

TRouble in Osage

Standard Oil Company on the War Path.

ACCOUNT OF BLANKET LEASE

The Illuminating Oil Company, Branch of the Standard Oil Co., Raised the Rental From One Dollar to Fifteen Dollars an Acre.

Fort Worth, Tex., April 3.—A special to the Record from Guthrie, O. T., says:

Frank Frantz, the rough rider champion, whom President Roosevelt named agent for the Osage Indians, is here conferring with United States Attorney Horace Speed, relative to expected trouble between the illuminating oil company, a branch of the Standard, and its sub-lessees in the Osage reservation. The company recently secured a renewal blanket lease and with the beginning of the new year yesterday raised the rental on the sub-lease from \$1 to \$15 per acre.

The sub-lessees are organizing for mutual protection and trouble is anticipated.

TRouble AT SAN DOMINGO.

Incipient Rebellion Reported Among the Natives.

New York, April 3.—Vice President Caceres has arrived with his staff, riding from Santiago to confer with President Morales, cables the Herald's correspondent at Santo Domingo. He reports the interior quiet. General Miguelito, a minor leader, with 15 men, is in revolt in the forest near Sanchez and hopes to co-operate in an attempt at landing by Barba and the insurgent band on Turks Island.

The gunboat Presidente is missing. It is reported to be cruising to prevent the landing of arms and ammunition at Mayaguez and on Turks Island. The gunboat Independence, with 80 soldiers on board, sailed Saturday for Sanchez to intercept Miguelito with possible recruits for a revolt at Monte Christi.

EXPLORED SOUTH AFRICA.

Natives Wanted Him to Remain and Be Their Chief.

New York, April 3.—Nordenskjold, a son of the famous arctic explorer, has returned, cables the Herald's Montevideo, Uruguay, correspondent, from an expedition into the interior of South America to the borders of Brazil, Bolivia and Peru, where he found Indians who had never seen white men.

They are among the most primitive people in the world. They believe the explorer to be some God and begged him to remain as their chief. He refused to accept their offer, knowing his prestige would not outlive his ammunition.

SPOONER BOOM.

Laying Plans for Presidential Campaign of 1908.

Washington, April 3.—A boom for Senator Spooner of Wisconsin, for president in 1908 was launched last night with the regulation champagne baptism. The sponsor was none other than Secretary of War Taft; the scene was the 20th annual banquet of the Fal Upsilon Fraternity Association at the Raleigh hotel. The Wisconsin statesman, retiring president of the association, was toastmaster, and, introducing Secretary of War Taft as the new president, gracefully nominated him as the next chief justice of the United States.

Secretary Taft got back by nominating Mr. Spooner for president of the United States. "He has always shown a good judgment in other things as in his selection of a chief justice," the secretary remarked facetiously. "I haven't much influence in Ohio, but what I have is for Spooner for president."

ALL FOR ROOSEVELT.

President Will Seek Seclusion in the Mountain Fastness.

Lawton, O. T., April 3.—Although the president seeks seclusion from the world in planning to hunt wolves for a week in the 480,000 acres pasture reserve in southern Oklahoma, the citizens of that section of the territory have demanded that he shall view and participate in one of the rousing, stupendous wolf drives from which the southwest country is noted.

The president will be given a horse

and will take part in the final rush after the wolves have been corralled.

In order that the plans may be carried out it will be necessary to get the consent of the president's manager who has decreed that during the president's seclusion amid the fastnesses of the Indian reserve troops of cavalry from Fort Sill will patrol the fences and permit no one to enter.

SENATOR MORGAN

Confined to His Room in Washington With Cold.

New York, April 3.—Senator John T. Morgan of Alabama, who has been confined to his bed in Washington for several days with a severe cold, is not in a serious condition, according to Dr. John Wyeth of this city, who was called to the capital for consultation. In his opinion the attack was brought on by Senator Morgan's labors at the recent session of congress.

FOREST FIRES.

They Have Started on the South Side of Long Island.

New York, April 3.—Forest fires have started on the south side of Long Island and from half a dozen points in and around Babylon reports of more or less serious blazes have been made.

