

RAILROAD ACCIDENT

A Full List of Those Killed and Injured

SOME ARE UNDER THE WRECK

Two Special Trains From Cleveland for Washington Carrying Soldiers to the Inauguration of President Roosevelt.

Pittsburg, March 4.—After the most searching investigation it is now practically certain that the list of dead caused by the collision last night between the two special trains from Cleveland on the Pennsylvania railroad at Clifton station, will not exceed seven. Some of the soldiers say a number of their comrades are still under the wreck, but all seem to have been accounted for.

The following is a revised list of the dead:

Lieutenant Donaldson C. Schofield, of Company D, a Cleveland architect. Captain William R. Henry, battalion surgeon and a prominent Cleveland physician.

Corporal James Kehoe, Company C, Cleveland.

Private H. R. Held, Company C.

Frank Pinney, aged 10, son of Lieutenant O. C. Pinney of Company C.

Dodge, Pullman conductor, Calcutta.

Private Richard Buenger, Company C.

Early reports had one woman among the dead. This has proven to be a mistake.

The list of injured will reach 40, six or seven of whom are likely to die. All are being cared for at the several hospitals. Among the more seriously injured are:

Major J. H. McQuigg, commanding the engineers battalion, Cleveland, both legs broken, and head cut.

Lieutenant E. D. Smith, Company H, Fairfield, O., both legs broken and head cut; cannot live.

Frank H. Johnstone, aged 20, Cleveland, right leg broken and injured internally.

George Riley, Cleveland, member of Tippecanoe Club, guest of Major McQuigg, injured internally and suffering from concussion of the brain; will probably die.

Hubbard Lowe, negro, cook, Cleveland, badly bruised and hurt internally.

Charles H. Sturgis, Company C, Cleveland; badly burned about hands, face and back.

O. C. Pinney, quartermaster, Company C, skull fractured, may die.

Both trains left Cleveland about noon yesterday and were making a good run through to Washington. The national guard engineers had the first train, which consisted of a baggage and six Pullmans. Just after the train had passed through the Conway yards it had to be stopped on account of a hot box. The box was cooled off, but three other stops were necessary by the time Sewickley had been reached.

These delays allowed the second section to come up and after passing Sewickley the trains were running but one block apart.

The work of rescue commenced at once.

Flames broke out in the wreckage. After the fire had been brought under control the wrecking gang with their derrick began the work of searching the mass of wreckage for more victims. The charred coaches were pulled apart every piece being thrown into the river. In the pile of smoldering timbers which lay against the front of the wrecked engine they found three bodies, jammed tightly together. Only one of them was identified for some time. That was the body of Frank Pinney, the 10-year-old boy.

"Take that sword of mine and use it!" This command from Major McQuigg, as he lay helpless, was the last he will issue to the members of his command for some time to come. Both his legs were broken. While his injuries were being attended to some of the surgeons began a search for splinters. Major McQuigg saw his difficulty and instantly suggested the use of his own sabre for the purpose. This was done; then he ordered one of the privates to bring up his rifle and with the bayonet taken from this the other injured leg was bandaged.

The battalion returned to Cleveland this morning on a special train. The Tippecanoe Club, however, continued their journey to Washington on another special.

IN TIME OF PEACE.

British Admiralty Believe in Preparing for War.

London, March 4.—In the house of lords, Lord Selborne, first lord of the admiralty, discussed authorization by Lord Ellenborough regarding the admiralty's precautions against the possibility of a surprise naval attack;

similar to that of Port Arthur and an invasion of Great Britain by a foreign country. He said he did not purpose to discuss the question whether Great Britain or any other country was liable to attack from a foreign power at a moment of profound peace when there was not even a diplomatic cloud on the horizon. A temporary loss of command of the sea from negligence or accident by Great Britain would never enable an invader to land in this country.

Lord Selborne laid stress on the immense importance to Japan of disposing entirely of the Russian fleet. He said the whole issue of the war hinged upon this and everyone who had followed the history of the war had noted the intense nervousness of Japan so long as a single vessel of the Russian squadron remained afloat.

ANOTHER MYSTERY.

Body of a Woman Found Floating in Lake.

Chicago, March 4.—Mystery surrounds the identity of a woman whose body has been found floating in the lake at the foot of Fifty-ninth street. Her clothing was of exceptionally good material and the presence of valuable jewelry and general appearance of the features indicated that she was a person of refinement. The body apparently had been in the water for more than a week. The woman was about 50 years old and dressed in a blue suit and fox-skin furs. A gold watch and three rings were found in a pocket and on the wedding ring was discovered the only clue to the woman's identity—the inscription "L. W. H. to C. M. W. May 17, 1875."

