U. S. STEEL'S BIG ORDER.

Contract With Pittsburg Company For A Million Tons.

New York, July 5.—The Pittsburg Steel company has closed a contract for the delivery of one million tons of billets to the United States Steel Corporation. It is understood that this contract, the largest of the kind ever placed, involving about \$23,000,000, is on a sliding scale basis. The Pittsburg Steel company, as a result of the favorable contract with the steel corporation will now abandon its plans for the erection of steel works at Monessen.

It was a contract between the Pittsburg Steel company and the Republic Steel and Iron company for billets about a year ago, it will be remembered, which nearly disrupted the steel billet pool. It is said that the Republic company has declined an offer from the steel corporation of part of the contract of supplying the million tons of billets.

FUNDS WORRYING STRIKERS

Leaders in Chicago Controversy Propose End of Strike.

Chicago, July 5.—Lively debate on the question of contributions to the teamsters strike fund is looked for at the meeting of the teamsters joint council tonight.

When the proposition is presented it will bring to the fore, the question of ending the strike. There are a number of delegates in the council who have spoken in favor of submitting the question of calling off the struggle to a referendum vote.

Union officials admit that the prospects are not bright for an increase in the strike funds. Many drivers not involved in the strike have discontinued contributing a part of their weekly wages.

It was there that Hawthorne wrote at the beginning of his literary career.

The old house has been vacant for a long time.

FIGHT STURGEON IN HELL GATE

Lifesavers Conquer Monster After Half Hour Struggle.

New York, July 5.—Battling with a big sturgeon in the shallow waters of Bounty's Cove, yesterday, John Hetherington and James Hunter, National Volunteer lifesavers, had an exceedingly lively half hour. The cove is on the Astoria shore of Hell Gate, and a station of the lifesavers is there.

While they were busy on a float, outside their headquarters, a boy sighted the fish and called to them to try to capture it. The lifesavers launched a boat and with the aid of oars and boathooks drove the fish into shallow water.

They soon discovered that they had caught a Tartar, however, for the big fellow was lashing the water to a foam with his tail and was diving and plunging at a great rate. After some time they struggled for the mastery.

Hetherington fell prone upon the sturgeon while Hunter belabored his head with an oar. When they had mastered the sturgeon they made an examination and discovered that the fish had evidently been struck by the wheel of a passing steambot, and so partially incapacitated.

The sturgeon was 6 feet and 2 inches long and weighed 132 pounds.

WRITTEN BY VANCOUVER

Letter of Explorer Found Among Archives of Hawaii.

Honolulu, June 28.—A letter bearing the signature of George Vancouver, the great explorer, is among the documents found among the archives of Hawaii by R. C. Lydecker, secretary of the board of archives, who is going through many boxes of old papers and records. It was written in 1794 and is a testimonial left by the explorer with King Kamehameha, the Great, testifying to his peaceful disposition and kindly treatment of Vancouver and his men. The document is well preserved.

Many other similar relics are being found among them being numerous treaties with the various powers of the world by the Hawaiian monarchy. There are also letters signed by the Hawaiian kings of the early part of last century, showing their allegiance to Great Britain, and one from the first Kamehameha to King George III telling him of the complete conquest of all the island territory by the island king. Vancouver's letter tells of a meeting of chiefs at which the sovereignty of Great Britain was acknowledged.

Fourth Injures Many.

Chicago, July 5.—As the result of thunderous celebration of Independence day, hundreds of patients in Chicago hospitals were subjected to nervous shocks that may eventually result seriously for the sufferers. In many cases it was necessary to call upon the police to disperse crowds around the hospitals.

Carbondale Not Destroyed.

Carbondale, Col., July 5.—The report circulated last night that this town had been destroyed by fire was erroneous. The conclusion arrived at was probably due to the fact that telephone communication was interrupted by the burning of several poles. One brick and several frame buildings were destroyed, the loss being about \$5,000.
