

ROUGH RIDERS

Welcome President Roosevelt in Texas.

ROUSING RECEPTION

Streets Densely Packed With Citizens and Visitors to See President.

CHEERING AT THE STATION

Party of School Children at Dennison Advanced to the Platform and Presented the President With a Magnificent Floral Offering of a Flag.

Dallas, April 5.—President Roosevelt is tonight the guest of the Lone Star state. The special train bearing the president and party arrived in Dallas over the Missouri, Kansas & Texas railroad promptly at 6:45 o'clock this evening.

The reception committee was in evidence when the train rolled into the station and the chief executive was driven through the streets to a public stand near the Oriental hotel. The train will leave for Waco, Austin and San Antonio tomorrow morning. When the president awoke this morning his train was traversing the plains of Kansas. At every station, cheering and enthusiastic crowds were present, all bent on seeing and hearing the chief executive. The train entered the Indian territory before noon.

At Vinilla a short stop was made. The president briefly addressed a large crowd. When Muskogee was reached fully 10,000 people surrounded the railroad station. Although the program did not call for a speech and the president made a brief address. Brief addresses were made at South McAlester, Aloka, Cadde and Durrant, after which the train crossed the state line into Texas.

Dennison was reached at 3:45 o'clock and here was gathered an immense crowd to greet the president. A party of school children advanced to the platform and presented the president with a magnificent floral offering in the shape of a Texas flag. At Sherman one of the largest crowds of the day greeted the president. He was escorted to the stand where he spoke for 15 minutes. Cannons boomed and the city was in gala attire. From Sherman the train maintained the schedule to Dallas.

OIL IN COLORADO.

No Restrictions Upon the Standard Oil Trust.

Denver, April 5.—The News today says: The failure of the legislature to pass the Wilder state oil refinery bill will not, as expected, put a stop to all opposition to the Standard Oil trust in the Florence fields.

Before the bill was sent to the senate, after it had passed the third reading in the house, Representative Wilder announced that the appropriation of \$125,000 which the bill carried would not have to be put up by the state; that the independent oil men of the Florence district had already subscribed the amount, and that all they asked was that the state nominally take charge of the refinery. Representatives Wilder and McGuire, both of Fremont county, have been in conference with their constituents and now announce that the oil producers have decided to begin work on the new refinery at once.

BLOWN TO GLORY.

Mine Superintendent Blown to Atoms by Dynamite.

Tucson, Ariz., April 5.—A. C. Lamb, superintendent of the Tres Amigos mine, has been blown to pieces by an infernal machine while asleep in his house at the edge of town. Several sticks of dynamite were placed under a corner of the house and a five-foot

fuse attached. When it was exploded the house and contents were scattered all over the hillside. Fragments of Lamb's body were found at places a half mile apart. Lamb's wife and family were in the east on a visit.

At the coroner's inquest a verdict of murder by persons unknown was returned, but arrests are expected to follow. Lamb had been involved in several bitter disputes about mining property and it is presumed one of his enemies made in these quarrels committed the deed. A strict investigation is being made.

LOST A CAPTAIN.

Japanese Are Unable to Find a Missing Officer.

General Kurold's Headquarters in the Field, April 4, via Fusan, April 5.—The Japanese army has been making a fruitless search for information as to the fate of Count Scheptzky, a captain in the Austrian army and the military attache of that government with the Russian army in Manchuria. Count Scheptzky has been missing since the battle at Mukden. He is not among the prisoners, or wounded in Japanese hands. It is possible, however, he may have escaped into Chinese territory. If killed, he has probably been buried as a Russian, among the dead of that army.

ANOTHER ADJOURNMENT.

The Morgan Habeas Corpus Case Continued to Monday.

Cincinnati, April 5.—The habeas corpus hearing of J. Morgan Smith and wife, who were held under a New York indictment of conspiracy with Nan Patterson to extort money from Caesar Young, a bookmaker, was to have been held this afternoon before Judge Spielh of the common pleas court, but at the request of counsel it was again adjourned until Monday. The prisoners were remanded to the county jail.

CALCUTTA SHAKEN

Considerable Damage in India by Earthquake.

SEVERAL VILLAGES DESTROYED

In One City All the Houses Were Levelled to the Ground and Some Europeans and Many Natives Were Killed, Women and Children Injured.

