YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

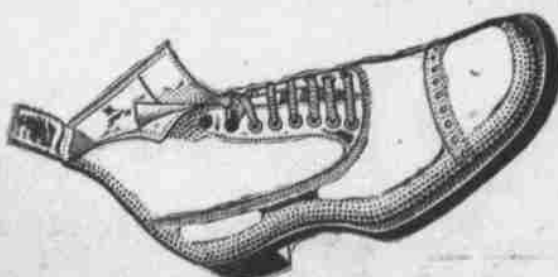

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co. Detroit, Mich.

Eagle Drug Store, 351-353 Bond St., Owl Drug Store, 549 Com. St., T. F. Laurin, Prop. "Special Agent."

IS DELAYED A YEAR

Brooklyn Subway Will not Be Completed Until 1907,

DIFFICULTIES EXPERIENCED

Fulton Street and Flatbush Avenue Subway at Last Commenced—Additional Tracking, However, Will Greatly Delay Completion.

Brooklyn, Aug. 31.—Practical steps toward the additional tracking of the Fulton street and Flatbush avenue subway were taken yesterday on Fulton street, by the contractors. After a discussion of months the new plans were ordered to be carried out, official assurance having been given of the consents of the property-owners.

Chief Engineer Mean said the change in the plans would probably involve at least a year's delay in the completion of the tunnel. He was not prepared to give dates as to finishing time, but gave the impression that 1907 would be out of its swaddling clothes before the first car shall run underground from Furman street to Flatbush avenue.

New engineering difficulties have been created by the additional tracking. Fulton street is a 60-foot thoroughfare, and the four tracks to be laid between the foundations will take up almost every inch of road from building line to building line. The work of enlarging the excavation was begun from De Kalb avenue and Fulton street shaft this morning. Here five tracks will be required, the fifth to be used for switching. The workmen, supporting the elevated road with false work as they proceed, have reached Bridge street, where station room is being provided. The four tracks will run from Borough Hall to Bond street. There will be five tracks from Bond street to Flatbush avenue, and six tracks on the avenue. Two of the latter tracks will be double-decked. The workmen from this on will concentrate their energies towards enlarging the tunnel.

All indications point to the completion of the connecting two tubes below the East river before the additional tracks are laid in Brooklyn.

While the lower portion of Joralemon street has, after 26 months of subway delving, resumed its normal aspect, the upper part of that thoroughfare is now experiencing a siege at the hands of the subway burrower. Today Crawford & McNamee had, working half way down Joralemon street to Clinton street. Within a few weeks, it is said, connection would be made with the East river tubes at Clinton street. There Crawford & McNamee's contract ends and the New York Tunnel company's begins.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Chas. Rogers, druggist, sells and guarantees them, at 50c a bottle.

MCOWELL-PYLE COMPANY.

The Fischer opera house was crowded to the doors last night to witness the production of "Crawford's Claim" by the McCowell Pyle company. And from the liberal applause the show was heartily enjoyed. This company is certainly winning its way into the hearts of the show going people of Astoria, and the performances are worthy of the patronage they are getting. Astoria has not been favored by so evenly balanced a company in a long time. Every one in their respective roles gives a good account of themselves and consequently the performances are as a whole the best we have had in many days from a repertoire company. Space will not permit to give individual mention, but to single out the details as they are worked, the company deserve credit. Tonight they will present the funny farce comedy "The Private Secretary." This play is considered to be one of the company's best plays and if you miss this you certainly will miss a treat when it is considered one of the best you may feel assured of laughing. In a way you have not laughed at a play in many days.

BIG SUM PAID OUT.

More than \$60,000 was paid out yesterday to fishermen by the city's banking institutions. Since the close of the fishing season nearly half a million dollars has been paid out, and it is estimated that a similar sum will be expended during the next ten days.

WELL EARNED PROMOTION

Hans Jacobsen who has been with the past 17 years has been offered the management of the Portland agency of the company and expects to leave for the metropolis in the morning to assume charge of the office.

OFFICER IS BANQUETED

Grand chancellor L. M. Curl, K. of P., of Albany paid Astor lodge an official visit last night. Aside from routine, several impromptu speeches were made and a banquet followed. Mr. Curl expressed himself as highly pleased with his reception.

TO ERECT TERMINAL

Splendid Suburban Depot to Be Built in Baltimore.

FIVE MILLION IS THE COST

Baltimore Terminal Company Organized to Build Depot for Accommodation of Suburban and Interurban Electric Railways—Heart of Business Section.

Baltimore, Aug. 31.—The Baltimore Terminal company has been organized as a subsidiary company of the Washington, Baltimore & Annapolis railway, to construct a terminal in the city to accommodate the cars of the Washington, Baltimore & Annapolis. An ordinance is already pending before the city council to permit the parent company to operate its suburban cars in the city, having Baltimore street and Hopkins place as their central station.

The advantage to the company in such a location is that it will be within two blocks of the heart of the shopping district. The statement is made by George T. Bishop that the subsidiary company has \$5,000,000 to spend on its improvements at that point and proposes to go ahead with the work at once.

Touching the service which is to be given on the Washington, Baltimore & Annapolis, George T. Bishop, the president of the road, says it is the intention to have at least three, and possibly four cars each way an hour between Washington and Baltimore, while the service to Annapolis will be complete, although not quite so frequent. Each of the cars will be equipped with four motors, developing each 125-horsepower. These will permit the road to run its cars at the rate of 70 miles an hour if necessary.

The Astorian, 75 cents a month.