Going to Honolulu.

San Francisco, March 3.—Dr. Jordan and Timothy Hopkins of San Francisco, who is one of the trustees of the Stanford university at Palo Alto, will leave tomorrow on the steamer Alameda for Honolulu to take charge of Mrs. Stanford's body and investigate the cause of her death. They will return with the body on the steamer China.

HOUSE IS GUARDED

Detectives Watching the Stanford Residence.

CHEMIST'S REPORT DELAYED

Two Servants Are Imprisoned in the Stanford Residence to Await Developments from the Report of Chemist at Honolulu.

Stanford University, March 4.—The handsome residence of Mrs. Stanford continues to be carefully guarded by detectives and no one is allowed to go in or out. In it are two prisoners who are held like criminals. Miss Nora Hopkins and Ah Hong. Miss Hopkins has been the housemaid at the Campus residence for some time past and during the past two days it has been reported by those who are guarding the house that she was in San Francisco. Today her presence at the university residence was discovered, but no one was allowed to see her. Ever since the first alleged attempt to poison Mrs. Stanford was made Miss Hopkins has refused to discuss the matter with any one.

Honolulu, March 4.—High Sheriff Henry sent a positive denial this afternoon of the story recabled from San Francisco to the effect that strychnine had been found in the stomach of the late Mrs. Stanford. He says it is yet a matter of uncertainty. The chemists report it extremely unlikely that they will be able to announce their findings before tomorrow.

Reinforce Siberia Line.

St. Petersburg, March 4.—All the new rolling stock, which includes 445 new engines and 5173 wagons just delivered, will be employed to reinforce the main Siberian line instead of being utilized in general commercial traffic, as had been intended. The minister of communications has been obliged to order 15,000 more wagons for the various lines in the empire.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing diseases for over 35 years. A sure protection to you is our name on the wrapper. Look for it on our Dr. King's, or Bucklen's, remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada.

RUSSIANS CUT OFF

Left Wing of Russian Army is Flanked.

ANOTHER JAPANESE VICTORY

Kuropatkin Sends Dispatch That the Japanese Are Marching on to Mukden and the Russian Army is Getting Ready to Evacuate.

Berlin, March 4.—A dispatch to the Tagblatt from St. Petersburg says: General Kuropatkin, in a telegram which arrived here at 7 o'clock last evening, said 200,000 Japanese had broken through the Russian left wing and that it was cut off from the remainder of the army. At 10 o'clock another dispatch from General Kuropatkin said: "The Japanese are marching on to Mukden. My position is extremely dangerous!"

In government circles here today there is a conviction that General Kuropatkin has been fully beaten; that part of his army has been dispersed and that the railroad north of Mukden probably will be cut.

St. Petersburg, March 4.—The battle raging at the front has assumed enormous proportions. Already one of the Associated Press correspondents places the Russian losses at 30,000 men and those of the Japanese at 40,000. It is added that the attempt to draw a net around General Kuropatkin has not yet succeeded, but it is stated that the Japanese from Sin Min Tin are attempting by forced marches to cut the Russian line of communications and that Kuropatkin has sent a message that he cannot hold his position.

Nieuchwang, March 4.—Arrivals from Mukden report that the Japanese are demoralized and are retiring to Tie Pass hotly pursued. According to latest reports received here the Russians are burning Mukden station and their stores preparatory to evacuating the city. Persistent reports from St. Petersburg are to the effect that the Russian left has been successful but that the right is badly demoralized.

SENDS GREETING.

Washington Legislature Sends Greeting to President Roosevelt.

Olympia, March 4.—In accordance with a concurrent resolution adopted by both houses of the legislature, the following telegram was sent to President Roosevelt today.

"President Roosevelt, Washington, D. C. The legislature of the state of Washington in session today sends you its heartiest congratulations upon your inauguration as president of the United States."

The house spent the day in second reading of house bills. Several senate concurrent resolutions were adopted. They petition congress to improve the Pend O' Reille river; authorize the reclamation bureau to proceed with the reclamation of tide flats in Stevens county and to increase the pensions of veterans of the Indian war from \$8 to \$12 per month.

ENGINEER RESIGNS.

Director of Geological Survey Has Difficulty.

Denver, March 4.—The News today says:

A. Lincoln Fellows, district engineer of the United States reclamation service, in charge of the great irrigation projects in seven western states, has resigned. Mr. Fellows telegraphed his resignation to Charles D. Walcott, director of the United States geological survey at Washington last night with the request that it be immediately accepted. At the same time he sent another telegram accepting the appointment of state engineer of North Dakota. Mr. Fellows' resignation is the outcome of technical differences of opinion among the members of the board of consulting engineers of this district over the Uncompahgre irrigation project, also known as the Gunnison tunnel, now in course of construction a few miles below Montrose, in this state.

