IS NOW A PAUPER

Once Lived in Affluence; Seeks Alms From City

DOWNFALL OF NEWYORK MAN

Well-dressed Man Enters Courtroom and Asks Permission to Enter Almshouse - Tells Pathetic Tale of Tumble With Dame Fortune.

New York, Aug. 10.-Wearing patent leather shoes, a slightly frayed frock coat and a high hat which was a bit rusty, J. T. Rapelee, a retired broker, 82 years of age, applied yesterday to the commissioner of charities in New Rochelle for commitment to the almshouse.

Struck by the unusual air of dignity and refinement, the commissioner asked the aged applicant to tell his story.

"You really don't mean that you want to go to the poorhouse?" the commissioner queried.

"Yes, sir; I most emphatically do. I don't want to be a burden on my relatives. As I have paid taxes all my life I think that now when I have no more money it is the duty of the community to care for me."

Asked how he came to lose his money, Rapelee said that he formerly had been at the head of a brokerage company in this city, made a comfortable fortune and retired. For a time he lived at the best hotels, but gradually encroached on his capital and slowly receded to cheaper quarters.

The income from his funds was insufficient even then, and during the past 15 years his capital slowly dwindled until yesterday only 7 cents remained. When he figured years ago on alms being in good circumstances, Rapelee said he never dreamed living past the four-score mark, so that his calculation went far amiss.

For two months he had been living in a boarding-house in New Rochelle, but that yesterday he was told he would have to move as he was a week behind in his rent. Commissioner Sharp said he would commit the man to the almshouse temporarily at least.

"May I get my trunk?" Rapelee asked. He was given permission, and for the first time in the history of the Westchester almshouse it received an inmate who came with a trunk.

GREAT QUANTITIES OF COTTON AT KOBE, JAPAN.

Many Ships Lying in Offing Waiting to Discharge Their Cargoes.

Seattle, Aug. 10.-When the Kanagawa left Kobe on her last voyage to Seattle there were more than 80 ships either at the docks of that port or lying in the offing awaiting their opportunity to discharge their cargoes, which for the most part consisted of cotton.

This commodity, according to Captain Wade of the Kanagawa, is crowding every warehouse along the waterfront of Kobe and is overflowing into the fields which extend back from the town.

Shortly before the departure of the Kanagawa a fire started in this vast amount of cotton, and before it could be extinguished had destroyed some 20,000 bales. Captain Wade states that

THE POWER OF STEAM.

Many May See How It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

the loss was scarcely noticeable to the casual observer, and that the space which the burned cotton had taken was filled almost immediately by other bales which were discharged from the many ships.

The greater part of this cotton is American product, although a small percent comes from India. Captain Wade states that a large amount of cotton weaving machinery is being installed in Japan, and that the manufacture of cotton fabrics is rapidly becoming a great industry in the land of the mikado.

NEW MONEY ORDER

Post Master General Cortelyou Orders New Issue of Paper

WILL NOT PERMIT RAISING

New Style of Postal Money Order Is Ordered Issued-Will Prevent Petty Swindles by Persons Who Buy Small Orders and Raise Them.

Washington, Aug. 10.-Before leaving for his vacation, Postmaster-general Cortelyou directed the issuance of a new form of money order which it is believed will be proof against alteration at the hands of forgers.

The department has been greatly annoyed by the operations of persons who purchase money orders for small amounts and raise them, passing them on merchants after office hours. Although the direct loss falls on those who accept the orders, the department refusing to cash them except as originally drawn, there has been a heavy indirect expense involved in the pursuit, arrest and conviction of the offenders.

The form adopted will be issued as soon as the new plates can be prepared and other necessary preliminaries in the way of arrangements can be made.

New York, Aug. 10.-A bill was passed by the Chilean congress yesterday, according to a Herald dispatch from Valparaiso, subsidizing sugar beet root producers.

ANGELENOS ON MOVE.

First Steps Taken Toward Owens Lake Water Project.

Los Angeles, Cal., Aug. 10.-The City council has taken the first step toward the consummation of the project whereby Los Angeles will acquire all the water rights of the Owens River valley. A resolution has been adopted declaring the public necessity for this municipal improvement and providing for the calling of a special bond election for the voting of \$1,500,000, necessary to carry out the preliminaries of the plan.

ANOTHER KIMBALL

Real Merit Wins--M. O. Metcalf Gets a Kimball Piano.

IS THE SIMPLICITY OF ART

In Its Broadest and Best Form, Art Must Appeal to the Better Sense of the Age--Art in Manufacture--Both Material and Emotional.

Art, the highest expression of great minds, is not the birthright of the rich alone; its conquest may be made through some industrial product which ministers to the better sense of humanity. Art in its broadest and best form is material and commercial, as well as emotional.

The man who builds pianos and organs for the whole world fittingly represents both forms of art, for to him is given more than dominion in the commons for music in its loftiest forms--means of music in its loftiest forms--thus he contributes to the higher forces of civilization.

The W. W. Kimball company has grown in less than fifty years from a small retail establishment to a commanding position. Evidence of this is seen in their private railway tracks by which the enormous annual output--over 30,000--goes directly to every land in which man has reached even the primary stage of civilization.

This fact is apparent: The Kimball output is more than double that of any other establishment of its kind today. This great popularity of the Kimball goods is secured by reason of their genuine merit, which no amount of knocking can shake.

Mr. M. O. Metcalf secures a choice, new style Kimball piano from us during this sale for his daughter Inez's birthday present. Can you suggest a more fitting gift? Why not get a piano for your daughter? Our easy payment plan makes it a pleasure to buy pianos at this store. Notice: We will give you Twenty Dollars (\$20) discount on any piano we carry for the solution of the Katzenjammer puzzle. Bring this "ad" to Nos. 422 and 424 Commercial street and get a puzzle. Store open evenings.

ROB MAYOR'S HOUSE.

Residence of Chicago Executive Visited by Thieves.

Chicago, Aug. 10.-Mayor Edward F. Dunne's residence was robbed last night a few hours after he returned from his visit to the East. The burglars gained an entrance to the house through a window and succeeded in carrying off about \$75 worth of linen. A servant heard the burglars, but they had slipped away before the mayor could be aroused.
