

## BE UNIQUE EXHIBIT

Miniature City of Spokane at Lewis and Clark Fair.

## ADVERTISING ITS RESOURCES

Novel Plans and Many New Ideas Formulated to Advertise the Various Cities, Towns and Sections of State at the Great Portland Fair.

It is interesting to note what enthusiasm pervades almost every community in the state in their efforts to make some unique and novel exhibition at the Lewis and Clark fair. Almost every city and town and county in Oregon, and even in Washington and Idaho are preparing to make extensive exhibits. Nearly every county in Oregon will be represented, except Clatsop county.

One of the most novel exhibits at the exposition will be the city of Spokane, Wash. The city is to be removed to Portland aboard a car, and it will not require a very large car, either. Spokane in miniature is now being built. A civil engineer and an artist are the builders, and the Spokane chamber of commerce is the sponsor. The miniature city, a beautiful reproduction, with a stream of real water to represent Spokane falls, will occupy a room in the balcony above the mining exhibit in the Washington state building at the fair, and Spokane people will proudly point out the places of interest in their city without flinching it necessary to take the tourist thither. It is the expectation, however, that the tourist who sees the reduced fac-simile of Spokane will be so charmed that he will go up to see the actual city.

The plan is to reproduce the city in detail from Jefferson street to Division street, between Mallon avenue and the Northern Pacific railroad. To the sight-seer the city will appear as if seen from an elevation over the river at Jefferson street, and he will be looking away to the north, the east and the south.

The foundation of the city, which will include the streets, curbs and sidewalks, will be of cement from two inches to six inches thick. The district to be represented will be made on an absolute scale of 30 feet to the inch, which will make the exhibit 10x12 feet. The cement foundation will be divided into 16 sections, weighing 120 pounds each, so that it can be safely moved.

The buildings will be hand-carved from pine. Each city block will be made separately, and will be fastened upon the cement foundation by dowels. That will permit the whole thing to be taken apart for shipment. After the details of all the business buildings are carved they will be painted in the actual colors of the structures. The bridges will be reproduced of wood and wire. The outlying portions of the city will be painted upon canvas and admirably pointed to the little city so as to appear in actual perspective.

### Smiths Point Road.

The residents around Smiths point and those living in the country who travel the Youngs bay bridge, are much pleased at the actions of the county court in deciding to build a good road from the bridge, connecting with the improved streets in Taylor's Astoria. The cost to the county will be very small compared to the great benefit derived. Not only will it be appreciated by the school children, but by the farmers who are compelled to ship most of their produce in by boats, not being able to climb the Eighth street hill, the only outlet to the large farming districts adjacent to Astoria. The road will be improved 16 feet wide and will be made substantial and far enough out on the north side so as not to be obstructed from slides in the winter.

### Stockwell in Comedy.

Herbert Basford's new comedy, "The Honorable John North," will be produced at Fishers' Saturday evening by L. R. Stockwell, the veteran comedian, and his company of artists. The plot of the play is laid in a small Washington town, and unfolds a series of amusing situations connected with the private and public life of John North. The climax of the play is reached in a red-hot political campaign in which John North is a candidate for governor. Although bitterly assailed by his enemies he triumphs over all obstacles and is elected to the coveted position. Seat sale opens tomorrow morning at 9 o'clock at Griffin's book store.

### Electric Massage.

Arthur E. Peterson has added something entirely new to his tonorial parlors in the Occident hotel in the shape of an electric vibrating massage instrument, which has lately been introduced into all the first class shaving parlors of the east. It is new on this coast, but is highly recommended

by all connoisseurs of facial massage treatment as not only beneficial but of great benefit to humanity. Since the inauguration of the new apparatus hundreds of Astorians have tried it and pronounce it a grand success and it is certain to become a popular innovation in all first class barber shops. It has certainly proved a success with Mr. Peterson's customers and will no doubt become popular with all desiring massage treatment. It is inexpensive to customers while the benefits resulting from it are appreciated.

### PERSONAL MENTION.

J. N. Griffin visited Portland yesterday.  
J. M. Craig of San Francisco is in the city.  
Gus Gronnell left yesterday for his home in Elsie.  
C. A. Pierce of Portland was in the city yesterday.  
Mrs. G. Gevurtz returned from Portland last evening.  
W. S. Spinning of Portland was in the city yesterday.  
J. A. Merrill of Skamokawa was in the city yesterday.  
Al Leach of Seaside visited friends in Astoria yesterday.  
F. C. Austin of Portland is registered at the Occident.  
Joe Strauss returned yesterday from a trip to Collins Spring.  
W. F. Schimof of the North Pacific brewery is in Portland.  
Samuel Schmidt has returned from a business trip to Portland.  
Collector of Customs W. L. Robb was in Portland yesterday.  
R. A. Hawkins of Iwaco was in the city yesterday on business.

B. A. Seaborg, who has been in the city the past few days returned to his cannery at Bay View yesterday morning.  
W. R. Hume of the Tongue Point Lumber Company and R. B. Dyer of the Clatsop mill returned last evening from Portland, where they have been attending the meeting of the Oregon lumbermen.  
Rev. R. F. Lash and wife of Oklahoma arrived in this city last evening on a visit to E. M. Bussing, their son-in-law. They expect to remain here the greater part of the summer and may conclude to locate here permanently.  
Frightful Suffering Relieved.  
Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic-laxative properties. 25c at Chas. Rogers' drug store, guaranteed.

## CURE FOR CANCER

New Method for Application of Radium Sure Cure.

### SCIENTIFIC EXPERIMENTS

New Treatment Experimented on an Old Lady Dying from Cancer and She Was Completely Cured, Indicating an Important Boon to Man.

New York, April 19.—Experiments now under way at the Flower hospital in this city, are reported by the World to indicate the discovery of an almost certain cure for cancer. It consists of a new method for the application of radium.

Wonderful things were expected of radium and its discovery by Prof. Curie and his wife had barely been announced when leading scientists began striving to find a way in which the new force could be used to destroy disease germs. All these failed. Now, however, a chemist of this city claims to have succeeded in dissolving radium and with the resulting solution exerted all the activity of the pure radium. Surgeons and physicians of the Flower hospital staff decided to give the solution a trial and selected a woman 82 years of age who was dying from a cancer on the instep of her left foot. Two weeks ago she received her first treatment. Six days later the doctors say, the cancer dropped off and showed healthy flesh beneath. Nothing remained but to heal the tissue which was finally accomplished, although the treatment is still being continued. Tomorrow another experiment will be undertaken.

There are ginger worms and red-pepper bugs—queer boarders—that have to be looked for, not in Schilling's Best, but in making it. There are eggs of these queer boarders, too small to be killed by grinding. Don't keep spices warm, or they'll hatch.
