SURGEON A NOVICE

Mimicry of Chinese Physician Proves Serious.

USED KNIFE TOO FREELY

Attempted to Cut Tumor from Countryman's Knee in Imitation of White Physician—Interesting Letter from Missionary at Liangtan, Hunan, China.

New York, Aug. 27.—A report just received from Dr. Ernest G. Vanderburgh, a medical missionary at Liangtan, Hunan, China, affords an interesting comparison of Chinese and American surgical methods.

"This Chinese doctor," writes Dr. Vanderburgh, "had heard of the operations which had been performed in the Presbyterian hospital, and he thought that he must do some operations to make his name great, and not let the foreign devil doctor get all his patients away from him."

"I told them to put the man in a chair and carry him to the hospital, at the same time sending for Mr. Locke to give the chloroform. We operated, and found a mass of varicose veins at the bottom of this tumor which was about four inches in diameter."

"In the meantime, word came that the poor Chinese doctor had been put into prison. We all thought that was hard, and I sent over my card and asked that he be released, now that the man operated upon was out of danger."

"The unfortunate doctor has now gone for good; left these parts, powders, drugs and banners, and the doctor who helped him comes out every day and in other ways shows his friendship."

At the hospital and dispensaries under Dr. Vanderburgh's care there were treated in the last year 1,436 patients, besides 32 in-patients, 19 major operations and 53 minor operations were performed.