Calcutta, April 5.—Later advices from various cities tell a tale of severe damage to property arising from the recent earthquakes on the morning of April 4, but it is impossible yet to make an estimate of the loss of life. No news has yet been received of the damage to buildings at Agra. No loss of life is reported from Delhi, but many buildings were damaged.

Visitors from Munsoree report considerable damage to private property. The only fatalities yet reported from there were two natives.

Dharmasala station, 85 miles northwest of Simla, reports all the houses destroyed, everyone being leveled to the ground and some Europeans and several natives were killed. Ladies and children are sleeping in the open air. Food is not procurable as all the stores are in ruins. An urgent demand for medical assistance has been sent to Lahore. At Fuzore, 40 miles south of Lahore, many natives have been killed.

Accidentally Killed.

San Francisco, April 5.—Frank Allen, a student at the Lick school of Mechanical arts, has been accidentally killed by a hammer thrown by Arnold Brown, a fellow student. The heavy leaden mallet struck the boy's skull near the base, crushing through the bone. He was taken to the Central Emergency hospital, where he died without regaining consciousness. He was engaged in the practice of swinging the hammer when the accident happened.

Reform in Education.

Kharkoff, April 5.—The parents of scholars here passed a resolution in effect that reform in educational system is necessary, but expressing the opinion that it was impossible without a change in the government.

SOARS ALOFT

Man Blown Up Through River Bed.

HEAVY AIR PRESSURE

Roof of Subway Tunnel in New York Blown Out By Air Pressure.

WAS A MIRACULOUS ESCAPE

Richard Creagan, Trying to Stuff Bags of Straw Into Leak, Is Carried to Surface, Shot into Air and Saved by Boat—Companions Are Rescued, Too.

New York, April 5.—Richard Creagan, worker in the mid-river end of the Brooklyn section of the East river tunnel, was blown out of the tunnel, up through 15 feet of mud and 35 feet of water, a great height into the air, yesterday morning shortly after 8. He not only lived through the accident, which is without precedent in the annals of tunnel building, but escaped without serious injury. He said yesterday at his home in Jersey City, where he went under protest, that as soon as the neighbors quit making a hero of him, which he guessed would be about a day, he would return to work at his old station.

Creagan and three companions were working in the forward compartment of the tunnel, which is protected by a steel shield. As a support to the bed of the river, compressed air is forced into the tunnel, which under ordinary circumstances prevents constant and often dangerous caving in. The theory is to equalize this air pressure and the pressure of the river bed. When this result is attained exactly there is no possibility of a cave-in. The bed of the East river at this point is very light and muddy, and thus not calculated to stand great pressure.

Creagan and the others, John Hayes, John Priley and John Egan, were busy digging and passing the dirt to the rear compartment, where 18 men were at work on the walls, when there was an explosion. A jagged opening appeared in the mud and the water began to trickle through and the outrushing air kept the roof from caving in at once. Creagan without hesitation picked up two bags of straw which are kept handy for emergency. As he stepped in front of the hole, he was drawn into it. He opened his mouth to shout to the men below and found it filled with mud before he realized where he was. The air pressure thrust him on upward. Then he found himself in water and almost instantly in the air. He did not lose his presence of mind, when, after falling with the geyser life spout of water, he found himself on the surface of the river. He kept himself afloat until rescued by a boat that had been put up from the foot of Joralemon street, Brooklyn.

CARNEGIE INSTITUTE.

Andrew Carnegie Makes Address to Former Colleagues.

New York, April 5.—At a dinner given to Robert S. Woodward, the new president of the Carnegie Institute at Washington, by his former colleagues of Columbia university, Andrew Carnegie made a brief speech in which he said: "The charter of the Carnegie Institute pledges it to a broader scope of learning than any other seat of learning in the world. Its policy will be to co-operate with all other institutions in the cause of education."

Baseball Scores.

San Francisco—Portland 2, San Francisco 1.
Oakland—Seattle 8, Oakland 9.

STRIKE IN SOUTH.

Hundreds of Men Thrown Out of Employment by the Order.