British Steamer Captured.

Tkio, March 4, 2:30 p. m.—The British steamer Easby Abbey, from Cardiff, bound for Vladivostok, was seized by the Japanese guardship on February 27.

The Eastby Abbey is a steel screw steamer, 2963 tons register, built at Stockton, England, in 1892. She is owned by Pyman, Watson & Co., of Cardiff, England.

EVIDENCE TAKEN.

Sheriff Henry Takes Testimony of Miss Bower.

Honolulu, March 4.—High Sheriff Henry has a long stenographic record of his examination of Miss Berner and

Miss Hunt, the secretary and maid of the late Mrs. Stanford, relative to the circumstances of her death, but he maintains the utmost reticence and says that he will absolutely not divulge anything before the chemists make a report on their analysis of the contents of Mrs. Stanford's stomach. It is believed that Sheriff Henry is taking this course in accordance with the advice of the San Francisco police department.

DIRECT PRIMARY.

Portland Judges Decide Law Applies to Portland Election.

Portland, March 4.—Without leaving the bench the four judges of the circuit court this morning, at the conclusion of a lengthy argument, decided that the direct primary nominating election law applies to the primaries preceding the municipal elections in June. The question was argued on a demurrer to the complaint filed by N. A. King, a tax payer, to restrain County Clerk Fields from opening the registration books for registering the political affiliations of electors. By sustaining the demurrer, interposed by District Attorney John Manning, the prayer for an injunction was denied, which leaves the way open for direct nomination of candidates for municipal officers at the polls and it will be the first election of its kind held in Oregon.

HOTEL ARRIVALS.

MARRIAGE FAILURES

Batchelor's Definitions of Married Life

THE CATECHISM IS REVISED

Questions and Answers Promulgated by Some One Who Must Believe That Marriage is a Failure From Experience.

The following marriage catechism was evidently framed by some man who believes marriage is a failure.

What is marriage?
Marriage is an institution for the blind.

Why do some people never marry?
Because they do not believe in divorce.

When a man thinks seriously marrying, what happens?
He remains single.

Does a girl ever think of anything but marriage?
Only that, and how to get married.

Should a man marry a girl for her money?
No. But he should not let her become an old maid just because she is rich.

Is an engagement as good as a marriage?
It's better.

How may we tell when a courtship has progressed?
When the man takes to yawning in the girl's presence.

When two thin people become engaged what happens?
They immediately grow very thick.

When a man has popped the question is he finished?
No; he has yet to question Pop.

When asking papa how should a young man act?
He should face papa manfully and never give him a chance at his back.

Why does a bride wear a veil?
So that she may conceal her satisfaction.

When a man marries has he seen the end of trouble?
Yes; but it is usually the wrong end.

What is greater than a wife's love?
Her temper.

Do married women suffer in silence?
Yes; they all suffer when they may not talk.

When a man says he can manage his wife, what does he mean?
He means he can make her do anything she wants to.

Is it possible for a married man to be a fool without knowing it?
Not if his wife is alive.

What is a mother-in-law?
See General Sherman's definition of war.

How did the western man solve the mother-in-law question?
When she came to spend the summer with him he hired a Christian Scientist to come and give the old lady absent treatment.

Was it effective?
Yes; she went away and never came back.

BENTON'S NEW VALVELESS GASOLINE MARINE ENGINE.

Simple and Reliable. Latest Cut.

ADVANTAGES

- Less Parts to Get Out of Order.
- Less Wearing Parts.
- More Power with Less weight.
- Uses Less Gasoline.
- Under Perfect Control.
- Quiet Exhaust.
- Any Speed from 100 to 1000 revolutions per minute.

THORNBURG & BENNETT.
KNAPPTON, WASH.

Sizes 1 to 10 H. P., Single Cylinder.
Sizes 5 to 40 H. P., Double Cylinder.
FOUR CYLINDERS TO ORDER TO 100 HORSE POWER.

Great Auction Sale of Shanahan Stock.

Beginning on Monday morning, March 6th, I will sell at public auction my entire stock,

DRY GOODS, CLOTHING, NOTIONS, ETC.,

without regard to cost. No reservation whatever will be made and any reasonable bid for any article in the store will be accepted. Don't forget the great Auction Sale that will begin **next Monday Morning, March 6th, at 10 o'clock.**
