

# HAWAIIAN LANDS

## May Induce Americans to Settle in Islands.

### LIBERAL POLICY IS WANTED

Chairman of New Territorial Board of Immigration Preparing Plans for Encouragement of Settlers. Leper Embellies But Cannot be Jailed.

Honolulu, June 28.—Secretary Atkinson, chairman of the new territorial board of immigration, who has just returned from Washington, is preparing to come here. Atkinson wants a liberal land policy and says that his conferences with Washington officials have convinced him that if they are allowed to land here on liberal terms American settlers will come to Hawaii.

A case of embezzlement from the post-office at the leper settlement has been brought to the attention of the United States District Attorney Breckens, but will probably not be prosecuted, as prosecution would require a session of the federal court at the settlement. The defendant is a leper and there is no jail in which he could be confined if convicted.

Four Japanese editors or proprietors of newspapers have been indicted by the grand jury for conspiracy in the third degree on account of their campaign against Japanese Consul Moko Saito. They are alleged to have conspired together to injure him and prevent him from carrying on his "trade" of consul general.

### Projection on Mars.

Cambridge, Mass., July 5.—A telegram has been received at the Harvard College observatory from Prof. Lowell at Flagstaff, Ariz., stating that there was a projection on Terminator Mars on Sunday near the Proprotis position, at an angle of nineteen degrees.

### CHICAGO "LATIN" PROFESSOR.

#### Lets a Six-year-old Daughter Get the Best of It.

In Chicago there is a principal of one of the public schools who in his college days was considered something of a "shark" at Latin and at many other studies besides. What he did not know about physiology was hardly worth knowing. He was a "grid" and a scholarship man.

His little girl, aged six, is now a pupil at the experimental school at the university, where she learns many things out of the order of public school education. Recently she fell and hurt herself. Her father found her crying.

"What's the matter, Noreen?" he asked.

"I fell and bumped my patella," she replied. Remember this was in Chicago, and not in Boston.

Papa was sympathetic. "Poor little girl!" he said, and proceeded with the best intentions to examine her elbow. Noreen broke away in disgust.

"Hub!" she snorted. "Haven't you never learned anything? I said my patella! That isn't my elbow. My elbow is my great sesamoid."

Papa went for a Latin dictionary.

### The Benefit of Fairy Tales.

It is very reasonable to argue that no creation of human fancy could last as long as fairy tales have lasted through no one knows how many hundreds and thousands of years unless it was very good. For that which is not good and not sound must surely die, and only that which is good and sound shall last through the grinding of the ages.

So I believe that parents should fill their children's imaginations full of fairy tales if they would make those imaginations strong and healthy. As for that man or woman who has not these bright and joyous things of fancy flying like golden bees through the dim recesses of his memory, I can only say that I think his or her parents must have been neglectful of the earliest training of their child and that I am sorry for that poor soul who has lost so much pleasure out of his life.—Howard Pyle in Book News.

### As It Looked on the Map.

Of every hundred tourists who visit the Canary Islands quite seventy-five are British. Naturally, therefore, the natives of the Canary Islands take a great interest in everything which affects England. It is perhaps a pity that their general ignorance is not a little less appalling, but their very disregard for accuracy lends a certain "charm" to their conversation. A man in a barber's shop pointed to a dilapidated map of the world which was

nailed to the wall, and, putting his forefinger upon Spain, he exclaimed: "If war breaks out, Spain must retake Gibraltar. Have no fear. The English ships may come down to us because it is all downhill, but after we have crippled them they will not find it so easy to get back to England, because it is all uphill."

### Deceptions of Wild Birds.

Falcons—hawks, the largest species—can compress their features and look very slim if they think it necessary to do so. As to the owls, they can hump up into any position they think most suitable. It is useless to look for these self-preserving traits in any of the family kept in zoological collections, for the birds are so accustomed to see large numbers of people passing and re-passing or standing in front of them that they treat the whole matter with perfect indifference. They know that at a certain time their food will be brought to them and that they are otherwise perfectly safe. Then the raptors in a wild state have a bloom on their plumage like the bloom on a bunch of grapes, which is not often seen when in captivity.

### A Compromise.

In the nursery the letter of the law occasionally leaves something to be desired, according to the London Chronicle. A very little lady had been told that it was rude to contradict. She schooled herself not to contradict with great conscientiousness, but one day a half-jesting accusation made against her by some unsuspecting member of the grown-up part of the house nearly made her fall from a state of grace. Luckily her imagination supplied her with a compromise. In a voice trembling with tears and passion she gasped out, "I—I really think you are mistaken—you—you beast!"

