HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil. Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

OPPOSE BEEF TRUST

"Kosher" Butchers Erect Independent Abatoir.

NO HOGS TO BE KILLED

Plant Is Finest in the Country and Cost \$1,500,000—Every Detail of Mosaic Law Is Carried Out—Capacity Is Four Thousand Beeves a Week.

New York, Aug. 26.—Retail "Kosher" butchers of this city, who recently formed an organization to act independently of the Western packers, have opened their new abatoirs. On the opening of the latter yesterday, 500 head of prime Western cattle were slaughtered, dressed and carried into the refrigerating rooms, there to remain until September 4, when the stockholders, who are also to be the customers of the concern, will be allowed to come in and buy.

The new concern was organized three years ago and the plant just completed at a cost of \$1,500,000, is declared by the promoters of the scheme to be the most complete affair of its kind in the country.

The main building of brick and iron, is six stories high. It is connected with the company's own piers at the foot of West Thirty-ninth street. No hogs are to be killed in the new plant, as the whole establishment is carried on in "Kosher" fashion. The killing is done by eight licensed slaughterers under the supervision of the Rev. Philip Klein, who sees to it that every detail of the Mosaic law is carried out.

In the near future the company intends to receive carcasses from independent packers in the West and distribute them on commission. The capacity is now 4,000 carcasses a week, although but 2,500 cattle will be slaughtered for some time.

NO WIGS ALLOWED.

Judge and Counsel in British Columbia Liable to Arrest.

Victoria, B. C., Aug. 26.—A strange conflict has occurred in connection with the trial of the American fishing schooner North C today, ordered to be confiscated by Justice Martin in the admiralty court for fishing within British Columbia waters. At the last session of the legislature an enactment was made prohibiting the wearing of wigs in any British Columbia court. Today Martin and counsel before him wore wigs as a foretime, the judge contending the enactment did not apply to the admiralty court, which has federal jurisdiction. Legislators, however, contend the enactment affects any court which sits in British Columbia and say the judge and counsel are liable to indictment for infringing the enactment prohibiting the use of wigs in British Columbia courts.

SERIOUS FOREST FIRE IS FINALLY CHECKED.

It was Feared That Last Years Conflagration Would be Repeated.

San Rafael, Cal., Aug. 26.—A forest fire started last night on the Northern slope of Mt. Tamalpais, between Williams Gulf and the Kent property. For a while the fire raged fiercely and it looked as though last year's great conflagration which swept the western slope of the Bolinas range from one end to the other was about to be repeated. Prompt and vigorous work, however, checked the flames, and at a late hour the blaze was well under control, with the prospects good for it being promptly extinguished.

SIERRA LEOENA ARRIVES.

Does Not Sight the Ship Deccan Now Overdue From Same Port.

Victoria, B. C., Aug. 26.—British ship Sierra Leona arrived tonight, 56 days from Hongkong in ballast, having left ten days later than the ship Deccan, which has been reinsured at ten percent because of her long voyage. The Sierra Lucena did not sight the overdue vessel.

NEW INSURANCE COMPANIES TO BEGIN BUSINESS

Capitalized at Three Millions and Backed By Well Known Financiers.

New York, Aug. 26.—According to reports circulated yesterday in the financial district a new life insurance company is being organized and more than \$3,000,000 already has been subscribed. Non 900 already has been subscribed towards its capitalization. The list of men who have signified their intention of taking stock includes some of the wealthiest and best known financiers in the country.

It is understood the promoters will not take definite steps toward beginning business until \$3,000,000 has been subscribed. Non participating policies will be issued and it is planned to make the cash values of these policies practically the full reserve. In other words, if a policy holder lives to realize on his policy during his life, the full legal reserve will be paid to him less five percent.

READING GOES UP

Week in Stock Market is Sensational One.

NEW HIGH RECORDS MADE

The Steady Upward Tendency of a Number of Important Stocks During Past Three Months Is Checked by the Reading Movement.

