

# HIS MEMORY FAILS FOR FASTER BOAT JUST GAZE AT THIS

### Heinze Can't Remember Who or What He Is.

## LATEST IN MONTANA TROUBLE

### Copper King on Witness Stand Fails to recall Who the Men Are That Are Handling His Immense Mining Interests.

Butte, Dec. 28.—F. Augustus Heinze in a deposition before George M. Macdougall, a notary, in the suit brought by the Butte & Boston Mining Company of the Amalgamated Copper group, to recover \$1,500,000 for ore alleged to have been illegally mined by the Heinze interests, from the Michael Devitt mine, acknowledged under oath that negotiations were on between him and the Amalgamated Copper Company for the sale of his properties in Butte to the amalgamated.

To many of the questions asked by counsel for the amalgamated Mr. Heinze pleaded a lack of memory. Mr. Heinze claimed he is not now the president of the United Copper Company or the Montana Ore Purchasing Company, although he admitted that he had formerly held both those positions. He claimed that he did not know who is the president or general manager and any of the board of directors of the Montana Ore Purchasing Company. The witness, however, stated that he was still a shareholder of the company and also the United Copper Company.

Mr. Heinze admitted that he was the first president of the Montana Ore Purchasing Company, and that he was connected with that corporation officially up to a period in the present year, the exact time of his retirement having escaped his memory. The witness could not remember the time when he had ceased to be the executive head of the United Copper Company.

### SPIKE YOUNG INDICTED.

### A Former Astoria Athlete Implicated in the Land Frauds.

"Spike" Young, a former Astoria boy, has been indicted by the federal grand jury for complicity in the land frauds. The Oregonian has the following to say:

Henry Young, another one of those indicted, is well known in Portland and in the Willamette valley as an athlete. He came from Astoria and was given a clerkship in the secretary of state's office by Frank I. Dunbar during the early part of that official's first term. Young, however, drank to excess and was discharged. He later was entangled with the law for having collected money from various persons in Salem under pretense of representing a firm with which he had no connection and is supposed to have left the state under this cloud. He was at one time a member of the Multnomah football team and was known as "Spike" Young. Young represented himself as George A. Graham before Judge Galloway, then of the Oregon City land office, and also made affidavit before R. B. Montague as Henry Young. Young is now in the east, but the government does not have any great desire to apprehend him, as he is of too little moment at the present time. As the offense for which he is indicted is not extraditable, it is thought that Young will not be one of those to attend the trial.

### GOLF CRANKS WORK.

### Scheme for National Organization is Advocated.

New York, Dec. 28.—A special committee of the United States Golf Association, appointed at the annual meeting last February to consider the plan of placing all the clubs in the national body on an equality, both in the payment of dues and in voting power, has finished its work and will report at the next annual meeting, February 10, in this city.

The committee took up a proposition for 14 western clubs to reorganize the association into one class of membership with every club entitled to a vote. In its report the committee recommends a compromise, adhering to their classes, but providing that an associate membership may be changed to an active one and the dues for the latter are reduced from \$100 to \$50. If adopted this plan will permit clubs to attain voting power in the national organization if they so desire. It is also provided that allied clubs be given a representation on the executive board.

### NARROW ESCAPE.

### Five Men Fall Into the Yellowstone River.

Forsyth, Dec. 28.—While five men were crossing the Yellowstone river in a basket strung to cable it broke precipitating the men into the river. Several slipped under the ice and it was only with the greatest difficulty that their lives were saved.

### Kilburn May Have a Speedy Competitor.

## OLD ALLIANCE IS TOO SLOW

### California and Oregon Coast Steamship Company Expected to Put on a Competitor for the Kilburn, Which Beats the Alliance.

Portland, Dec. 28.—George D. Gray of San Francisco, head of the California & Oregon Coast Steamship Company, is here on one of his periodical journeys north. Mr. Gray's presence in Portland at this particular time is significant in view of the recent developments in the tussle for business between the several steamer lines paralleling the coast between the Columbia river and San Francisco.

Mr. Gray says he has no information to give publicity to, but it is believed his mission here is to arrange for the substitution of a faster steamer in place of the Alliance to compete with the F. A. Kilburn of the Russell & Rogers' fleet, which now makes the same ports as the Alliance, in addition to San Francisco, and of late has made better time than the C. & O. liner. It was given out at the time the Alliance's route was changed, so that she touched only at Coos bay and Eureka, that another steamer would be placed on the through run the coming year. At that time there was no opposition to the coast ports and the trade was safe, but since the Kilburn commenced to make points on Coos and Humboldt bays it is said the California & Oregon Coast has awakened to the necessity of bettering its facilities, and it is confidently thought a vessel will be secured that will be equally as fast as the Kilburn.