Chicago, April 5.—Hundreds of men employed on railroad construction in the southern states will be thrown out of work today as the result of strike orders just issued from Chicago. The edict came from officials of the Steam Shovel & Druggers' Union which has declared the contracting firm of W. D. Oliver & Co., unfair.

Railroad building in Tennessee, Kentucky and Missouri will feel the principal effects of the strike. Unless the dispute is settled a spread of the strike is threatened to include the entire southern territory.

ON THE WAR PATH.

Sonora Indians Still Looking for Trouble.

El Paso, Texas, April 5.—John St. Clair, the well known prospector, returned from Yaqui county near Ures, Sonora, and reports that the Indians are still on the war path. He says Malpuche, an old chief, is at the head of a band of over 50 and are devastating the country, murdering, pillaging and burning.

Ranches are being abandoned and the people are going into the towns for protection. The whole country is in a state of panic. Although the country is overrun with soldiers, he says the Indians are fearless and continue depredations.

WANT OF CONFIDENCE.

Russian Society Is Suspicious of Czar's Government.

Roetoff, on Don, April 5.—The Technical society here today adopted resolutions expressing a want of confidence in bureaucracy and declaring in favor of summoning the people's representatives to take part in the legislative body is absolutely necessary here.

TROUBLE IN WARSAW

Workmen in Factories Quit to Attend Funeral.

POLICE PREVENT FUNERAL

Police and Military Authorities Visited Every House and Discovered a Quantity of Revolutionary Documents and Proclamations.

Warsaw, April 5.—In anticipation of the funeral of a girl who died from wounds received in fighting Sunday, workmen from all the factories in the northern part of the city left work this afternoon and crowded the streets. The police, fearing hostile demonstrations, forbade the funeral and summoned the Cossacks, who used kouteis and swords freely and finally succeeded in dispersing the gathering.

The police and military authorities made a further house to house visit in the suburbs of Wela Tuesday night when they arrested fourteen persons and discovered great quantities of revolutionary proclamations.

Wheat Jumps.

Advance in the Chicago Wheat Market to \$1.17.

Chicago, April 5.—May wheat took a jump of nearly 4 cents a bushel on the board of trade today. The advance took place in almost as short a time as it takes to tell it, and was one of those freakish caprices of manipulating the market resulting from a determined effort of a few Wall street speculators to shake a few dollars out of the bears in the wheat pit. May wheat gave no signs of undue activity until about midday, when a sudden cessation of offerings threw the smaller shorts into a panic. In the scramble to buy which followed the price of May wheat went up until \$1.17 was reached. When this point was reached, enough of the commodity had been disposed of to afford the more anxious buyers an opportunity to cover and get out of harm's way.

Dinan Elected Chief.

San Francisco, April 5.—Jeremiah Dinan was elected chief of police tonight to succeed George W. Whitman, recently removed.

VILLIERS IS IN

Liberals Win in London Election.

ARE JUSTLY JUBILANT

Conservative Majority at Brighton Has Never Been Less than 2,000.

GOVERNMENT SHOULD RESIGN

The Premiers Discourtesy to the House of Commons Is Becoming Absolutely of the Cause of the Accident Is That This Vanced Liberal, of the House.

London, April 5.—The most striking overturning of the unionist majority in the numerous recent defeats in the bye-elections was recorded at Brighton today when Gerald Loder, unionist, and recently appointed junior lord of the treasury, was defeated by E. E. Villiers, liberal. Villiers' majority is \$17. The conservative majority at Brighton during the past 20 years has never been less than 2000.

The election turned almost altogether on the fiscal question. When the news of Villiers' victory was made known in the meeting of the house of commons tonight the liberals greeted it with shouts of joy.

"Villiers is in," was the cry, which was received with great cheering. Premier Falfour, who was just entering the house, was greeted with shouts of "Resign, Resign!"

Colonial Secretary Lyttleton, who had been speaking when the interruption came from the demonstration had been quieted, continued. On motion to adjourn an extraordinary scene occurred. Lloyd George, advanced liberal, said he intended to question the premier on the fate that had befallen the member of the administration at Brighton. He complained that on receiving notice of the question would be raised, the premier deliberately left the house. The premier's discourtesy to the house, he said, was becoming absolutely offensive.