New York, Aug. 26.—The week in the stock market was notable for the establishment of new high records in a number of important stocks and for a sensational movement upward movement in Reading. The steady rise of the last three months continued with slight interruption, but was checked by the leading movement, which excited fears of a corner in that stock and that produced general declines. Trading during the greater part of the week was large in volume, with a broadening tendency, but became dull and featureless at the end. The improved tone of steel and iron, cereal and copper stocks reflected the uniformly excellent conditions reported in these various industries. Crop advices were of a favorable tenor and railroad returns satisfactory. The peace negotiations at Portsmouth were partly a factor though some disappointment was expressed at the lack of progress reported.

ANNUAL REPORT OF SECRET SERVICE BUREAU.

Arrests Relating to Counterfeit Currency Predominate.

Washington, Aug. 24.—The annual report of Chief Wilkie of the secret service shows a total of 532 arrests, of which 41 related to counterfeits of currency, 52 to altered obligations, 344 to the counterfeiting of coin and the others in connection with various violations of the federal statutes.

The nationality of the defendants represented the most of the civilized countries, but native born offenders led with 392. Italy being second with 42 and Austria third with 13.

In geographical divisions of prosecutions Pennsylvania led with 94. New York had 77, Ohio 35, California 29, Missouri 23. All of the states and territories except Alaska being represented.

One case was prosecuted in Cuba, counterfeit notes confiscated by the service aggregated \$36,934 against \$44,350 the previous year; while the coins secured aggregated \$24,110, against \$16,419 for the previous 12 months. There were captured 165 plates of various descriptions for the making of counterfeit notes and 454 dies and moulds for coining. A very large proportion of the counterfeit coins was captured in the hands of the makers before being placed in circulation.

Arrangements have been made for the establishment of branches of the service at Honolulu, where indications have pointed to the developments of coining enterprises.

FRAUD UNEARTHED

Officers of Vessels Return Their Naturalization Papers.

SECURED THROUGH FRAUD

Also Return Their Licenses as Seamen on American Vessels—Acts Are Voluntary and Result of Investigations by Secret Service Officials in the Bay City.

San Francisco, Aug. 26.—Leopold Quayle, first officer of the steamer City of Sydney; William Beveridge, chief engineer of the steamer Redondo, and Hugh Auld, chief engineer of the Algon, have voluntarily surrendered their citizenship papers they turned over their licenses as seamen on American vessels. This is by far the most sensational development that has yet occurred since the unearthing of the fraudulent citizens by the secret service agents.

MONSTER EAGLES TERRIFY CANTONS.

Beat Kine to Death and Attack Children—Terror to the Country.

Berne, Aug. 26.—A sory of the raids of three great eagles comes from Muhlbach, county of Valais, Switzerland. The birds of prey have made many attacks upon cattle and animals. Recently they have even attacked persons.

A short time ago they attacked a heifer, continually striking it with their talons until it was almost entirely devoured. Shortly afterward a new exploit was recorded to their credit. The three terrible birds threw themselves upon a magnificent bull. The animal defended himself with courage. But its head and neck were so terribly ripped and torn by their powerful beaks that a veterinary surgeon was called in to kill it.

Finally they attacked a little girl who happened to be alone on the mountains. Her terrified screams were, however, happily heard, and help came in time, no greater misfortune befalling her than the loss of a few tresses.

The eagles have become the terror of the entire country side, and hunters are everywhere on the lookout. A similar combat between a boy and a powerful eagle is reported from Gesteig, near Berne. The lad wounded on the cheek and hand contrived to drive the eagle against a cliff, dealing it blows until his umbrella broke. As the eagle made the third attack, the boy drove his pocket-knife into his eye. With loud cries it then returned swiftly to the mountains.

CHINESE BOYCOTT PARALYZES TRADE.

No Wheat Shipments on Pacific Coast Ports to China—Orders Canceled.

Seattle, Aug. 26.—Advice received today by the Hammond Milling company of this city from its agent in Hongkong state that the Chinese boycott of American goods has completely paralyzed the flour trade between Pacific coast ports and China. No sales have been made since July 15 and all orders for September shipment have been canceled.

The company's agent writes that the bread-makers in the bak shops of Canton and Hongkong refuse to handle American flour and the small dealers dare not purchase it for this reason. The trade with the straits settlements and Indo China is also threatened by reason of the fact that the flour supply for these countries is controlled wholly by Chinese merchants.