### WATER AT TILLAMOOK.

### New System Proposed is Now Well Under Way.

Tillamook, Dec. 28.—Plans for Tillamook's proposed new water system, which has been under consideration for two years, are reaching final stages. The report of Civil Engineer W. B. Chase of Portland, who has been here for over a month, surveying and making plans and specifications, has been accepted by the city council, and the water commission. It shows that the total cost of the system, including all necessary work, fixtures and the complete water line will not exceed \$42,000.

Water will be taken from a mountain stream about six miles from the business center of the city, and will, when completed, supply water for 7680 people at 100 gallons each every 12 hours. Morris Bros. & Christiansen of Portland have agreed to take the bonds of \$45,000 at par, with interest at 5 per cent per annum. The present system is a gravity one, having been constructed about eight years ago. The water comes from a mountain stream, but of late years the clearing of brush and the fire of two years ago have killed the moisture-retaining brush and trees that formerly held the water in the hills adjacent to the creek. In the summer or in extremely dry weather the water supply is insufficient. The supply is conducted in a wooden stave pipe, and at a pressure of 50 pounds or more breaks the wrappings of wire, which in some places are badly corroded. At times the present supply is cut off entirely for hours.

For many reasons citizens and property owners are looking forward to the completion of the new system. It will afford ample fire protection and additional pressure for manufacturing concerns, which depend a great deal on water for the operation of their machinery.

### CHILDREN DIE.

### Poisoned by Eating Sprayed and Unpeeled Apples.

Tillamook, Dec. 28.—Lola Christensen, aged 3, is dead, another child, aged 5, is not expected to live, and several other members of the family are ill as a supposed result of eating sprayed apples. The Christensens live at Oretown, a remote hamlet in the southern part of Tillamook county, near Nestucca Bay. Owing to the distance of the place and the difficulty of communication, only slight details have been received. The apples eaten had not been washed, and were devoured with the peelings on. The unfortunate children suffered terrible agony, which doctor, mother, father and a grandparent tried in vain to alleviate.

### Steamer Gone.

St. Johns, N. F., Dec. 28.—Steamer Begonia, with crew of eight men, now overdue three weeks and posted as missing. It is feared she has foundered.

### Women Should Be Able to Support Hubby.

## SEVERE JAR TO FAIR NEXT

### Ferris Spins a Dream of Eutopia for the Overworked Men of a Cold, Cruel, Careless World Who Have Had to Work.

Chicago, Dec. 28.—N. W. Ferris, recent democratic candidate for the governorship of the state of Michigan, in an address before the National Commercial Teachers' Federation here, has advised women stenographers, and women in general, not to marry until they are in a position to support a husband.

"Until a woman is able to support a husband, she should not contemplate matrimony," declared Mr. Ferris. "While I believe it is the duty of every woman to marry, I still also believe that before taking so serious a step, a girl should look ahead and prepare for possible future misfortunes. Therefore, every girl should fit herself for an emergency and be prepared to step into her husband's place in the support of the family in the event of anything befalling him which will unfit him for work."

Mr. Ferris also spoke of the economic and educational changes that have taken place in the last 100 years and told of the advances made along the lines of commercial education in that time.

### MAGICIANS PINCHED.

### Chinese Jugglers Are to Be Deported to China.

Chicago, Dec. 28.—Four Chinese magicians, who performed at the St. Louis world's fair, have been arrested here by United States Deputy Marshal Bach on a charge of violating the Chinese exclusion laws. The Chinamen were taken to the office of United States Commissioner Foote, where they were released on bonds signed by Attorney Adolph Marks.

The Chinamen are of good families in Peking and were allowed to come to the United States and remain while the world's fair was in existence. When the fair closed, it is charged, the men wished to remain in the country, but the immigration officials learned of their intentions and warrants were placed in the hands of Deputy Marshal Bach.

The men gave the names of Su Wing Chang, You Man, Joung On and Lee Choy.