Several members spoke supporting Lloyd George, and declaring that the government ought to resign. Winston Churchill said it looked like the beginning of the end, and that it was retribution for shams and shuffles and for the manner in which the premier had treated parliament.

TO PREVENT CHOLERA.

Congress of Doctors to Assemble in Moscow.

Moscow, April 4.—A congress of doctors has been summoned to meet at Moscow under the auspices of the Pterogoon Medical Society to devise means combatting the expected visitation of cholera, which congress first prohibited, but later granted permission to meet under conditions to discuss only scientific questions has justified apprehensions of the authorities by adopting as its first step an anti-cholera crusade and a set of resolutions calling for the execution of the whole radical political program.

The proposals will culminate in the demand for an immediate convocation of the constituent assembly, on the basis of universal ballot without distinction of sex, nationality or religion. The congress also demanded the immediate stoppage of the war, declaring the policy of conquest and adventure would throw the country into a terrible and extensive poverty in which cholera would flourish.

CHICAGO TERMINAL.

New Interests Now Control Affairs of Company.

New York, April 5.—It is positively stated in banking circles, says the Herald, that control of the Chicago Terminal Transfer Railroad Company has passed to the new interests. It is understood J. P. Morgan & Co. have bought a majority of the securities and

intend to turn the property to a great trunk line entering Chicago presumably a Vanderbilt road. Members of the firm did not deny the acquisition of the company, but said they could make no statement now.

This change in control is a sequel to efforts made since January, when interests on the coupon bonds was unpaid, to reorganize the affairs of the company. At that time the bond and stockholders arrayed themselves against each other and it is said news of a purchase of control by the Morgan interests took the reorganization committee completely by surprise.

The company owns 750 acres, of which 50 acres are in the center of the business district with nearly 273 miles of railroad. It has a capital stock of \$30,000,000 and outstanding first mortgage bonds of \$16,500,000.

JAPS WHIP SLAVS.

Russians Driven Out of Three Towns in Manchuria.

Tokio, April 5, 3 p. m.—Imperial army headquarters, reporting today, says:

"A part of our Changtu force drove the Russians out of Tsulushu, two miles north of Changtu, and also out of Sumencheng, nine miles west of Tsulushu and occupied both places on April 3.

"After driving the enemy from the neighborhood of Soumiactzu, six miles southeast of Tsulushu, our force reached the vicinity of Santankou on April 4 at noon, when they were fired upon fiercely by about 500 Russian cavalry retreating north along the railway.

"Our force dispersed them."

Iselin's Will.

New York, April 5.—The will of Adrian Iselin, the banker, disposes of his estate, valued at from \$15,000,000 to \$30,000,000, to his four sons and one daughter, who divide all but \$300,000, which is bequeathed to charities.

BY SMALL MAJORITY

Democratic Candidate for Mayor of St. Louis Elected.

HONORS ARE EVENLY DIVIDED

Stubborn Political Contest in St. Louis Results in Election of a Democratic Mayor With Other Offices About Equally Divided Between Parties.

St. Louis, April 5.—Complete first returns from last night's municipal election give Mayor Rolla Wells, democratic candidate for re-election, a plurality of 1,488 over Judge John A. Talty, republican. The vote for the candidate was as follows:

Wells, 44,208; Talty, 42,760; Lee Merriweather, independent public ownership, 3232.

Never before in the history of St. Louis has a mayoralty election been fought so stubbornly. Until complete results from the last ward had been received the issue was in doubt, and the official canvass of the returns may yet change the complexion of the returns.

Other candidates for city offices either ran slightly ahead or behind their party leaders and the democrats and republicans about equally divided honors for the offices other than that of mayor.

The proposition to increase the bonded indebtedness of the city by \$9,000,000 for making municipal improvements, was overwhelmingly defeated. Two amendments to the city charter were also defeated by large majorities.

FREIGHT RATES ADJUSTED.

Meeting of Representatives of Transcontinental Railroads.

Portland, April 5.—The decision of the transcontinental railroads relative to the readjustment of existing tariffs between coast points and the interior will be announced after the meeting between the representatives of the railroads now in the city and the wholesale jobbers of Portland, Seattle and Tacoma which will occur tomorrow. Railroad men acknowledge that they came to a decision, but say it would be discourtesy to the jobbers to make it known before the meeting.