At several points the loyal fire departments worked all day Sunday in checking the fires. The losses so far have been small.

ANOTHER VICTORY.

Japanese Capture Another Russian Village.

Tokio, April 3.—A part of the Kai-yuan force drove the Russians from Mienhauchleh and occupied the village and northern heights on March 31. The situation in other directions is unchanged.

ICE PACKED MILK

New Method of Bringing Pure Milk to New York.

MAKE A LOWER DEATH RATE

There Will Be no Rise in the Price of Milk in Consequence of the Pure Milk Supply and All Railroads Will Probably Use Refrigerator Cars.

New York, April 3.—Three trunk lines are reported by the commissioner of health to have agreed that they will bring all their milk to New York this summer in refrigerator cars, with each can and case packed in ice. The smaller railroad lines are expected to follow the same plan. An inevitable result, the health officers say, will be a material reduction in sickness among infants and consequently a lower death rate.

There will be no rise in the price of milk in consequence of the purer supply. The expense incident to cooling the milk en route to the city is small, not more than one or two cents for each 40-quart can. Elaborate plans are also being laid by the department to protect consumers during the coming warm season against impure or drugged product. Milk found to have been embalmed with formaldehyde is to be seized and destroyed. Even three drops of formaldehyde in a 40-quart can of milk will be sufficient to cause condemnation.

FIRE AT ALVARADO.

Buildings Wiped Out in a California Town.

Alvarado, Cal., April 3.—Fire, which broke out in the second story in a saloon late last night wiped out five buildings and was only checked from destroying the entire town by the tearing down of the next structure that lay in its path. The loss will amount to between \$25,000 and \$30,000, which is only partially covered by insurance.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as a find they have no equal." Chas. Rogers, druggist, guarantees them at 50c.

ORDINANCE IS VOID

Pacific University Wins Its Fight Against Saloons.

JUDGE McBRIDE'S DECISION

A. G. Watson of Forest Grove Was Granted a Liquor License by the Common Council and Judge McBride Holds the Ordinance Is Void.

Hillsboro, Ore., April 3.—In the case of the Pacific university against the mayor and city of Forest Grove, Judge McBride this morning overruled the demurrer to the complaint, holding that the ordinance authorizing the licensing of a saloon is without authority and void. The university thus scores a victory, and an injunction will be granted restraining the sale of intoxicating liquors in Forest Grove.

There were a number of questions involved in the case, but the court held all hinged on the construction to be placed on the city charter. The charter provides that the city shall have power to "prohibit, regulate and suppress" the sale of intoxicating liquors, and the court in determining the intention of the legislature, held it necessary to consider the history of the city and conditions at the time of the enactment of the charter. In this the court found there had never been a licensed saloon there, and that the founders of the town had donated large tracts of land to the university on the expressed condition that no liquors should be sold.

It was then evident, remarked the court, that the legislature never intended to grant authority to sell liquor, and without this power the ordinance was declared void. A. G. Watson was granted a license a few weeks ago and has erected a saloon, but it will now require a decision from the

supreme court before he can open for business.

FACTORY BURNED.

Sash and Door Factory Destroyed by Fire at McMinnville.

McMinnville, April 3.—The large sash and door factory just completed at this place, and owned jointly by Jones & Adams and C. K. Spaulding & Co., was burned this morning at 1:30 o'clock. The building was erected by the latter firm and the machinery installed by the former. The loss is total, no insurance having been placed on the property, because it had not yet had a rating. Jones & Adams' loss is \$7500, and the building cost \$1500.

About \$100 worth of lumber was burned and a large amount of manufactured goods. The good work of the fire company saved most of the lumber, but the loss of the factory will retard building operations until it can be rebuilt.

This is the first fire suffered by Jones & Adams in the last 15 years. The origin is doubtless incendiary. The fire was started both under the front and rear of the building and gained great headway before discovered.

See the window display in the Owl Drug Store of the celebrated Eastman kodaks and supplies. New stock just received.

STATEMENT OF ASTORIA SAVINGS BANK

At the close of business March 20, 1905.
