clement I. Clark. Injured: Edwin F. Jones, Robert Meyers, Frank Walters.

The fire was caused by spontaneous combustion which occurred among the oil and paints in the paint department. The men were working in the room at the time. Their clothing caught fire and two of them saved their lives by jumping into a water tank. Clark and Jones rushed from the building with clothing ablaze and Clark was so badly burned about the arms and body that he died soon after reaching the open air. Jones succeeded in extinguishing the blaze that had caught his apparel but not until his body had been considerably burned.

**CAUGHT HIS MEN.**

Fort Legan Train Robbers Caught After Months of Trailing

Las Vegas, N. Y. Nov. 17.—Rock Island officer W. O. McIntosh and two deputy United States marshals from the Indian territory have arrived in the city with John and Jim Black, twin brothers, and John Murphy, who are charged with having committed the train robbery at Fort Logan, N. M., last July. McIntosh trailed the men to the Indian territory and with the aid of the United States officials arrested them there. In the latter part of July four men stopped the Rock Island passenger train and blew up the express car and the safes. The Rock Island people say the robbers got little booty. The men were at first supposed to be led by Tom Boswell, who, ten days ago, was shot and killed while leading a break from the United States prison at Fort Leavenworth where he was serving a sentence for horse stealing.

**RAILROAD MAN VERY ILL.**

President of the Long Island Has Intestinal Disease.

New York, Nov. 17.—Wm. H. Baldwin, president of the Long Island railroad company is reported to be critically ill at his home in Locust valley. He has been under medical treatment for intestinal trouble more than six months and submitted to an operation in September. The relief it afforded was only temporary and his condition is now understood to be much worse than at any time previously. Whether or not he is suffering from a cancer could not be learned.

Baldwin entered upon his railroad career in 1885 as a clerk for the Union Pacific, of which he became traffic manager and eventually assistant vice president. He was chosen president of the Long Island railroad company in 1896.

**LOOKS LIKE MURDER.**

Victim Probably Murdered and Thrown from Viaduct.

Chicago, Nov. 17.—The police are investigating the circumstance surrounding the discovery of an unconscious man under the viaduct at the Grand avenue crossing of the Chicago and Northwestern railroad. The man was fashionably dressed but there was no clew to identification. He has a fracture of the skull and internal injuries and probably will not recover.

It is believed by the police that the man was assaulted and thrown from the viaduct. Robbery apparently was not the motive as the victim's watch and other valuables were in his pockets.

**LOST LINCOLN'S COAT.**

White House Servant Brings Suit for Its Value.

New York, Nov. 17.—Alexander Freeman, a negro 90 years of age has brought suit here against an express company for \$300 damages alleged to have been caused by the loss of an

overcoat that once belonged to Abraham Lincoln.

Freeman escaped from slavery and fled to the Washington. He became a servant in the white house and since '64 had jealously guarded as a treasure, an overcoat that President Lincoln presented to him. The court will be asked to place the value of the coat which is the only point at issue between Freeman and the express company.

**Cure for Liquor Habit.**

"There should be less drunkenness at this season of the year than at any other time," said a specialist in nervous diseases who has a private sanitarium for the treatment of wealthy dipsomaniacs. "It is not generally known—in fact, I claim the honor of the discovery—that roasted chestnuts are a good antidote for liquor. The average man who drinks under high nervous pressure, not for the sake of sociability, but because the alcohol stimulates him to a greater effort, is the one whose nervous system is most quickly undermined. He may never get drunk, but there is the constant demand for overstimulation that works damage in the end. No sooner does the effect of one drink wear off than there is the craving for another. Now, if that man would eat a few roasted chestnuts instead of taking another drink when the feeling comes on him, he would find that the substance of the nuts, having quickly absorbed the liquor already in his system, had appreciably decreased his longing for more alcoholic stimulant. It isn't a theory. I know it to be true."

Joseph Hell has been arrested and for appearing on the streets of New York without a hat. Joseph should understand that New York has been making a fight for some time against "hell with the lid off" as Dr. Parkhurst puts it.

As the cold weather approaches it is advisable to strengthen the system and thus fortify it against attacks of Chills, Colds or Malaria. The Bitters will do this most effectually, also cure Insomnia, Loss of Appetite, Liver Troubles, Dyspepsia and Indigestion. Try one bottle.

DELIGHTFUL ROUTE DAYLIGHT RIDE IZZY CRAGS DEEP CANONS

A GOLDEN OPPORTUNITY

See nature in all her glorious beauty, and then the acme of man's handiwork. The first is found along the line of the Denver & Rio Grande Railroad, the latter at the St. Louis World's Fair. Your trip will be one of pleasure—make the most of it. For information and illustrated literature write