### SECOR IS DEAD.

### Passing of a Remarkable Man in War Annals.

New York, Dec. 28.—James F. Secor, builder of the Mare Island navy yard in San Francisco, the Pensacola yard and many of the monitors, iron-clads and drydocks which contributed so largely toward putting an end to the civil war, is dead at his country home in Pelham Manor.

He was 90 years old, and until within a few hours of his death, he retained the mental clearness and physical vigor which had been the marvel of his friends for many years.

Born in New York city, Mr. Secor early entered the shipyard which his father had founded here, and when the civil war began it was famous in the United States.

Though he retired from active business, which had embraced the presidency of managing directorship of two western railroads, several years after the war, Mr. Secor was active up to the time of his death and devoted his declining years to the development and beautifying of his estate in Westchester county. He took special delight in the old colonial mansion, once the property of Lord Pelham, which came into the hands of the Secor family three or four generations back. They had lost it, however, and the first use Mr. Secor made of his fortune was to buy in the old home of his family.

### EMPLOYERS FIRM.

### Refuse to Accede to Demands Made by the Workers.

New York, Dec. 28.—An effort has been made to open the factories controlled by the Capital Manufacturers' Association in this city, where about 1800 workers of both sexes are on strike against the open shop. Union pickets, including hundreds of women, swarmed about the shops and interviewed those who returned and only about 200 remained at work through the day.

At a meeting of the manufacturers it was decided to continue the fight for the open shop indefinitely.

### TWO SENSES GO.

### Hunter Loses Sight and Hearing From Shot Wounds.

Philadelphia, Dec. 28.—There is believed to be very little hope of saving the eyesight of Alfred Dupont, the Del-

aware manufacturer, who was injured while hunting in West Virginia several months ago.

For several weeks he has been in this city under treatment by eye specialists who have finally decided that the removal of the left eye is necessary. It is not thought that the sight of the other eye can be saved. Mr. Dupont has also lost his hearing.

### Steamer Ashore.

Kingston, Jamaica, Dec. 28.—The steamer Valencia is reported ashore off Port Au Prince, Hayti, and is in danger of becoming a total wreck.

### Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland Bentorville, Va. serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Chas. Rogers Druggist. Trial bottles free, regular sizes 50c. and \$1.00.

## CANDIES PAR EXCELLENCE

### Largest Factory in Oregon is in City of Astoria.

Polyearpus' candies cannot be sold as cheap as some, but the best products of the candymakers' art are produced in the immense factory of the Eastern Candy Company, on Duane street, and the choice sweets that you need to grace your Christmas board, and to fill the little one's stockings with, are the cheapest, because they are the best, at the store on Commercial street.

You wouldn't give your children poison? Then don't give them inferior candies.

You wouldn't try to make a bad impression on your sweetheart? Then give her some sweets that are as good in intrinsic worth as they are attractive in appearance, and, at the same time, patronize a home industry that is greater than you may realize.

We have on our counters EIGHT TONS OF THE BEST CHRISTMAS CANDIES ever offered in the state of Oregon, and our factory is the largest in the state. This could not be so if our goods were not THE BEST. THE EASTERN CANDY CO., 506-508 Commercial St., Astoria.

**Every Woman**  
is interested and should know about the wonderful **MARVEL Whirling Spray**. The new Toilet Spray, Toilet Soap and Shampoos. Best—Safest—Most Convenient. It Cleanses Instantly.  
Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies. **MARVEL CO., 41 Park Row, New York.**

# Where Health is Considered

THE EXPENDITURE OF A SMALL AMOUNT OF MONEY SHOULD NOT PREVENT THE BATH ROOM FROM BEING THOROUGHLY MODERN AND SANITARY.  
THERE IS NOT ANY PART OF THE HOUSE WHICH EXERTS MORE INFLUENCE ON THE HEALTH OF THE FAMILY THAN THE BATH ROOM, THEREFORE THE NECESSITY OF ITS BEING EQUIPPED WITH

## "Standard" Baths

... AND ...  
**One Piece Lavatories**

The most dainty and durable sanitary appliances made.

There are still in daily use many of the "cased-in" tin bath tubs and "inclosed" marble wash-stands, which were considered good years ago, but are now obsolete and unsanitary.  
If these fixtures were removed and "Standard" Baths and One-Piece Lavatories installed in their places, it would not only improve the sanitary condition of the house, but increase its selling value as well.  
We invite all persons interested in Modern Bath Rooms to visit our show rooms and examine the samples of "Standard" ware we have on display.