### Lack of Order.

It is astonishing how all of us are generally cumbered up with the thousand and one hindrances and duties which are not such, but which nevertheless wind us about with their spider threads and fetter the movement of our wings. It is the lack of order which makes us slaves. The confusion of today discounts the freedom of tomorrow.

### When He Might Call.

"I should like to know when you are going to pay that bill. I can't come here every day in the week."  
"What day would suit you best?"  
"Saturday."  
"Very well, then, you can call every Saturday."—Pett Parisien.

Mission Lemons are the best. 25 cents dozen.

# QUICK RETURN COLUMNS.

Situations Wanted Advertisements Inserted Twice Without Charge.

## You May Want

A furnished house, rooms or store. Make your wants known to the readers of this paper. If you want a tenant for a house, some reader may be the desired party. Obtained by Advertising in the Want Columns of the Morning Astorian.

# WHEN YOU THINK OF A BLOOD PURIFIER THINK OF SSS

## The Most Popular and Widely-Known Blood Purifier GUARANTEED PURELY VEGETABLE

This is the season that tests the quality of your blood, and if it is not good, then evidences of it will begin to show as the weather grows warmer. Carbuncles and boils, pimples and blotches, and numerous itching and burning skin eruptions will make their appearance, and are sure indications of bad blood. If spring-time finds you with impure, sickly blood, then you are in poor condition to withstand the strain upon the system which always comes at this time of the year. A failure to look after your physical welfare now, by purifying the blood and toning up the general system, may result in a complete breaking down of health later on, and you will find yourself weak and run down, with no appetite, and a prey to indigestion and nervousness. It is poor blood that makes weak bodies, for it is this vital fluid that must supply vigor and strength to our systems, and upon its purity rests our chances for health. Any impurity, humor or poison in the blood acts injuriously upon the system and affects the general health. It is to the morbid, unhealthy matter in the blood that chronic sores and ulcers are due. The pustular and scaly skin eruptions so common during spring and summer, show the blood to be in a riotous, feverish condition, as a result of too much acid or the presence of some irritating humor or acrid poison in the blood. A large per cent. of human ailments have their origin in a polluted, diseased blood, and can only be reached by a remedy that goes into the circulation and uproots and expels the poison and restores the blood to a healthy, natural condition. If you have any symptoms of bad blood, and are thinking of a blood purifier, then think of S. S. S., a remedy with a long-established reputation and that has proven itself to be a specific in diseases of the blood, and a superior tonic and system builder. S. S. S. contains no mercury, potash, arsenic or other mineral, but is composed exclusively of vegetable ingredients, selected for their medicinal properties and gathered from nature's store-houses—the fields and forests. The thousands who have used S. S. S. and know from experience what it will do in blood troubles, do not need to be reminded of a blood purifier now, for they know no better can be found than S. S. S. If you are thinking of a blood purifier, think of S. S. S., which has been sold for nearly fifty years, while the demand is greater now than ever in its history. No remedy without merit could exist so long and retain the confidence of the people. Write us if in need of medical advice, which is given without charge.

Wheeling, W. Va., May 28, 1905. I have used your S. S. S. this spring, and found it to be a blood purifier of the best order. My system was run down and my joints ached and pained me considerably, and I began to fear that I was going to be laid up with Rheumatism. I had used S. S. S. before, and knew what it was; so I purchased a bottle of it, and have taken several bottles, with the result that the aches and pains I had are gone; my blood has been cleansed and renovated, my general health built up, so that I can cheerfully testify to its virtues as a blood purifier and tonic.

JOHN G. STEIN. 1638 Market Street.

Springfield, Ohio, May 16, 1905. On two occasions I have used your S. S. S. in the spring with fine results. I can heartily recommend it as a tonic and blood purifier. I was troubled with headaches, indigestion and liver trouble, which all disappeared under the use of a few bottles of your great blood remedy, S. S. S. My appetite, which was poor, was greatly helped. I can eat anything I want now without fear of indigestion, and my blood has been thoroughly cleansed of impurities and made rich and strong again. As a tonic and blood purifier it is all you claim for it.

MRS. GEORGE WIEGEL. 71 E. Main St.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
