A. W. Williams of San Francisco registered at the Occident yesterday.

**TUNNEL GIVES WAY.**

**Lives of Workmen Jeopardised by Break in North River Tunnel.**

New York, Aug. 10.—Under pressure of the weight of the North river, the roof of the northerly tube of the twin tunnels being bored from Fifteenth street, Jersey City, to Morton street, Manhattan, partly gave way yesterday and 22 men at work behind the boring shield narrowly escaped drowning. One man lost his life, having been crushed by the shield, stunned and drowned.

Nineteen of the workmen took fright when the water began to trickle down upon them and fled toward the gate of the air lock. Three retained their presence of mind and plugged up the break in the roof. When they finished their work they were hip deep in the water.

Work on the southern tube of the tunnel was finished last fall. The northern bore had been carried to within 200 yards of the New York shore when yesterday's leak began. The three men who remained plugged the hole with bags filled with sawdust, which are always kept near the shield for that purpose. The pressure of compressed air was increased and it held the bags of sawdust against the opening until planks and timbers could be placed in position.

**NUT CROP IS SMALL.**

Ventura, Cal., Aug. 10.—The English walnut crop of this county will be but half, or at most, two thirds of that of last year, when 150 carloads were shipped. As to size and quality, all the nuts promise well.

The Astorian, 75 cents a month.

**P. A. STOKES'**
